Family life, home, housing, housing diversity, housing diversity in the world, intergenerational issues, family problems, daily conflicts, family problems on daily conflicts, sharing the same house, intergenerational issues, relationships, community, relationships between the family and the community.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will explore the theme "Family Life and Home" by examining "housing diversity around the world", "intergenerational issues and family problems related to daily conflicts and sharing the same house", and "the relationships between families and their communities. Students will create a comparative project where they research different housing styles and living arrangements globally, reflecting on how culture and geography influence these differences. They will also write a short fictional story or script describing a typical day in a multi-generational household, highlighting challenges and solutions for improving harmony. The project will finish with the ways students will propose families to

2899832374 - 2899832374 - 2899832374

strengthen their ties with the community, such as through volunteering or cultural events. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "family life and home with its components such as housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in the after prep year 9 of an upper secondary school may know what housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in the after prep year 9 of an upper secondary school, they are expected to know some basic vocabulary about "family life and home" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in the after prep year 9 of an upper secondary school are ready to learn the concept of "family life and home with its components such as housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "family life and home with housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the

2899832374 - 2899832374 - 2899832374

material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.9.4.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "family life and home", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "family life and home" to prepare themselves to work on guessing the topic of the current theme, "family life and home with housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" **(V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session **(D3.8, V3.3, LS1, LS4).**

ENG.9.4.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "family life and home with housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by

thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG.9.4.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "family life and home with housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" as a whole **(CS2.13),** without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8).** This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places some headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme. **(D3.7, V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks)**(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are

not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.9.4.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.9.4.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "family life and home with housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and

(2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.9.4.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.1, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half

silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6).** The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1).** S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.1, D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/ sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise

with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also

give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.9.4.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2.

Principles for the Implementation of the English Language Curriculum".

ENG.9.4.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.9.4.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" **(D3.6, V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.9.4.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20).** After this stage, they work on activities to connect their knowledge and skills they have acquired about "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.9.4.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.9.4.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.9.4.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.9.4.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.9.4.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.9.4.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.9.4.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" through their writing tasks **(V2.2, V2.3, V2.4, V5.1, V8.3, V15.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.4.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.9.4.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.9.4.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" in context. At this stage, they try to understand how the language is used in the target content

2899832374 - 2899832374 - 2899832374

by examining thespeaking model/example carefully **(V2.2, V2.3, V2.4, V3.3, V5.1, V8.3, V15.2, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.9.4.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.9.4.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.9.4.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "family life and home with housing diversity in the world; intergenerational issues and family problems on daily conflicts and sharing the same house; relationships between the family and the community" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.4.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To describe various types of homes and their features in English by using the target vocabulary.

Activity 1: Exploring Homes Around the World

Students work in groups of 3–4 to explore housing diversity by using target vocabulary and adjectives. Each group receives a list of housing types (e.g. a bungalow, a skyscraper, a mansion) and features (e.g. a chimney,

a staircase, a terrace) along with a blank table labelled: Type of Home, Their Features, Adjectives to Describe It. Groups discuss and fill in the table by matching housing types with features and descriptive adjectives, then create sentences (e.g. "A mansion is a spacious and luxurious home with an elegant staircase and a large chimney"). The teacher monitors discussions, provides feedback on the choice and use of vocabulary and pronunciation, and helps with accurate sentence formation. In the end, groups present their favourite housing type, by using sentences to describe it, and then the teacher gives constructive feedback. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To describe personal family events in English by using target vocabulary and target grammar.

Activity 1: Fill in the Blanks

The teacher draws a simple timeline on the board and marks significant family events (e.g. moving to a new house, visiting relatives, celebrating birthdays), writes example sentences by using the Present Perfect Tense and Present Perfect Progressive Tense such as "We have been living in this house for five years" or "My grandparents have visited us many times". The teacher reads these sentences aloud by emphasising correct pronunciation and structure. Then students design their own timelines, mark 3–4 significant family events, and write sentences using provided sentences such as "We have been _____ for _____ years" or "My family has _____ many times". Finally, students take turns reading their sentences aloud while the teacher provides feedback on the language choice and use including target grammar, pronunciation, and accuracy. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 9 (AFTER PREP)-LEVEL: B2.1

THEME 5: LIFE IN THE NEIGHBOURHOOD, CITY & SOCIAL LIFE

Sub-themes: City development and infrastructure; urban and rural lifestyles; future of cities

This theme is centred on the concept of "life in the neighbourhood, city, and social life" and covers the sub-themes of "city development and infrastructure; urban and rural lifestyles; future of cities". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

INTERSKILLS CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Structuring Skill, CS2.14. Interpretation Skill, CS2.15. Reflective Thinking Skill, CS2.16.1. Inductive Reasoning Skill, CS2.16.2. Deductive Reasoning Skill, CS2.16.3. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem-Solving Skill, CS3.3. Critical Thinking Skill

9983237 4 - 2899832374 - 2899832374 - 2899832374

After Prep-Year 9 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.9.5.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.9.5.L2. Students can bring together the information in the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.9.5.L3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.9.5.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.9.5.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.9.5.R1. Students can prepare for reading the content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.9.5.R2. Students can bring information together about the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

9983237 4 - 2899832374 - 2899832374 - 2899832

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.9.5.R3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.9.5.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.9.5.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.9.5.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.9.5.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

9983237A - 28998323

ENG.9.5.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.9.5.W3. Students can construct new written content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.9.5.W4. Students can practise producing written content based on the current theme "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.9.5.W5. Students can engage in the process of writing related to the content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

2899832374 - 2899832374 - 2899832374

ENG.9.5.W6. Students can reconstruct their writing about the current theme on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.9.5.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.9.5.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.9.5.S2. Students can analyse and understand the model content related to "Life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.9.5.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.9.5.S4. Students can construct meaningful spoken content about "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.9.5.S5. Students can reconstruct the information about "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.9.5.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE NEIGHBOURHOOD, CITY & SOCIAL LIFE

Sub-themes: "City development and infrastructure; urban and rural lifestyles; future of cities"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for city development and infrastructure: Nouns: An analyst, a budget, a cable, a committee, concrete, a construction, a council, an estate, an institution, immigration, a lane, a mayor, a zone. Verbs: To accommodate, to anticipate, to calculate, to construct, to distribute, to govern, to propose, to disturb, to rebuild, to transform, to lay (pipes, cables), to renovate, to restore, to strengthen. Adjectives: Lively, urban, efficient, developed, vibrant.

Vocabulary for urban and rural lifestyles: Nouns: An arrow, a cliff, a shelter, a brick, a district. Verbs: To abandon, to dig, to wander. Adjectives for urban lifestyles: Diverse, fastpaced, commercial, energetic, charming, dynamic, entertaining, outstanding. Adjectives

for rural lifestyles: Tranquil, peaceful, slow-paced, remote, authentic, tropical, unique, conventional, distant. Adverbs: Aside.
Vocabulary for Future Cities: Adjectives: Advanced, sustainable, innovative, high-tech, eco-friendly, flexible, accessible, energy-efficient, global. Adverbs: Automatically.
Vocabulary for challenges to overcome in future of cities: Nouns: Privacy, overpopulation, resource management. Phrasal verbs: Put aside.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Future Tense vs Be Going to Future Tense: (The committee will restore the museum. The officials are going to rebuild this zone for security).
-Connecting Words Expressing Cause and Effect, Contrast: (so, which, until, why, while, when, as, before, after, as long as, whenever, whereas, but, by the time, even though, despite, etc.): (The city is crowded and fast-paced, in contrast, rural areas are calm and spacious).

Functions of the Grammatical Structures in Use:

-Use of the Simple Future Tense versus Be Going to Future Tense: Discriminating future plans, predictions, planned actions from unplanned actions and spontaneous decisions.
-Use of Connecting Words Expressing Cause and Effect, Contrast: (so, which, until, why, while, when, as, before, after, as long as, whenever, whereas, but, by the time, even though, despite, in spite of, etc.): Clarifying the relationship between the ideas about life in the neighbourhood and social life.

Target Social Language Expressions in Use:

Let's meet up at the new café!
It's quicker if we take the tram.
There's a cool spot near the square!
This city never sleeps!

Target Phonological Sounds in Use:

Vowels: i: (/aɪ/, /ɪ/, /i:/)
Consonants: f: (/f/); g: (/g/, /dʒ/, silent /g/); h: (/h/), silent /h/); j: (/dʒeɪ/, /dʒ/); k: (/k/, silent /k/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the neighbourhood, city and social life with its components such as city development and infrastructure; urban and rural lifestyles; future of cities" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student (year 9-after prep) of an upper secondary school may know what "life in the neighbourhood, city and social life with its components such as

5998323274 - 28998323274 - 28998323274 - 2899832

city development and infrastructure; urban and rural lifestyles; future of cities" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Neighbourhood, city, social life, life in the neighbourhood, life in the city, city development, infrastructure, city development and infrastructure, urban lifestyles, rural lifestyles, urban and rural lifestyles, future, cities, future of cities.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will produce a project including the sub-themes "Life in the Neighbourhood, City, and Social Life" by focussing on city development and infrastructure, urban and rural lifestyles, and the future of cities. Students will research and compare urban and rural living. They will focus on daily life, opportunities, and challenges in each item. They will create a presentation with a poster showing how infrastructure such as transportation, housing, and public spaces influences city life. Additionally, students will imagine and design a "City of the Future," displaying innovative solutions for sustainable living, improved infrastructure, and community well-being. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the neighbourhood, city and social life with its components such as city development and infrastructure; urban and rural lifestyles; future of cities" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in the after prep year 9 of an upper secondary school may know what city development and infrastructure; urban and rural lifestyles; future of cities mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in the after prep year 9 of an upper secondary school, they are expected to know some basic vocabulary about "life in the neighbourhood, city and social life" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students after prep year 9 of an upper secondary school are ready to learn the concept of "life in the neighbourhood, city and social life with its components such as city development and infrastructure; urban and rural lifestyles; future of cities" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the neighbourhood, city and social life with city development and infrastructure; urban and rural lifestyles; future of cities" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.9.5.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the neighbourhood, city, and social life", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the neighbourhood, city, and social life" to prepare themselves to work on guessing the topic of the current theme, "life in the neighbourhood, city, and social life with city development and infrastructure; urban and rural lifestyles; future of cities" **(V3.3, V5.1, V5.2, V5.3, V14.3, V18.3, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the

"establishing links" session **(D3.8, V3.3, LS1, LS4).**

ENG.9.5.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "life in the neighbourhood, city, and social life with city development and infrastructure; urban and rural lifestyles; future of cities" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V5.1, V5.2, V5.3, V14.3, V18.3, LS1, LS4, LS5, LS8, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG.9.5.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s)) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "life in the neighbourhood, city, and social life with city development and infrastructure; urban and rural lifestyles; future of cities" as a whole **(CS2.13),** without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V5.1, V5.2, V5.3, V14.3, V18.3, LS2, LS4, LS5, LS8).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8).** This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places some headings on the smart board/whiteboard/blackboard

which are on the target vocabulary list of the related theme as clues to the components of the current theme. **(D3.7, V5.1, V5.2, V5.3, V14.3, V18.3, LS5, LS8).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.9.5.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, LS8, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.9.5.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "life in the neighbourhood, city, and social life with city development and infrastructure; urban and rural lifestyles; future of cities". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words,

9983274-289983274-289983274-2899832

and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.9.5.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: city development and infrastructure; urban and rural lifestyles; future of cities **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take

place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.1, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6).** The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "city development and infrastructure; urban and rural lifestyles; future of cities" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1).** S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.1, D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/ sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes,

time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "city development and infrastructure; urban and rural lifestyles; future of cities" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "city development and infrastructure; urban and rural lifestyles; future of cities" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6,**

D3.7, CS2.5). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.9.5.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5,**

D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.5.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.9.5.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "city development and infrastructure; urban and rural lifestyles; future of cities" **(D3.6, V5.1, V5.2, V5.3, V14.3, V18.3, LS2, LS5, LS8, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.9.5.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what city development and infrastructure; urban and rural lifestyles; future of cities mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20).** After this stage, they work on activities to connect their knowledge and skills they have acquired about "city development and infrastructure; urban and rural lifestyles; future of cities" with CLIL (history, maths, science, etc.) and cultural issues to be able to

enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V5.1, V5.2, V5.3, V14.3, V18.3, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.9.5.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.9.5.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "city development and infrastructure; urban and rural lifestyles; future of cities" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.9.5.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to city development and infrastructure; urban and rural lifestyles; future of cities in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.9.5.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.9.5.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on city development and infrastructure; urban and rural lifestyles; future of cities for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V5.1, V5.2, V5.3, V14.3, V18.3, LS5, LS8, CS2.14, CS3.3)**. Storification and

gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.9.5.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.9.5.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about "city development and infrastructure; urban and rural lifestyles; future of cities" through their writing tasks **(V5.1, V5.2, V5.3, V14.3, V18.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.5.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.9.5.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.9.5.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "city development and infrastructure; urban and rural lifestyles; future of cities" in context. At this stage, they try to understand how the language is used in the target content by examining thespeaking model/example carefully **(V3.3, V5.1, V5.2, V5.3, V14.3, V18.3, LS1, CS2.4, CS2.19,**

CS3.2). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.9.5.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.9.5.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.9.5.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "life in the neighbourhood, city, and social life with city development and infrastructure; urban and rural lifestyles; future of cities" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.5.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To express opinions about "ideal city" or "rural setting" in English by using target vocabulary and target grammar.

Activity 1: My Ideal City

Students write a paragraph describing their ideal city or rural place by using target vocabulary such as adjectives and adverbs (e.g. advanced, innovative, eco-friendly, vibrant).

Example:
"My ideal city will be eco-friendly and sustainable with vibrant streets and eco-friendly living spaces. Public transportation will operate efficiently and automatically and it is connecting every corner of the city. Rural areas are peaceful and tranquil. They offer a simple but authentic lifestyle far from the fast-paced life of urban centres".
The teachers gives feedback on students' papers on creativity and effective use of language. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To describe "city development and infrastructure; urban and rural lifestyles; future of cities" with causes and effects in English by using target vocabulary and target grammar.

Activity 1: Urban life and rural life
In this activity, the teacher gives students two parts of a sentence, and they must match them by using a connecting word (e.g. because, but, so, while). For example: Part 1: The city is crowded. Part 2: Rural areas are quiet. The combined sentence might be: The city is crowded but rural areas are quiet. Another example: Part 1: The council is building new roads. Part 2: People will travel faster. The combined sentence might be: The council is building new roads so people will travel faster. To support learners, s/he provides a list of connecting words with definitions and examples to make the activity easier for them. The teacher gives feedback on accuracy and use of the target language including the target vocabulary and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 9 (AFTER PREP)-LEVEL: B2.1

THEME 6: LIFE IN THE WORLD & CULTURE

Sub-themes: Global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life

This theme is centred on the concept of "life in the world and culture" and covers the sub-themes of "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.9.6.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.9.6.L2. Students can bring together the information in the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.9.6.L3. Students can make sense of and derive meaning from the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374 - 2899832

ENG.9.6.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.9.6.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.9.6.R1. Students can prepare for reading the content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.9.6.R2. Students can bring information together about the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.9.6.R3. Students can make sense of and derive meaning from the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.9.6.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.9.6.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

2899832374 - 2899832374 - 2899832374 - 2899832

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.9.6.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

899832374 - 28998323

ENG.9.6.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.9.6.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.9.6.W3. Students can construct new written content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.9.6.W4. Students can practise producing written content based on the current theme "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832374 - 2899832

ENG.9.6.W5. Students can engage in the process of writing related to the content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.9.6.W6. Students can reconstruct their writing about the current theme on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.9.6.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.9.6.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.9.6.S2. Students can analyse and understand the model content related to "Life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.9.6.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

9983274 - 28998323

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.9.6.S4. Students can construct meaningful spoken content about "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.9.6.S5. Students can reconstruct the information about "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.9.6.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

9983274 - 2899832374 - 2899832374 - 2899832

CONTENT FRAME

LIFE IN THE WORLD & CULTURE

Sub-themes: "Global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for global cuisines, food habits and cultures: Nouns: Consumption, a combination, flavour, nutrition, obesity, a portion, a preference, protein, spice. Verbs: To chop, to manufacture, to swallow. Adjectives: Affordable, balanced, beneficial, dairy, organic.
Vocabulary for cultural diversity and international sports events: Nouns: Conservation, a leaflet, a legend, a myth, a parade. Verbs: To adapt, to classify, to distinguish, to inherit.
Adjectives: Appropriate, mixed, precious. Adverbs: Genuinely.
International sports events: Nouns: An applicant, a marathon, a medal, a membership, a referee, a spectator, a sponsorship, an opponent, a representative, a pitch, a venue.
Verbs: To broadcast, to cheer, to equip. Adjectives: Entertaining, risky, skilled. Adverbs: Severely.
Impact of globalisation on everyday life: Nouns: A civilization, fame. Verbs: To dominate, to edit, to exploit. Adjectives: industrial, universal, widespread. Adverbs: Apparently, extensively, rapidly.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Modals for Probability: ("Can, Could, May, Might, Must"): (The combination of organic vegetables can provide a better source of nutrition).
-Modals for Lack of Probability ("Can't, Couldn't"): (That can't be dessert. It's too sour!)
-Modals for Speculation: ("Can, Could, May, Might, Must, Can't, Couldn't"): (She must be the assistant chef of this restaurant).
-Modals for Deduction ("Must, Can't, Might, May, Could"): (The meal must be high in protein because it's made of meat).
-Modals for Obligation and Necessity ("Must, Have to, Need") Obligation in the Past ("Had to"): (They must wash their hands before cooking the food).
-Modals for lack of Obligation ("Don't have to- Don't need to, Needn't"): (You don't have to eat that soup if it doesn't taste good).
-Modals for Prohibition ("Must not - Can't"): (You can't enter the kitchen. You don't work here).
-Modals for Lack of Prohibition (Modals for Permission) ("Can, may, could"): (You could learn the recipe if you like).
-Modals for Advice ("Should, Ought to, Had better, Could"): (You should try Turkish "Dolma" if you want to taste traditional food in Türkiye)
-Be Able to in the Present and Future: (People will be able to reach global markets more easily due to developments in technology in the future).

Functions of the Grammatical Structures in Use:

-Use of Modals ("Can, Could, May, Might, Must"): Expressing probability and speculation.
-Use of Modals ("Can't, Couldn't"): Expressing lack of Probability.
-Use of Modals ("Could, Must, Can't, Might, May"): Expressing deduction.
-Use of Modals ("Must, Have to, Need") Obligation in the Past ("Had to"): Expressing obligation and necessity.
-Use of Modals ("Don't have to, Don't need to, Needn't"): Expressing lack of obligation.
-Use of Modals ("Must not - Can't"): Expressing prohibition.
-Use of Modals (Modals for Permission) ("Can, may, could"): Expressing lack of prohibition.
-Modals for Advice ("Should, Ought to, Had better, Could"): Expressing advice and recommendation.
-Use of "Be Able to in the Present and Future" ("Am-is-are able to, will be able to": Expressing ability.

Target Social Language Expressions in Use:

That's part of our tradition!
Let me show you something from our culture!
Different is interesting, not weird!
Culture brings us closer!

Target Phonological Sounds in Use:

Vowel: o
Consonants: l, m, n, (ng), p
Vowel: o: (/əʊ/, /ɒ/, /əʊ/)
Consonants: l: (/ɛl/ /l/, silent /l/); m; (/ɛm/,/m/); n: (/ɛn/, /n/, silent /n/); ng: (/ng/); p: (pi://p/, silent /p/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student (year 9-after prep) of an upper secondary school may know what "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Global cuisines, food habits, food cultures, food habits and cultures, global cuisines and food cultures, cultural diversity, international sports events, international film events, international musical events, international sports, films and musical events, globalisation, everyday life, impact of globalisation, impact of globalisation on everyday life.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will explore the theme "Life in the World and Culture" by focusing on global cuisines, food habits, and cultures, cultural diversity through international sports, films, and musical events, and the impact of globalisation on everyday life. Students will design "a cultural portfolio" in which they choose one country to research and present its unique food traditions, popular cultural events, and important contributions to global sports or arts. They will also examine how globalisation has influenced these traditions, such as the fusion of cuisines or the international popularity of certain sports and films. The portfolio will include visuals, descriptions, and personal reflections on what they have learnt about the interconnectedness of cultures worldwide. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

2899832374 - 2899832374 - 2899832374 - 2899832

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the world and culture with its components such as global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student after prep year 9 of an upper secondary school may know what global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in the after prep year 9 of an upper secondary school, they are expected to know some basic vocabulary about "life in the world and culture" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students after prep year 9 of an upper secondary school are ready to learn the concept of "life in the world and culture with its components such as global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.9.6.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the world and culture", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the world and culture" to prepare themselves to work on guessing the topic of the current theme, "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" **(V4.5, V5.1, V7.1, V7.2, V7.3, LS1, LS5, LS9).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session **(D3.8, V3.3, LS1, LS4).**

ENG.9.6.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V4.5, V5.1, V7.1, V7.2, V7.3, LS1, LS4, LS5, LS9, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme

of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG.9.6.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s)) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" as a whole **(CS2.13),** without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V4.5, V5.1, V7.1, V7.2, V7.3, LS2, LS4, LS5, LS9).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8).** This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places some headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme. **(D3.7, V4.5, V5.1, V7.1, V7.2, V7.3, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles

for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.9.6.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, LS9, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.9.6.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and

5998323574 - 28998323574 - 28998323

feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.9.6.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.1, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6).** The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text

(D2.4, D3.2, SELS2.2, V4.2, V6.2). The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1).** S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.1, D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/ sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1,**

2899832374-2899832374-2899832374

V4.2, CS2.19). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.9.6.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some

sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.6.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading

starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.9.6.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" **(D3.6, V4.5, V5.1, V7.1, V7.2, V7.3, LS2, LS5, LS9, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.9.6.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20).** After this stage, they work on activities to connect their knowledge and skills they have acquired about "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V4.5, V5.1, V7.1, V7.2, V7.3, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.9.6.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they

revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.9.6.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.9.6.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.9.6.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.9.6.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V4.5, V5.1, V7.1, V7.2, V7.3, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.9.6.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in

9983237A - 2899832374 - 2899832374 - 2899832

fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.9.6.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" through their writing tasks **(V4.5, V5.1, V7.1, V7.2, V7.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.6.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.9.6.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.9.6.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" in context. At this stage, they try to understand how the language is used in the target content by examining thespeaking model/example carefully **(V3.3, V4.5, V5.1, V7.1, V7.2, V7.3, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.9.6.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher

prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.9.6.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.9.6.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "life in the world and culture with global cuisines, food habits and cultures; cultural diversity and international sports, films and musical events; impact of globalisation on everyday life" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.6.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about global cuisines, food habits, and cultures in English by using target vocabulary.

Activity 1:

Students write a short paragraph about global cuisines or cultural diversity using at least five target vocabulary and grammatical items (e.g. modals for probability, necessity, or advice). For example, they might describe a dish such as Turkish Dolma (stuffed peppers) by explaining its ingredients, preparation, and cultural significance. After writing, they create a slide with visuals (e.g. a picture of the dish). Then they present their slide and paragraph to the class, explaining globalisation or cultural habits. The teacher provides feedback on the use of language including target vocabulary, grammar, and also their presentation skills. Students reflect on their thoughts and feelings about the activity.

9983274 - 2899832374 - 2899832374 - 2899832

Supporting

Objective: To talk about global cuisines and their impact on people in English by using target vocabulary.

Activity 1: Understanding Global Cuisines and Their Influence

The teacher prepares a short paragraph about global cuisines and their influence on people. Students read the paragraph and answer simple comprehension questions to practice target vocabulary and target grammar.

Reading Text (Simplified):

"Global cuisines are very popular today. People can try many different flavours such as spicy or sweet dishes from all over the world. For example, sushi is a famous Japanese dish made with rice and fish. To make it, chefs chop fresh ingredients and combine them carefully. Eating healthy food like sushi can be good for your nutrition. You should also avoid eating too much sugar because it may cause health problems like obesity. If you want to cook healthy meals, you need to use fresh and balanced ingredients".

Questions:

1. True or False: Sushi is made with rice and fish.
2. What is a good example of healthy food from Japan?
3. Which word means "too much weight" because of unhealthy food?
4. Complete the sentence: "To make sushi, chefs _____ fresh ingredients".

Students read their answers aloud to the class. The teacher gives constructive and supportive feedback on the use of language including accuracy and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 9 (AFTER PREP)-LEVEL: B2.1

THEME 7: LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: Natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)

This theme is centred on the concept of "life in nature and global problems" and covers the sub-themes of "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.9.7.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.9.7.L2. Students can bring together the information in the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.9.7.L3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.9.7.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.9.7.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.9.7.R1. Students can prepare for reading the content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.9.7.R2. Students can bring information together about the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.9.7.R3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.9.7.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.9.7.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

9983237 4 - 2899832374 - 2899832374 - 2899832

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.9.7.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983237 4 - 28998323 74 - 28998323

ENG.9.7.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.9.7.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.9.7.W3. Students can construct new written content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.9.7.W4. Students can practise producing written content based on the current theme "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.9.7.W5. Students can engage in the process of writing related to the content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.9.7.W6. Students can reconstruct their writing about the current theme on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.9.7.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.9.7.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.9.7.S2. Students can analyse and understand the model content related to "Life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.9.7.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

2899832374 - 2899832374 - 2899832374 - 2899832374

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.9.7.S4. Students can construct meaningful spoken content about "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.9.7.S5. Students can reconstruct the information about "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.9.7.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

28998323 74 - 28998323 74 - 28998323 74

CONTENT FRAME

LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: "Natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for natural disasters and their impact on nature:
Natural disasters: An earthquake, a volcanic eruption, a tsunami, a landslide, an avalanche, a flood, erosion, a hurricane, a tornado.
Natural disasters' impact on nature: Nouns: A habitat, a cliff, wildlife, species. Verbs: To harm, to erupt, to ruin. Adjectives: Widespread, inevitable. Adverbs: Inevitably.
Vocabulary for natural disasters and their impact on humans: Nouns: An aid, a disorder, duration, a firefighter, hunger, a kit, panic, pity, shortage, a survival, a survivor, a tragedy.
Verbs: To anticipate, to cope, to forecast, to overcome, to rescue, to strengthen.
Adjectives: Anxious, desperate, homeless, miserable, tragic, severe, unfortunate, urgent.
Adverbs: Desperately, dramatically.
Vocabulary for impact of technology on global issues: Nouns: Healthcare, trading, a device, a recovery. Verbs: To heal, to cure, to maintain, to obtain, to progress. Adjectives: Wise. Adverbs: Primarily, efficiently, likewise.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Relative Pronouns Used for Relative Clauses: (Which, Who, That)(Defining and
Non-defining): (The earthquake that damaged the village caused many inhabitants to become homeless. The survivor, who lost their entire family in the flood, showed great resilience).

Functions of the Grammatical Structures in Use:

-Relative Pronouns Used for Relative Clauses: (Which, Who, That)(Defining and
Non-defining):
-Use of Defining Relative Clauses: (Which, Who, That): Referring to objects or things by providing essential information that identifies them.
-Use of Non-defining Relative Clauses: (Which, Who, That): Referring to objects or things
by adding extra, non-essential information without changing the core meaning of the sentence.

Target Social Language Expressions in Use:

Let's not waste anything on this planet!
We should do something for the Earth, even if it's small.
That earthquake was scary!
Small actions matter for our world!
We have to protect what we've got on this planet!

5989323741 . 2899832374 . 2899832374 . 2899832374

Target Phonological Sounds in Use:

Vowel: u
Consonants: q, r, s, t
Vowel: u: (/juː/, /ʌ/, /juː/, silent /u/)
Consonants: q: (/kjuː/, /k/); r: (/ɑː/(Br), silent /r/ (Br), /aɹ/ (AmE), /ɹ/ (AmE), silent /r/ (Br)); s: (/s/, /ɛs/, /z/, silent /s/); t : (/tiː/, /t/, silent /t/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. Most example, a student (year 9-after prep) of an upper secondary school may know what "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Natural disasters, nature, humans, natural disasters' impact on nature, natural disasters' impact on humans, technology, global issues, AI, data, healthcare, impact of technology, impact of technology on global issues, impact of technology on AI, impact of technology on data, impact of technology on healthcare, impact of technology on global issues including AI, data and healthcare.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will search for the theme "Life in Nature and Global Problems" by examining the effects of humans on natural disasters and effects of natural disasters on nature and humans and the role of technology in addressing global issues such as healthcare, AI, and data solutions. Students will research a specific natural disaster for the details of its environmental and human impact and suggest innovative solutions for being prepared for disasters or recovery by using modern technology. They will design a multimedia presentation or poster showing how technological developments such as AI for disaster prediction can lessen the effects of these disasters. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in nature and global problems with its components such as natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in the after prep year 9 of an upper secondary school may know what natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare) mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.
As they are students in the after prep year 9 of an upper secondary school, they are expected to know some

basic vocabulary about "life in nature and global problems" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students after prep year 9 of an upper secondary school are ready to learn the concept of "life in nature and global problems with its components such as natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.9.7.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in nature and global problems", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in nature and global problems" to prepare themselves to work on guessing the topic of the current theme, "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" **(V5.3, V16.2, V16.3, V17.3, V18.3, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session **(D3.8, V3.3, LS1, LS4).**

ENG.9.7.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V5.3, V16.2, V16.3, V17.3, V18.3, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/ theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG.9.7.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s)) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the

2899832374 - 2899832374 - 2899832374

identification of the target theme "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" as a whole **(CS2.13),** without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V5.3, V16.2, V16.3, V17.3, V18.3, LS2, LS4, LS5, LS8).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8).** This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places some headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme. **(D3.7, V5.3, V16.2, V16.3, V17.3, V18.3, LS5, LS8).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.9.7.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during

the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, LS8, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.9.7.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as

explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.9.7.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare) **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1).** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.1, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6).** The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1).** S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.1, D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/ sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in

9983274 - 28998327

the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.9.7.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities

and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.7.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.9.7.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories

with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" **(D3.6, V5.3, V16.2, V16.3, V17.3, V18.3, LS2, LS5, LS8, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.9.7.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare) mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20).** After this stage, they work on activities to connect their knowledge and skills they have acquired about "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V5.3, V16.2, V16.3, V17.3, V18.3, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.9.7.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.9.7.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.9.7.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the

language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare) in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.9.7.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.9.7.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare) for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V5.3, V16.2, V16.3, V17.3, V18.3, LS5, LS8, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.9.7.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.9.7.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" through their writing tasks **(V5.3, V16.2, V16.3, V17.3, V18.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the

2899832374 - 2899832374 - 2899832374

relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.7.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.9.7.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.9.7.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" in context. At this stage, they try to understand how the language is used in the target content by examining thespeaking model/ example carefully **(V3.3, V5.3, V16.2, V16.3, V17.3, V18.3, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.9.7.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.9.7.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language

expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.9.7.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "life in nature and global problems with natural disasters and their impact on nature; natural disasters and their impact on humans; impact of technology on global issues (AI, data, healthcare)" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.7.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about natural disasters and their influence on nature; natural disasters and their influence on humans in English by using the target vocabulary.

Activity 1: Disaster Response Simulation

Students work in small groups, and the teacher assigns each group a disaster scenario (e.g. a flood destroying a village, a volcanic eruption threatening a town). Within each group, students take roles such as "Emergency Responder, Local Authority, Environmental Scientist, and Survivor". They role-play a meeting to discuss the disaster's effects by using target vocabulary (e.g. rescue, destruction, survival) and target grammar (e.g. "The flood, which destroyed our homes, left us desperate for help"). After their discussions, groups present a summary to the class, and the teacher gives feedback on use of vocabulary, grammar, and also of communication. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about natural disasters and their impact on nature in English by using target vocabulary.

Activity 1: Match and design

Students work in small groups, and the teacher provides each group with two sets of cards: one with target vocabulary (e.g. earthquake, habitat, harm) and another with their definitions. Groups match the words with the correct definitions. After matching, each group selects 3-4 words and makes sentences by using them, encouraging the use of relative clauses (which, who, that) when possible. For example: "The earthquake that struck the city caused great damage". Groups share their sentences with the class, and the teacher gives feedback on the use of grammar and vocabulary. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 9 (AFTER PREP)-LEVEL: B2.1

THEME 8: LIFE IN THE UNIVERSE & THE FUTURE

Sub-themes: Universal issues in the future; search for habitable planets; space and technology

This theme is centred on the concept of "life in the universe and the future" and covers the sub-themes of "universal issues in the future; search for habitable planets; space and technology". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.9.8.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.9.8.L2. Students can bring together the information in the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.9.8.L3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.9.8.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

2899832374-2899832374-2899832374-2899832

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.9.8.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.9.8.R1. Students can prepare for reading the content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.9.8.R2. Students can bring information together about the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.9.8.R3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*
b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
d) *Students make meaningful inferences from information in the current content by examining it critically.*
e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.9.8.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.9.8.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*
b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*
e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

9983237 4 - 2899832374 - 2899832374 - 2899832

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.9.8.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.9.8.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.9.8.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

2899832374 - 2899832374 - 2899832374

ENG.9.8.W3. Students can construct new written content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.9.8.W4. Students can practise producing written content based on the current theme "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.9.8.W5. Students can engage in the process of writing related to the content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.9.8.W6. Students can reconstruct their writing about the current theme on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

9983237A - 2899832374 - 2899832374 - 2899832

ENG.9.8.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.9.8.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.9.8.S2. Students can analyse and understand the model content related to "Life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.9.8.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.9.8.S4. Students can construct meaningful spoken content about "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

2899832374 - 2899832374 - 2899832374

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.9.8.S5. Students can reconstruct the information about "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.9.8.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE UNIVERSE & THE FUTURE

Sub-themes: "Universal issues in the future; search for habitable planets; space and technology"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for life in the universe: Nouns: Globe, oxygen, carbon, observation. Verbs: To observe. Adjectives: Mysterious, solar, essential, external, outer, unknown. Adverbs: Essentially, universally.
Vocabulary for habitable planets: Nouns: Existence, an exploration, an inhabitant, an astronomer, a civilisation, a mission, a satellite, a rocket, a colony, radiation. Verbs: To attempt, to estimate, to detect, to launch, to settle. Adjectives: Distant, dynamic, massive, potential. Adverbs: Beyond, potentially, elsewhere.
Vocabulary for space and technology: Nouns: An alien, a database, an aircraft, privacy, navigation. Verbs: To implement, to interact, to install, to advance, to transform.
Adjectives: Sophisticated, efficient, curious, artificial.
Phrases: Space mission, interplanetary travel

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

9983237 4 - 2899832374 - 2899832374 - 2899832374

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Zero Conditional: (If you heat water to 100 degrees Celsius, it boils).
-Conditional 1: (If we leave early in the morning, we will have enough time to explore the city centre).
-Conditional 2: (If we found another planet to live on, would people travel there?).
-Wish Clauses: (I wish our planet could be a better place to live).

Functions of the Grammatical Structures in Use:

-Use of the Zero Conditional: Describing general truths, facts, and habits-situations where the result always happens if the condition is met.
-Use of the Conditional 1: Describing realistic situations in future that are likely to happen and/or cause-and-effect relationship between a condition and its probable outcome.
-Use of the Conditional 2: Describing imaginary, unlikely, and unreal situations in the present or future and their results.
-Use of "Wish Clauses": Describing regrets, desires, and/or unreal situations about the present, future and the past.

Target Social Language Expressions in Use:

What do you think the future will be like?
Would you go to space if you could?
Sounds like sci-fi - but maybe not.
The future is closer than we think!
Big ideas start with small questions!

Target Phonological Sounds in Use:

Consonants: v, w, x, y, z
Consonants: v: (/viː/, /v/); w: (/w/), silent /w/); x: (/ɛks/, /ks/, /gz/); y: (/waɪ/, /j/, /ɪ/, /iː/); z: /(zed/ (Br), /ziː/ (AmE), /z/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the universe and the future with its components such as universal issues in the future; search for habitable planets; space and technology" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student (year 9-after prep) of an upper secondary school may know what "life in the universe and the future with its components such as universal issues in the future; search for habitable planets; space and technology" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Life, universe, life in the universe, future, life in the future, universal issues, universal issues in the future, habitable planets, search for habitable planets, space, technology.

2899832374 - 2899832374 - 2899832374 - 2899832374

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will work on and examine the theme "Life in the Universe and the Future" by searching universal issues in the future, the search for habitable planets, and advancements in space and technology. They will imagine what life could look like in the next century by focusing on how humanity could address challenges such as overpopulation, resource consumption, and environmental crises. Students will research current efforts to discover habitable planets and create a futuristic journal entry. They can enlarge their entry by a model of an advanced technology that could solve a universal issue or expand space exploration. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the universe and the future with its components such as universal issues in the future; search for habitable planets; space and technology" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student after prep year 9 of an upper secondary school may know what "universal issues in the future; search for habitable planets; space and technology" mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in the after prep year 9 of an upper secondary school, they are expected to know some basic vocabulary about "life in the universe and the future" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students after prep year 9 of an upper secondary school are ready to learn the concept of "life in the universe and the future with its components such as universal issues in the future; search for habitable planets; space and technology" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of

2899832374 - 2899832374 - 2899832374 - 2899832

pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.9.8.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the universe and the future", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the universe and the future" to prepare themselves to work on guessing the topic of the current theme, "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" **(V3.3, V5.2, V5.3, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session **(D3.8, V3.3, LS1, LS4).**

ENG.9.8.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V3.3, V5.2, V5.3, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly

to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG.9.8.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s)) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" as a whole **(CS2.13),** without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V3.3, V5.2, V5.3, LS2, LS3, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8).** This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places some headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme. **(D3.7, V3.3, V5.2, V5.3, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole

5998323742899832374 - 2899832374 - 2899832

class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.9.8.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, LS8, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.9.8.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and

(2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.9.8.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: universal issues in the future; search for habitable planets; space and technology **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, LS3, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.1, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6).** The teacher asks them to look out for new words whose

meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "universal issues in the future; search for habitable planets; space and technology" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1).** S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.1, D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/ sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2,**

D3.6, V3.3, LS5, CS2.5). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "universal issues in the future; search for habitable planets; space and technology" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "universal issues in the future; search for habitable planets; space and technology" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.9.8.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some

sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.8.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading

starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.9.8.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "universal issues in the future; search for habitable planets; space and technology" **(D3.6, V3.3, V5.2, V5.3, LS2, LS3, LS5, LS8, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.9.8.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what universal issues in the future; search for habitable planets; space and technology mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20).** After this stage, they work on activities to connect their knowledge and skills they have acquired about "universal issues in the future; search for habitable planets; space and technology" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.3, V3.4, V5.2, V5.3, LS1, LS3, LS5, LS6, LS8, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.9.8.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

5998323374 - 2899323374 - 2899323374

ENG.9.8.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "universal issues in the future; search for habitable planets; space and technology" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.9.8.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to universal issues in the future; search for habitable planets; space and technology in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.9.8.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.9.8.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on universal issues in the future; search for habitable planets; space and technology for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.3, V5.2, V5.3, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.9.8.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students interests,

and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.9.8.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about "universal issues in the future; search for habitable planets; space and technology" through their writing tasks **(V3.3, V5.2, V5.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.8.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.9.8.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.9.8.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "universal issues in the future; search for habitable planets; space and technology" in context. At this stage, they try to understand how the language is used in the target content by examining thespeaking model/example carefully **(V3.3, V5.2, V5.3, LS1, LS3, LS8, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.9.8.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic,

9983237 - 2899832374 - 2899832

real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.9.8.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.9.8.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "life in the universe and the future with universal issues in the future; search for habitable planets; space and technology" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.9.8.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To describe habitable planets, space exploration, and technology about planets and space in English by using the target vocabulary and target grammar.

Activity 1: Creative Writing

The teacher provides students with an incomplete paragraph about habitable planets and developments in space technology. For example:

"The search for habitable planets has become the main focus for astronomers and space agencies worldwide. With the launch of advanced satellites and exploration missions, scientists are able to detect potential habitats now beyond our solar system. The development of artificial intelligence and sophisticated navigation systems has made these missions more efficient. However, the challenge is still present such as the resources are limited and environmental conditions are difficult. If humans achieve self-sustaining colonies, _____".

Students work individually or in pairs to complete the paragraph by emphasising creativity and using target vocabulary such as "civilisation, exploration, radiation, vast, dynamic, potentially". After completing their work they present their paragraphs to the class. The teacher checks and gives feedback on the use of language with target vocabulary, pronunciation, and grammar. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about possible future scenarios in space exploration in English by using the target vocabulary and target grammar.

Activity 1: Creative Writing

The teacher shows some flashcards with visuals representing target vocabulary such as "rocket, colony, AI, radiation, habitat" and asks students to match the visuals with the correct words written on the board. When the matching activity is complete students work to complete a worksheet with target grammar in pairs. They use the matched vocabulary to fill in the blanks in sentences such as "If humans colonise distant planets, civilisations will emerge there" or "If we explore the universe, we might discover unknown habitats". The teacher checks and gives feedback on the use of language including target vocabulary, pronunciation, and grammar. Students reflect on their thoughts and feelings about the activity.

AFTER PREP-YEAR 10

UPPER SECONDARY-YEAR 10 (AFTER PREP)-LEVEL: B2.2

THEME 1: SCHOOL LIFE & EDUCATION

Sub-themes: School problems and challenges for students; role of parents in education; purpose of education; national days and celebrations

This theme is centred on the concept of "school life and education" and covers the sub-themes of "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

After Prep-Year 10 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.10.1.L1.Students can prepare and get ready for listening (to)/watching about the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.1.L2. Students can bring together the information in the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.1.L3. Students can make sense of and derive meaning from the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.10.1.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.1.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.1.R1. Students can prepare for reading the content on "'school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.10.1.R2. Students can bring information together about the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.10.1.R3. Students can make sense of and derive meaning from the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*
b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
d) *Students make meaningful inferences from information in the current content by examining it critically.*
e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.1.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.1.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*
b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*
e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

2899832374 - 2899832374 - 2899832374

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.1.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.10.1.W1. Students can prepare for writing efficiently and accurately based on the current content about "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.1.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

9983274 - 2899832374 - 2899832374 - 2899832

ENG.10.1.W3. Students can construct new written content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.1.W4. Students can practise producing written content based on the current theme "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.10.1.W5. Students can engage in the process of writing related to the content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.1.W6. Students can reconstruct their writing about the current theme on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

2899832374 - 2899832374 - 2899832374

ENG.10.1.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.1.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.1.S2. Students can analyse and understand the model content related to "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.10.1.S3. Students can produce meaningful and accurate spoken content related to the current theme on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.1.S4. Students can construct meaningful spoken content about "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

9983274 - 2899832374 - 2899832374 - 2899832

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.1.S5. Students can reconstruct the information about "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.10.1.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "school problems and challenges for students; role of parents in education; purpose of education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

SCHOOL LIFE & EDUCATION

Sub-themes: "School problems and challenges for students; role of parents in education; purpose of education; national days and celebrations"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for school problems: Nouns: Accuracy, confusion, a penalty, an obstacle, an obligation, an assessment, a disability, motivation. Verbs: To permit, to forbid, to interrupt, to distract, to fail, to evaluate, to restrict, to grade. Adjectives: Strict, isolated.
Adverbs: Adequately, barely, accurately.
Vocabulary for challenges for students in education: Nouns: Concentration, interruption, a failure, a conflict, bias, an expectation, an addiction, an assessment, a deadline.
Phrases: A learning disability, lack of motivation, an attention span, a language barrier, a low self-esteem, a conflict resolution, time management. Verbs: To disturb, to struggle, to exclude, to overcome, to cope, to submit. Adjectives: Abstract, aggressive, complicated, concerned, confusing.
Vocabulary for role of parents in education: Nouns: A fund, assistance, a facility.
Verbs: To accompany, to approve, to motivate. Adverbs: Permanently.
Vocabulary for purpose of education: Nouns: A certificate, academic, literacy, finance, leadership, creativity.
Adjectives: Accurate, actual, capable, professional. Verbs: To assure, to gain, to acquire, to inform, to assign.
Adverbs: Precisely.

9983237 4 - 2899832374 - 2899832374 - 2899832374

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Present Tenses Used for Narration (The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, the Present Perfect Progressive Tense):
(The school has provided additional support to students with learning disabilities).
- "Be Used to" in All Present Tenses: (She is used to studying until late hours).
-Get Used to" in All Present Tenses: (Many students get used to academic pressure after studying so hard). (I'm used to studying very hard).
-Conjunctions (As soon as, still, so far, not only, whatsoever): (As soon as you receive a certificate, you can apply for better jobs).
-Complex Question Tags: (You haven't had any obstacles in your classroom, have you?)

Functions of the Grammatical Structures in Use:

-Use of The Present Tenses Used for Narration (The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, the Present Perfect Progressive Tense): Narrating an action that is occurring at the time or happened in the past.
-Use of "Be used to" in Present Tenses: Describing being familiar and/or comfortable with thing since they are not new to that person anymore.
-Use of "Get used to" in all Present Tenses: Describing the process of having habits and getting accustomed to them.
-Use of Conjunctions (As soon as, still, so far, not only, whatsoever): Linking the actions or ideas.
-Use of Complex Question Tags: Expressing verification or confirmation.

Target Social Language Expressions in Use:

They need to hit the books.
Back to school, back to growth!
Your future is written in today's effort.
Success speaks in flying colours!
Burn the midnight oil, shine all day!

Target Phonological Sounds in Use:

-Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "school life and education with its components such as school problems; challenges for students role of parents in education; purpose of education; national days and celebrations" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year

2899832374 - 2899832374 - 2899832374

10 of upper secondary school may know what "school life and education with its components such as school problems; challenges for students role of parents in education; purpose of education; national days and celebrations" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Schools, problems, school problems, students, education, challenges, challenges for students, parents, role of parents, role of parents in education, purpose, purpose of education, national days, national celebrations.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will prepare an oral presentation on any of these sub-themes: problems at school, challenges and problems for students in education, the role of parents in their children's education, or the purpose of education. The presentation should include a personal or fictional story and a proposed solution to the challenge by integrating target vocabulary items into the presentation from the list provided to them. Students are expected to use "present tenses, be used to / get used to, conjunctions, and complex question tags" during the presentation. They are also expected to relate their presentation to cultural or national events, such as National Sovereignty and Children's Day or Victory Day, to emphasise their influence on education or student motivation. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "school life and education with its components such as school problems; challenges for students role of parents in education; purpose of education; national days and celebrations" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 10 of an upper secondary school may know what school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 10 of upper secondary school, they are expected to know some basic vocabulary about "school life and education" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in the after prep year 10 of an upper secondary school are ready to learn the concept of "school life and education with its components such as school problems; challenges for students role of parents in education; purpose of education; national days and celebrations" cognitively, affectively, and socially since it is appropriate to their age and language level. Their knowledge of the days of the week and holidays will help them learn and practise important national holidays such as "the Republic Day of Türkiye". Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can

2899832374 - 2899832374 - 2899832374

help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "school life and education with school problems; challenges for students role of parents in education; purpose of education; national days and celebrations' by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.1.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "school life and education", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "school life and education" to prepare themselves to work on guessing the topic of the current theme, "school problems;

2899832374 - 2899832374 - 2899832374

challenges for students in education; role of parents in education; purpose of education; national days and **(V1.1, V1.2, V2.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.1.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V1.1, V1.2, V2.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.1.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V1.1, V1.2, V2.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/

circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/ blackboard: school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V1.1, V1.2, V2.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.10.1.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, V19.1, V19.2, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.1.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4, V19.1, V19.2).**

-289983274-289983274-289983274

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.1.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations **(D3.7, D3.2, D3.6, V3.4, V19.1, V19.2, LS1, LS2, LS4, LS5, CS2.4,**

CS2.8). Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **((D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, V19.1, V19.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target

key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, V19.1, V19.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5,**

D2.3, V3.4, V19.1, V19.2, LS1, LS5, LS6, CS2.20). The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.1.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc.

2899832374 - 2899832374 - 2899832

with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.1.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.1.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" **(D3.6, V1.1, V1.2, V2.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their **desks (V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.1.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then

open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrationsmean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" with CLIL (history, maths, science, etc.)and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V1.1, V1.2, V2.4, V3.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.1.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.10.1.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.10.1.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students of school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations in their later free writing tasks **(D3.6, SELS1.2, V3.2, V19.1, V19.2, LS1).**

ENG.10.1.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

2899832374 - 2899832374 - 2899832374

ENG.10.1.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V1.1, V1.2, V2.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.1.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.1.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students of school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations through their writing tasks **(V1.1, V1.2, V2.4, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.1.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION: Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.1.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students

practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.10.1.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" in context. At this stage, they try to understand how the language is used in the target content by examining thespeaking model/example carefully **(V1.1, V1.2, V2.4, V3.3, V14.2, V14.3, V15.1, V16.1, V19.1, V19.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.1.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.1.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.10.1.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on"school problems; challenges for students in education; role of parents in education; purpose of education; national days and celebrations" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, V19.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

9983237A - 28998237A - 28998237A - 2899832

ENG.10.1.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To describe an ideal school, addressing school problems, the role of parents, and the purpose of education in English through a writing activity by using target vocabulary and target grammar.

Activity 1: Designing the Future of Education

Students write a detailed paragraph about their ideal school by using target vocabulary and target grammar such as the Present Perfect Tense and complex question tags. They discuss problems at school, the role of their parents, and the purpose of education. For example: "My ideal school has accurate and fair evaluation and assessment ways and provides motivation to students. The parents permanently assist with their children's challenges, don't they?". After writing, students share their paragraphs in small groups and discuss the main ideas, and then they suggest improvements. The teacher gives feedback on the use of the language including target pronunciation and correct use of the target vocabulary and target grammar. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To describe an ideal school in written and spoken forms in English by using target vocabulary.

Activity 1: My Ideal School

Students use a word bank with some visual clues (e.g. assistance, motivation) to complete a worksheet for filling in the blanks about their ideal school. Example sentences include: "My ideal school provides _____ (motivation, assistance) for students" or "The teachers are _____ (kind, professional)". After filling in the blanks, students read their sentences aloud to the class. The teacher gives positive feedback on the language use with target vocabulary, grammar, and pronunciation and their accuracy. At the end of the activity, the teacher guides them to play digital word games using the target vocabulary to consolidate their learning in an interactive and fun way. Students reflect on their thoughts and feelings about the activity.

9983237 4 - 28998237 4 - 28998237 4 - 28998237

UPPER SECONDARY-YEAR 10 (AFTER PREP)-LEVEL: B2.2

THEME 2: CLASSROOM LIFE & LEARNING

Sub-themes: Innovations in education and learning; personal ways and strategies of learning; study habits

This theme is centred on the concept of "classroom life and learning" and covers the sub-themes of "innovations in education and learning; personal ways and strategies of learning; study habits". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

After Prep-Year 10 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.10.2.L1.Students can prepare and get ready for listening (to)/watching about the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.2.L2. Students can bring together the information in the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.2.L3. Students can make sense of and derive meaning from the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.10.2.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

2899832374 - 2899832374 - 2899832374

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.2.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.2.R1. Students can prepare for reading the content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.10.2.R2. Students can bring information together about the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

2899832374 - 2899832374 - 2899832374

ENG.10.2.R3. Students can make sense of and derive meaning from the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*
b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
d) *Students make meaningful inferences from information in the current content by examining it critically.*
e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.2.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.2.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*
b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*
e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

9983237A - 2899832374 - 2899832374 - 2899832

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.2.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.10.2.W1. Students can prepare for writing efficiently and accurately based on the current content about "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.2.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.10.2.W3. Students can construct new written content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.2.W4. Students can practise producing written content based on the current theme "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.10.2.W5. Students can engage in the process of writing related to the content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.2.W6. Students can reconstruct their writing about the current theme on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

2899832374 - 2899832374 - 2899832374

ENG.10.2.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.2.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.2.S2. Students can analyse and understand the model content related to "Classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.10.2.S3. Students can produce meaningful and accurate spoken content related to the current theme on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.2.S4. Students can construct meaningful spoken content about "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

2899832374 - 2899832374 - 2899832374

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.2.S5. Students can reconstruct the information about "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.10.2.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

CLASSROOM LIFE & LEARNING

Sub-themes: "Innovations in education and learning; personal ways and strategies of learning; study habits"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for innovations in education and learning: Nouns: An asset, an integration, globalisation, artificial intelligence (AI), virtual reality (VR), augmented reality (AR), creativity. Verbs: To enable, to alter, to boost. Adjectives: Critical, interactive, technological. Phrases: Digital literacy, lifelong learning, self-paced learning, learning apps, mobile learning, smart classrooms, user-friendly, digital tools, distance learning.
Vocabulary for personal ways and strategies of learning: Nouns: An observation, a visual, an approach, a concept, inference. Verbs: To associate, to assume, to brainstorm, to classify, to engage, to clarify, to debate, to demonstrate, to emphasize, to illustrate, to infer, to summarise. Phrases: Visual/auditory/kinaesthetic/social/solitary learning.
Adjectives: Efficient. Adverbs: Briefly, broadly.
Vocabulary for study habits: Nouns: Note-taking, mind mapping, revision. Verbs: To advance, to evaluate, to chart. Phrases: Problem-solving, critical thinking, goal setting, taking a break, self-assessment. Adjectives: Disciplined, detailed.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-

9983237 4 - 2899832374 - 2899832374 - 2899832

Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Passive Voice for Present Tenses: (The assignment is completed by the students every evening. English is taught in a lot of schools around the world. Dinner is being prepared by the cook now).
- "Shall" for Suggestions: (Shall we try using a new app to organise our study programme? Shall I help you organise a quiet study environment at home?)
-"Have got to" and "Ought to" for Obligation: (I have got to finish the presentation by Thursday).

Functions of the Grammatical Structures in Use:

-Use of Passive Voice for Present Tenses: Describing actions, events, and/or processes where the focus is on the activity or outcome, rather than the person performing it at present times.
-Use of Passive Words with Two Objects: (I was given an assignment by the teacher).
-Use of "Shall" for Suggestions: Proposing ideas or seeking agreement to make suggestions.
-Use of "Have got to" and "Ought to" for Obligation: Expressing a moral or logical obligation, advice, or recommendation.

Target Social Language Expressions in Use:

Every class is a step forward.
No shortcuts in learning!
Make mistakes. That's how you learn!
Ask questions. Own answers!
Learn hard, lead harder!

Target Phonological Sounds in Use:

-Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "classroom life and learning with its components such as innovations in education and learning; personal ways and strategies of learning; study habits" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 10 of upper secondary school may know what "classroom life and learning with its components such as innovations in education and learning; personal ways and strategies of learning; study habits" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Innovations, education, learning, innovations in education, innovations in learning, personal learning, personal ways of learning, personal strategies of learning, study habits.

5989832374 - 2899832374 - 2899832374 - 2899832374

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will design a project to share their personal learning adventure by focusing on several educational tools, learning styles, and study habits. They will begin by describing studying tools in the classroom such as smart boards and /or learning apps. They will explain how these tools can make learning easier and more enjoyable. They can explain and show one AI learning tool that is used by them. Later, they will talk about their own learning style whether they can learn best by seeing, hearing, or doing. They will provide examples of how they use techniques like mind mapping, summarising or teamwork for understanding lessons better by giving examples. Finally, they will create their own "Study Success Plan", by outlining useful habits like goal setting, taking breaks, and reviewing notes. They can present this plan through drawings, charts, or a short video. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "classroom life and learning with its components such as innovations in education and learning; personal ways and strategies of learning; study habits" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 10 of upper secondary school may know what innovations in education and learning; personal ways and strategies of learning; study habits mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 10 of upper secondary school, they are expected to know some basic vocabulary about "classroom life and learning" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 10 of upper secondary school are ready to learn the concept of "classroom life and learning with its components such as innovations in education and learning; personal ways and strategies of learning; study habits" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the "classroom life and learning with innovations in education and learning; personal ways and strategies of learning; study habits" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing

2899832374 - 2899832374 - 2899832374

background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.2.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "classroom life and learning", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "classroom life and learning" to prepare themselves to work on guessing the topic of the current theme, "innovations in education and learning; personal ways and strategies of learning; study habits" **(V3.2, V6.1, V11.1, V11.2, V14.2, V16.1, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.2.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "innovations in education and learning; personal ways and strategies of learning; study habits" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V3.2, V6.1, V11.1,**

V11.2, V14.2, V16.1, LS1, LS4, LS5, CS2.2). They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.2.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "innovations in education and learning; personal ways and strategies of learning; study habits" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V3.2, V6.1, V11.1, V11.2, V14.2, V16.1, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: innovations in education and learning; personal ways and strategies of learning; study habits are on the target vocabulary list of the current theme as clues to the components of the current theme **(D3.7, V3.2, V6.1, V11.1, V11.2, V14.2, V16.1, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components

5998323374 - 2899323374 - 2899323

of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.10.2.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.2.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "innovations in education and learning; personal ways and strategies of learning; study habits". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4,**

2898323374 - 2898323374 - 2898323374

V4.2, LS1, LS2, LS4). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.2.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: innovations in education and learning; personal ways and strategies of learning; study habits **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity

(D3.2, SELS2.2). One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "innovations in education and learning; personal ways and strategies of learning; study habits" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2,D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the

teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "innovations in education and learning; personal ways and strategies of learning; study habits" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "innovations in education and learning; personal ways and strategies of learning; study habits" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.2.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising -

discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.2.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first

lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.2.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "innovations in education and learning; personal ways and strategies of learning; study habits" **(D3.6, V3.2, V6.1, V11.1, V11.2, V14.2, V16.1, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their **desks (V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.2.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of innovations in education and learning; personal ways and strategies of learning; study habits mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "innovations in education and learning; personal ways and strategies of learning; study habits" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.2, V3.4, V6.1, V11.1, V11.2, V14.2, V16.1, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.2.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

5998323374 - 2899323374 - 2899323

ENG.10.2.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "innovations in education and learning; personal ways and strategies of learning; study habits" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.10.2.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students' innovations in education and learning; personal ways and strategies of learning; study habits in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.10.2.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.10.2.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of innovations in education and learning; personal ways and strategies of learning; study habits for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.2, V6.1, V11.1, V11.2, V14.2, V16.1, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.2.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All

the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.2.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students' innovations in education and learning; personal ways and strategies of learning; study habits through their writing tasks **(V3.2, V6.1, V11.1, V11.2, V14.2, V16.1, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.2.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.2.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.10.2.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "innovations in education and learning; personal ways and strategies of learning; study habits" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.2, V6.1, V11.1, V11.2, V14.2, V16.1, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.2.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and

versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.2.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.10.2.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on" innovations in education and learning; personal ways and strategies of learning; study habits" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.2.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about educational innovations in English by using target vocabulary.

Activity 1: Debate on Learning Innovations

The teacher divides students into small groups and gives each group a topic related to innovations in education such as "The role of AI in personalised learning" or "The impact of digital tools on study habits". Each group prepares arguments for and against the topic by using target vocabulary such as "critical thinking", "learning apps", and/or "digital literacy". During the debate, students use the Passive voice (e.g. "Learning outcomes are improved by integrating AI tools") and suggestive structures (e.g. "Shall we explore how digital tools advance self-paced learning?"). After the debate, each group writes a detailed summary of the discussion by focusing on the main idea and including at least three target phrases. The teacher gives some feedback on the use of language and new ideas. For home practice, the teacher asks the students to write a personal reflection on how they incorporate innovative strategies into their own learning. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To work on study habits in English through matching activities by using target vocabulary.

Activity 1: Study Habits and Tools

The teacher gives students a worksheet which includes pictures and a list of sentences such as "Some notes are written by students in the lesson", "Mind maps are used to organise ideas" and "Some learning apps are downloaded for study". Students match each sentence with the correct picture on the worksheet. After matching, each student makes a simple sentence by using target vocabulary or phrases such as "Self-paced learning helps me study better". The teacher gives feedback on their sentences for the accuracy and use of vocabulary. For homework, students are recommended to play a digital word game about such words to strengthen their vocabulary knowledge. Students reflect on their thoughts and feelings about the activity.

THEME 3: PERSONAL LIFE & WELL-BEING

Sub-themes: Planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres

This theme is centred on the concept of "personal life and well-being" and covers the sub-themes of "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres". These components(sub-themes)are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

9983237 4 - 2899832374 - 2899832374 - 2899832374

After Prep-Year 10 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.10.3.L1.Students can prepare and get ready for listening (to)/watching about the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.3.L2. Students can bring together the information in the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.3.L3. Students can make sense of and derive meaning from the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

2899832374 - 2899832374 - 2899832374 - 2899832374

ENG.10.3.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.3.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.3.R1. Students can prepare for reading the content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 - 28998237 - 28998237 - 28998237

ENG.10.3.R2. Students can bring information together about the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.10.3.R3. Students can make sense of and derive meaning from the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.3.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.3.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

2899832374 - 2899832374 - 2899832374

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.3.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983237 4 - 28998323 74 - 28998323 74 - 28998323

ENG.10.3.W1. Students can prepare for writing efficiently and accurately based on the current content about "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.3.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.10.3.W3. Students can construct new written content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.3.W4. Students can practise producing written content based on the current theme "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 - 28998323

ENG.10.3.W5. Students can engage in the process of writing related to the content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.3.W6. Students can reconstruct their writing about the current theme on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.10.3.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.3.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.3.S2. Students can analyse and understand the model content related to "Personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.10.3.S3. Students can produce meaningful and accurate spoken content related to the current theme on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

9983274 - 2899832374 - 2899832374 - 2899832

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.3.S4. Students can construct meaningful spoken content about "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.3.S5. Students can reconstruct the information about "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.10.3.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

PERSONAL LIFE & WELL-BEING

Sub-themes: "Planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for planning life-time personal well-being: Nouns: Mind-set, adaptability, passion, self-reflection, a purpose, stress, an approach, awareness, value, fear, vision, achievement, satisfaction, a priority, a deadline, a balance, a barrier, measurement, an outline, commitment, an influence, a requirement, a therapist. Verbs: to outline, to reflect, to achieve, to overcome, to adjust, to ensure, to gain, to bear, to measure, to commit, to accompany, to influence. Adjectives: Beneficial, unacceptable, urgent, essential, complicated, challenging, satisfied, balanced, core, relevant, flexible. Adverbs: Steadily, adequately, essentially, firmly. Word groups: To break down, to set up, to take up, to do for a living, to keep in mind, to go through.
Vocabulary for extreme sports across earth: Nouns: Free climbing.
Vocabulary for extreme sports across water: Nouns: Kite surfing, kiteboarding, cave diving, free diving, sailing.
Vocabulary for extreme sports across snow and ice: Nouns: Ice climbing, snow kiting.
Vocabulary for extreme sports across air: Nouns: Base jumping.
Vocabulary for personal choices and preferences for sports and extreme sports: Nouns:
determination, a helmet, a marathon, a medal, oxygen, panic, suffering, patience, preference, a scratch, survival, a territory, a capacity, a current, courage, confidence, desire, discipline, enthusiasm, freedom. Verbs: To favour, to challenge, to crack, to dare, to devote, to equip, to scratch, to strengthen, to drag, to inspire. Adjectives: Bold, deadly, memorable, overseas, passionate, relieved, capable, enthusiastic, fellow.
Vocabulary for films and film genres: Nouns: Fantasy, horror, cast, budget, an origin.
Vocabulary for types of music and music genres: Nouns: A tone, rhythm, a lyric, a gig.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Past Tenses for Narration (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): (He had followed the guideline for his fitness routine before he saw the results).
- "Would" for Expressing Habits in the Past: (She would adapt quickly to different cultures and environments).
- "Was/were used to and Got used to" in all forms: (He got used to struggling with stress).
-Complex Question Tags: (I'm going to get an email with the details, aren't I?)

9983274 - 2899832374 - 2899832374 - 2899832

Functions of the Grammatical Structures in Use:

-Use of the Past Tenses for Narration (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): Expressing the details of the actions happened in the past such as time, process or order.
-Use of "Would" for Expressing Habits in the Past: Talking about the actions that happened regularly in the past.
-Use of "Was/were used to" and "Got used to" in all forms: Describing habitual actions or states in the past.
-Use of Complex Question Tags: Expressing confirmation about the actions or opinions.

Target Social Language Expressions in Use:

Peace begins within!
Your mind matters!
Small steps, big changes!
Happiness is a daily habit.
Your pace! Your journey!

Target Phonological Sounds in Use:

-Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "personal life and well-being with its components such as planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 10 of upper secondary school may know what "personal life and well-being with its components such as planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" mean, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Well-being, personal well-being, life-time well-being, planning life-time personal well-being, personal choices, preferences, personal preferences for sports, extreme sports, personal choices for extreme sports, personal choices for films, film genres, personal choices for film genres, music, music genres.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will design a project on the concept of "Personal Life and Well-being" by focusing on the importance of planning for long-term personal fulfilment. The Project will include setting priorities, achieving balance, and addressing challenges and barriers. Students will discuss how personal choices in sports such as relaxing pastimes or adrenaline-filled extreme activities influence their physical and mental health. Students will also cover their preferences in films and music by emphasising their role in shaping emotional well-being and cultural awareness. Students are free to expand their projects to show how hobbies and entertainment contribute to personal growth and satisfaction. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "personal life and well-being with its components such as planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices

2899832374 - 2899832374 - 2899832374 - 2899832374

for films and film genres; music and music genres" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 10 of upper secondary school may know what planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 10 of upper secondary school, they are expected to know some basic vocabulary about "personal life and well-being" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 10 of upper secondary school are ready to learn the concept of "personal life and well-being with its components such as planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "personal life and well-being with planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

2899832374 - 2899832374 - 2899832374

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.3.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "personal life and well-being", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "personal life and well-being" to prepare themselves to work on guessing the topic of the current theme, "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " **(V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, LS1, LS5, LS9).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.3.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures,

posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.3.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, LS2, LS4, LS5, LS9).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres are on the target vocabulary list of the current theme as clues to the components of the current **(D3.7, V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, LS5, LS9).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences

they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.10.3.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.3.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres ". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6,**

D2.3, SELS3.1, V4.1, V5.1, LS2, LS5). They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.3.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not

know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1).** S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story,

without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.3.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical

structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.3.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various

reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.3.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " " **(D3.6, V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, LS2, LS5, LS9, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their **desks (V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.3.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.3.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.10.3.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.10.3.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.10.3.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.10.3.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, LS5, LS9, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.3.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in

fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.3.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres through their writing tasks **((V3.2, V7.2, V13.2, V13.4, V14.2, V16.1, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.3.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION: Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.3.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.10.3.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.2, V3.3, V7.2, V13.2, V13.4, V14.2, V16.1, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.3.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher

prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.3.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.10.3.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on" planning life-time personal well-being; personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres " **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.3.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about planning life-time personal well-being; personal choices and preferences for sports; personal choices for films and film genres; music and music genres in English by using the target vocabulary and target grammar.

Activity 1: Stress-Free Solutions

The teacher asks students to role-play a counsellor-client session and then hold a group discussion on managing stress. Students discuss problems by using hobbies as a solution. S/he gives a scenario such as "You have a friend who is overwhelmed with stress and needs advice on how to balance his/her life". Then students write a recommendation plan. For example: "Start with exercising to ease physical tension. Attend an orchestra to calm your mind. End the day with a comedy film to lift your spirits". Following this session, they role-play all of the recommendations. The teacher provides constructive and supportive feedback on

the use of language, originality of the ideas and accuracy. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about human illnesses and diseases and give advice in English through a role-play activity by using the target vocabulary.

Activity 1: Read and Categorise

The teacher prepares a reading text related to personal choices and preferences for sports and extreme sports; personal choices for films and film genres; music and music genres. Students read the text and categorise vocabulary from the text into sports, music, and films such as sports: _____ (skateboarding, snowboarding, exercising); music: _____ (orchestra, gig, rhythm, lyrics); films: _____ (thriller, comedy) by discussing with their peers. Then they make sentences with the words and share them with the class. The teacher gives feedback on their work for accuracy and collaboration. At the end of the activity, the teacher guides students to play digital word games to use the target vocabulary to support their learning in an interactive and fun way. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 10 (AFTER PREP)-LEVEL: B2.2

THEME 4: FAMILY LIFE & HOME

Sub-themes: Designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food

This theme is centred on the concept of "family life and home" and covers the sub-themes of "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

9983237 4 - 2899832374 - 2899832374 - 2899832374

After Prep-Year 10 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.10.4.L1.Students can prepare and get ready for listening (to)/watching about the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.4.L2. Students can bring together the information in the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.4.L3. Students can make sense of and derive meaning from the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.4.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.4.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.4.R1. Students can prepare for reading the content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983274 - 2899832

ENG.10.4.R2. Students can bring information together about the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.10.4.R3. Students can make sense of and derive meaning from the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.4.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.4.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

2899832374 - 2899832374 - 2899832374 - 2899832374

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.4.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983274 - 2899832274 - 2899832274

ENG.10.4.W1. Students can prepare for writing efficiently and accurately based on the current content about "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.4.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.10.4.W3. Students can construct new written content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.4.W4. Students can practise producing written content based on the current theme "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.4.W5. Students can engage in the process of writing related to the content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.4.W6. Students can reconstruct their writing about the current theme on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.10.4.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.4.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.4.S2. Students can analyse and understand the model content related to "Family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

EN10.4.S3. Students can produce meaningful and accurate spoken content related to the current theme on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

9983237 4 - 2899832374 - 2899832374 - 2899832

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.4.S4. Students can construct meaningful spoken content about "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.4.S5. Students can reconstruct the information about "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.10.4.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

CONTENT FRAME

FAMILY LIFE & HOME

Sub-themes: "Designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for designing and decorating family homes: Nouns: A household, a layout, lighting, decoration, maintenance, a storage, renovation, a porch, veranda (patio AmE.), a basement, convenience, a collector, a hallway (corridor-AmE), a counter, an extension, a hook, a deck, litter (trash-AmE), patience. Verbs: To accommodate, to purchase, to equip, to restore, to rebuild, to collapse. Adjectives: Affordable, concrete, conventional, genuine, adequate, mechanical, domestic, inner, thorough, functional, aesthetically pleasing, decent.
Vocabulary for housing problems: Verbs: To ruin, to spoil, to collapse. Phrases: Rising material cost, high land cost, a lack of skilled construction workers, use of cheaper and lower-quality material, out-dated construction methods, poor quality control.
Vocabulary for family conflicts: Nouns: Tension, a separation, rejection, suspicion, privacy, a remark, a debt. Verbs: To deny, to criticise, to reject, to restrict, to interrupt, to offend, to oppose, to suspect, to tear, to urge, to cancel.
Vocabulary for family traditions and customs about food: Nouns: Harvest meal, teatime, cultural cuisine, a special occasion. Verbs: To honour, to praise, to satisfy, Adverbs: Thoroughly.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Comparative and Superlative Adjectives (Regular-Irregular Forms): (This house is more affordable than the one in the town. The decoration in the study room is the most elegant decoration in the house).
-Same as, the same: (Jane gets the same salary as me. You're just the same as your mother).
-As... as: (Mehmet isn't as old as he looks).
-Like, alike, slightly: (You look like your father. My siblings look alike. My brother is slightly taller than me).
- "Cleft Sentences" with Adjectives: (What you did for this house is wonderful).

Functions of the Grammatical Structures in Use:

-Use of Comparative and Superlative Adjectives: Expressing the degrees of differences.
-Use of Same as, the same: Expressing similarity or equality.
-Use of As... as: Emphasizing the degree of similarity.
-Use of Like, alike, slightly: Expressing slight differences.
-Use of "Cleft Sentences" with Adjectives: Emphasising a particular part of a sentence to emphasise an idea, fact, situation.

5989323741 - 28998323741 - 28998323741 - 28998323

Target Social Language Expressions in Use:

Home is not a place, it's a feeling.
Together is our favourite place to be.
Every family has a story - welcome to ours!
Family is the anchor in the storm.
A happy home is built with kindness.

Target Phonological Sounds in Use:

Vowels: a, e
Consonants: b, c, d
Vowels: a: (/ae/, /aeɪ/, /ə/, /a:/, /eɪ/, /a:/, /a/, /ɔ:/, /eə/); e: (/e/; /i:/, /ə/, silent /e/)
Consonant: b: (/b/), silent /b/); c: (/si/, /k/, /tʃ/, /z/, silent /c/); d: (/d/), silent /d/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "family life and home with its components such as designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 10 of upper secondary school may know what "family life and home with its components such as designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" mean, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Designing, decorating, family homes, designing family homes, decorating family homes, housing problems, family conflicts, family traditions, family customs, food, family traditions about food, family customs about food.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will write and act-out role plays about family conflicts in pairs. They will discuss, brainstorm and list the conflicts that could be in families. They will write a role play and/or dialogue for the problem they choose from the list. Then, they will act out the role play they have chosen in the class in pairs. They may record their role plays as well. They may use accessories, clothing, visuals or videos while performing the role play. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "family life and home with its components such as designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 10 of an upper secondary school may know what designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

5989832374 - 2899832374 - 2899832374 - 2899832374

As they are students in after prep year 10 of an upper secondary school, they are expected to know some basic vocabulary about "family life and home" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 10 of upper secondary school are ready to learn the concept of "family life and home with its components such as designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices).

Establishing Links

Students are asked to recall the concept "family life and home with designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

5998323 74 - 28998323 74 - 28998323 74 - 28998323

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.4.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "family life and home", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "family life and home" to prepare themselves to work on guessing the topic of the current theme, "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food " **(V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.4.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" to identify the topic of the content and to answer the question: "What is the whole content about?" ?" **(D3.6, V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/ theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.4.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "designing and decorating family homes; housing problems and family

conflicts; family traditions and customs about food" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food are on the target vocabulary list of the current theme as clues to the components of the current theme **(D3.7, V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.10.4.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures,

the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.4.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to

the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.4.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying

attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8,**

SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8). So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.4.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2,**

V3.3, CS2.10, CS2.16.1, CS3.3). Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.4.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.4.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "designing and decorating family homes; housing problems

and family conflicts; family traditions and customs about food" " **(D3.6, V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.4.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.4.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.10.4.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.10.4.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how

2899832374 - 2899832374 - 2899832374

the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students designing and decorating family homes; housing problems and family conflicts; family traditions and customs about foodin their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.10.4.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.10.4.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.4.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.4.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food through their writing tasks **(V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

5998323 74 - 28998323 74 - 28998323 74

ENG.10.4.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.4.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.10.4.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example **(V2.1, V2.3, V2.4, V7.3, V8.3, V8.4, V15.1, V15.5, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.4.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.4.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

2899832374 - 2899832374 - 2899832374

ENG.10.4.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on" designing and decorating family homes; housing problems and family conflicts; family traditions and customs about food"**(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.4.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about housing problems and family conflicts in English by using the target vocabulary.

Activity 1: Home Renovation Debate

The teacher shows some visuals for designing and decorating family homes, housing problems, and family conflicts (e.g. installing a device, a broken window, or a family discussion). The class discusses each visual through identification of what it represents and the possible conflicts it might cause. For example, a broken window might lead to blame or disagreement about repairs. Then, students work in groups of three to four. In groups, students choose a conflict from the visuals and act it out. Each student takes a role such as "a parent, a sibling, or a mediator" and uses target words such as "to urge", "to criticise", or "to insist". For example, in a conflict about renovating the kitchen or living room, the father could say "We should start with the kitchen because it's more useful". The mother could say, "But the living room looks bad and everyone sees it first". The mediator could say, "Let's fix the kitchen first and then do the living room later". The teacher gives constructive and supportive feedback on accurate use of the language with target vocabulary, grammar, and pronunciation. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about housing problems and family conflicts in English by using the target vocabulary.

Activity 1: Home Renovation Debate

The teacher shows some simple visuals of home-related problems (e.g. a broken window, a messy room, or someone installing a TV) and asks guiding questions like "What is this?" or "Is there a problem?" to help students describe what they see to use target vocabulary and target grammar. (e.g. "The window is broken"). Target vocabulary such as "fix, angry, clean, should" is introduced with repetition and gestures. Students are divided into small groups and choose one picture to role-play. Each student is given a simple role (Parent 1, Parent 2, Child, or Mediator) and sentence starters like "Let's fix the...", "I think we should...", or "No, the TV is okay". They perform short dialogues based on the given situation by using the target words and grammar. The teacher gives supportive feedback for the use of language including the target vocabulary, grammar,

and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 10 (AFTER PREP)-LEVEL: B2.2

THEME 5: LIFE IN THE NEIGHBOURHOOD, CITY & SOCIAL LIFE

Sub-themes: Lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city

This theme is centred on the concept of "life in the neighbourhood, city and social life" and covers the sub-themes of "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

After Prep-Year 10 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENT

ENG.10.5.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.5.L2. Students can bring together the information in the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.5.L3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

28983237 - 28983237 - 28983237 - 28983237

ENG.10.5.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.5.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.5.R1. Students can prepare for reading the content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

2899832374 - 2899832374 - 2899832374

ENG.10.5.R2. Students can bring information together about the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.10.5.R3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.5.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.5.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

2899832374 - 2899832374 - 2899832374

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.5.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

9983237 4 - 2899832374 - 2899832374 - 2899832

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.10.5.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.5.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.10.5.W3. Students can construct new written content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.5.W4. Students can practise producing written content based on the current theme "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.10.5.W5. Students can engage in the process of writing related to the content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.5.W6. Students can reconstruct their writing about the current theme on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.10.5.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.5.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.5.S2. Students can analyse and understand the model content related to "Life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

2899832374 - 2899832374 - 2899832374

ENG.10.5.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.5.S4. Students can construct meaningful spoken content about "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.5.S5. Students can reconstruct the information about "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

2899832374 - 2899832374 - 2899832374

ENG.10.5.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE NEIGHBOURHOOD, CITY AND SOCIAL LIFE

Sub-themes: "Lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for lifestyles and culture on leisure activities in the neighbourhood and city: Nouns: A stall, a resident, a consequence, preservation, promotion, appreciation, construction, an aspect, mobility. Verbs: To unite, to hold, to appreciate, to perceive, to contribute, to comfort, to declare. Adjectives: Constant, vital, crucial, historical, contemporary, overall, fundamental, concerned.
Vocabulary for urban trends: Nouns: Urbanisation. Phrases: Urban farming, affordable housing, green spaces, smart lighting, eco-cities, city planning, public art.
Phrases for technology in the city: Self-driving cars, robotics, a solar panel, a wind farm, a recycling facility, an urban farming.
Vocabulary for performing arts (dance, theatre): Nouns: Artwork, a ballet, a performance, a script, a venue, a production, costume, a stage. Verbs: To act, to rehearse, to stage, to interpret, to host, to house. Adjectives: Artistic, iconic, expressive, captivating.
Vocabulary for visual arts (Painting, Sculpture, Photography, Architecture): Nouns: A canvas, a gallery, a portrait, a composition, pattern, concrete, steel, murals. Verbs: To craft, to photograph, to capture, to illustrate, to compose, to construct, to visualize.
Adjectives: Abstract, contemporary, historic, inspiring.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Passive Voice for Past Tenses: (A local festival was organized in the city center last weekend. A famous play was performed at the theatre last night. The sculptures were being displayed at the city's art gallery last month).

28998323742899832374-28998323742899832374-2899832374

-Causatives: (to have someone do something; to have something done (Passive)): (We had the guide show the place). (The gallery had the photographs framed for the upcoming exhibit).
-"Be Able to" in Past Tenses and the Present Perfect Tenses: (The artist was able to finish the sculpture before the exhibition opening).

Functions of the Grammatical Structures in Use:

-Use of Passive Voice for/in Past Tenses: Describing actions or events in the past where the focus is on the outcome or what happened, rather than who performed the action.
-Use of Causatives: (to have someone do something (active); to have something done): Describing situations arranged for someone to perform a task or service.
-Use of "Be able to" in/for Past Tenses and Present Perfect Tenses: Describing ability for completed actions and continuation or the result of this ability over time.

Target Social Language Expressions in Use:

Be the neighbour you wish to have!
Strangers are just friends you haven't met yet!
Every street has a story!
Cities grow but culture holds them together!
Walk the block, meet the world!

Target Phonological Sounds in Use:

Vowels: i: (/aɪ/, /ɪ/, /i:/)
Consonants: f: (/f/); g: (/g/, /dʒ/, silent /g/); h: (/h/), silent /h/); j: (/dʒeɪ/, /dʒ/); k: (/k/, silent /k/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the neighbourhood, city and social life with its components such as lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 10 of upper secondary school may know what "life in the neighbourhood, city and social life with its components such as lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Lifestyles, cultures, leisure activities, neighbourhood, city, leisure activities in the neighbourhood, leisure activities in the city, culture on leisure activities in the neighbourhood, culture on leisure activities in the city, urban trends, technology, performing arts (dance, theatre), visual arts (painting, sculpture, architecture), performing arts in the city, visual arts in the city.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will design a "Virtual Museum about Life in the Universe and Future" focussing on space travel technologies, the concept of space tourism, and science fiction imagination. Students will start with researching different aspects of rockets, satellites, lunar missions, and interplanetary travel. They will use Web 2.0 tools or AI technologies and they will design each section with pictures, descriptions, timelines or short videos. The museum should include creative elements like charts, interactive timelines, and detailed illustrations of spacecraft and futuristic cities. Additionally, they may add

99983237 4 - 28998323 74 - 28998323 74 - 28998323

science fiction stories and metaphorical visuals to represent futuristic ideas. They will present their virtual museum to the class by explaining the key elements and how each part reflects the future possibilities of space exploration, technological advancements, and interplanetary life. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the neighbourhood, city and social life with its components such as lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in the after prep year 10 of an upper secondary school may know what lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in the after prep year 10 of an upper secondary school, they are expected to know some basic vocabulary about "life in the neighbourhood, city and social life" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 10 of an upper secondary school are ready to learn the concept of "life in the neighbourhood, city and social life with its components such as lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as preparatory practices. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the neighbourhood, city and social life with lifestyles & culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture)" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared

2899832374 - 2899832374 - 2899832374

with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.5.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the neighbourhood, city and social life", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the neighbourhood, city and social life" to prepare themselves to work on guessing the topic of the current theme, "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" **(V7.1, V7.2, V7.3, V11.3, V16.2, LS1, LS5, LS9).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.5.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V7.1, V7.2, V7.3, V11.3, V16.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements

related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.5.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V7.1, V7.2, V7.3, V11.3, V16.2, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city are on the target vocabulary list of the current theme as clues to the components of the current **(D3.7, V7.1, V7.2, V7.3, V11.3, V16.2, LS5, LS9).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the

students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.10.5.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.5.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly

and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.5.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole

class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word

(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's

spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.5.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and

ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.5.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.5.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" " **(D3.6, V7.1, V7.2, V7.3, V11.3, V16.2, LS2, LS5, LS9, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their **desks (V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.5.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the citymean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "lifestyles and culture

9983237 4 - 28998237 4 - 28998237 4 - 28998237

on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V7.1, V7.2, V7.3, V11.3, V16.2,LS1, LS5, LS6, LS9, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.5.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.10.5.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.10.5.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the cityin their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.10.5.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.10.5.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and

affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the cityfor developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V7.1, V7.2, V7.3, V11.3, V16.2, LS5, LS9, CS2.14, CS3.3).**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.5.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.5.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the citythrough their writing tasks **(V7.1, V7.2, V7.3, V11.3, V16.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.5.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.5.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

5998323574 - 2899832374 - 2899832

ENG.10.5.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V7.1, V7.2, V7.3, V11.3, V16.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.5.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.5.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.10.5.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on" lifestyles and culture on leisure activities in the neighbourhood and city; urban trends and technology; performing arts (dance, theatre) and visual arts (painting, sculpture, architecture) in the city" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.5.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form

of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about lifestyles, culture, and leisure activities in the neighbourhood and city in English by using the target vocabulary and target grammar.

Activity 1: Descriptive Writing

Students work in groups to describe urban life and events by using the target grammar. Each group chooses a topic such as a recent urban art festival or a cultural exhibition in the city. They collaborate to write a descriptive paragraph. They create visuals and prepare a short presentation. An example paragraph for the presentation can be as follows: "Last weekend, an art festival was held in the main square of the city. Beautiful murals were painted by talented artists, and live music performances were organised to attract visitors. Sculptures were exhibited in the central gallery and some awards were given to the best work of art. The event was attended by many residents and it helped to promote cultural appreciation". Each group will present their work by using images or drawings to enrich their presentation and engage the audience. After the presentation, the teacher gives feedback on the use of the language including accuracy, use of target vocabulary, target grammar, and pronunciation. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To describe lifestyles, culture, and leisure activities in the neighbourhood and city in English by using target vocabulary and target grammar.

Activity 1: Matching Vocabulary with Definitions

The teacher prepares a worksheet related to life in the neighbourhood, city, and social life to help students practice target vocabulary and grammar. The worksheet includes two activities: first, students match the target words such as resident, coexistence, and sculpture with simple definitions or visuals (e.g. "A person who lives in a neighbourhood → Resident" or "A public sale of goods to the highest bidder → Auction"). Second, students complete sentences using the correct forms of the "Passive Voice in past tenses such as "A local festival _____ (organise) in the city centre last weekend" (was organised) or "Sculptures _____ (display) at the city's art gallery last month" (were being displayed). This worksheet is designed to improve vocabulary learning and to practise the use of the "Passive Voice". The teacher gives feedback on the use of language including target vocabulary, target grammar and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 10 (AFTER PREP)-LEVEL: B2.2

THEME 6: LIFE IN THE WORLD & CULTURE

Sub-themes: Media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication

This theme is centred on the concept of "life in the world and culture" and covers the sub-themes of "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.10.6.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.6.L2. Students can bring together the information in the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.6.L3. Students can make sense of and derive meaning from the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.6.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening(to)/watching process about the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.6.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.6.R1. Students can prepare for reading the content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 - 28998237 - 28998237 - 28998237

ENG.10.6.R2. Students can bring information together about the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.10.6.R3. Students can make sense of and derive meaning from the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.6.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.6.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

2899832374 - 2899832374 - 2899832374 - 2899832374

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.6.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.6.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.6.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.10.6.W3. Students can construct new written content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.6.W4. Students can practise producing written content based on the current theme "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.6.W5. Students can engage in the process of writing related to the content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.6.W6. Students can reconstruct their writing about the current theme on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.10.6.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.6.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.6.S2. Students can analyse and understand the model content related to "Life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.10.6.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

9983274 - 289983274 - 289983274 - 289983274

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.6.S4. Students can construct meaningful spoken content about "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.6.S5. Students can reconstruct the information about "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.10.6.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

9983237 - 2899323 - 2899323 - 2899323

CONTENT FRAME

LIFE IN THE WORLD & CULTURE

Sub-themes: "Media and popular culture, celebrities and influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for media and popular culture, celebrities and influencers: Nouns: An attachment, an affair, an animation, a broadcaster, fame, journalism, an icon, an illustration, a preference, popularity, publishing, a sponsorship, a tendency, reputation, exposure, publicity, rating. Verbs: To demand, to expose, to praise, to satisfy, to select, to sponsor. Adjectives: Characteristic, charming, dominant, editorial, elegant, enjoyable, entertaining, fond, lively, widespread, willing.
Vocabulary for global influence of films, music and fashion on culture and lifestyles:
Nouns: A composer, contribution, creation, a critic, delight, a genre, a scenario, a screening, a tale, a choir. Verbs: To broadcast, to compose, to criticise, to display, to inspire, to rate. Adjectives: Comic, classic, dramatic, fake, humorous, intellectual, prime.
Vocabulary for multicultural societies: Nouns: A majority, a minority, a representative, a combination, interaction, a viewpoint. Verbs: To integrate, to adopt, to differ. Adjectives: Regional, diverse.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Future Progressive Tense: (During the awards ceremony, the reporters will be interviewing actors on the red carpet).
-"Will get used to": (People will get used to using translation apps to understand foreign languages in the future).
-Passive Voice for/in Future Tenses: (The new TV series will be released next month on a national TV channel. By the end of this decade, many important technological developments will have been achieved).
-Complex Question Tags: (I'm becoming more familiar with global music trends, aren't I?)

Functions of the Grammatical Structures in Use:

-Use of the Future Progressive Tense: Describing actions or events that will be happening at a particular time in the future by emphasising ongoing activity or progression.
-Use of "Will get used to": Expressing how someone will adapt or become accustomed to new habits, situations, or environments over time in the future.
-Use of Passive Voice for/in Future Tenses: Describing future events or actions where
the focus is on the outcome or the object of the action rather than the person or entity performing it.
-Use of Complex Question Tags: Confirming information, checking understanding, and/ or seeking agreement in complex sentence structures or with varying verb forms and auxiliaries.

5983257 - 28998325

Target Social Language Expressions in Use:

Culture is how we tell our stories!
Creativity connects more than borders do!
One world, many wonders!
The more you see, the more you grow!
Explore. Connect. Respect!

Target Phonological Sounds in Use:

Vowel: o
Consonants: l, m, n, (ng), p
Vowel: o: (/əʊ/ , /ɒ/)
Consonants: l: (/ɛl/ /l/, silent /l/); m; (/ɛm/,/m/); n: (/ɛn/, /n/, silent /n/); ng: (/ng/); p: (pi://p/, silent /p/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 10 of upper secondary school may know what "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Media, popular culture, celebrities, influencers, films, music, fashion, culture, lifestyles, global influence of films, global influence of music, global influence of fashion, global influence of films, music and fashion on culture, global influence of films, music and fashion on lifestyles, global influence of films, music and fashion on culture and lifestyles, cross-cultural communication.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT:

Students will implement a questionnaire about celebrities and influencers who contribute to the community positively. First, they will prepare at least ten survey questions about the topic. Then, they will ask these questions to their friends in their classes. They may conduct the questionnaire online as well. After conducting, they will categorise the results and find the most popular celebrity, the least successful one, etc. according to their contributions to the community and present them in the class. They may use graphs, charts or visuals in their presentations. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the world and culture with its components such as media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 10 of upper secondary school may know what media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication mean in their as it is known that almost all people who start to learn a

5998323274 - 28998323274 - 28998323274

new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English. As they are students in after prep year 10 of upper secondary school, they are expected to know some basic vocabulary about "life in the world and culture" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 10 of upper secondary school are ready to learn the concept of "life in the world and culture with its components such as media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the world and culture with media and popular culture, celebrities & influencers; global influence of films, music and fashion on culture and lifestyles; cross-cultural communication" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1,**

V13.4). This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.6.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the world and culture", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the world and culture" to prepare themselves to work on guessing the topic of the current theme, "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " **(V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS1, LS5, LS9).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.6.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.6.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole

theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS2, LS4, LS5, LS9).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication are on the target vocabulary list of the current theme as clues to the components of the current theme **(D3.7, V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.10.6.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior

guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.6.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication ". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).**

During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.6.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them

on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1,**

V6.2, LS2, LS4, LS5, CS3.1). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.6.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students

look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.6.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.6.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " **(D3.6, V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS2, LS5, LS9, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.6.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.6.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.10.6.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

2899832374 - 2899832374 - 2899832374

ENG.10.6.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.10.6.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.10.6.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.6.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.6.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication through their writing tasks **(V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, CS3.3).** They can use AI-based technologies for various activities, by having

access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.6.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.6.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.10.6.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication " in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V4.5, V6.2, V7.2, V7.3, V14.1, V15.1, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.6.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.6.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full

sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.10.6.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on" media, popular culture, celebrities and influencers; global influence of films, music, and fashion on culture and lifestyles; cross-cultural communication" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.6.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about opinions on media and popular culture in English by using target vocabulary.

Activity 1: Design Your Global Culture Awards

Students watch a short and animated video about a "Celebrity Awards Night for best contributors to the world (for the environment, research, etc.)". The video focuses on the target vocabulary, such as "fame", "contribution", "broadcast", and "premiere", along with target grammar examples, such as "By the end of the ceremony, new targets to help people will have been introduced". After the video, students work in groups to design their own "Global Culture Awards" or "Global Contribution Awards" by using a Web 2 tool. Each project must include: Event Description: Students use the target vocabulary to describe the event, e.g. "The event will provide widespread cultural contributions". Schedule: Students create a timeline by using the target grammar, e.g. "Cultural performances will be staged throughout the evening". Tagline: Students add a creative tagline with a complex question tag, e.g. "This will be an unforgettable night, won't it?". The activity ends with group presentations, where students share their designs, and the teacher gives feedback on the use of vocabulary, grammar, and creativity. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about media and popular culture in English by using target vocabulary.

Activity 1: Star Quest - Celebrity Awards Adventure

Students watch a short and animated video introducing a "Celebrity Awards Night for positive contributions to the world", where vocabulary such as "fame", "charity", "contribution", "broadcast", and "premiere" is contextualised with target grammar examples such as "Reporters will be talking to the stars on the red carpet".

They then participate in an interactive digital quiz using a Web 2.0 tool where instant feedback is provided. Questions include vocabulary matching (e.g. "fame" - popularity) and True/False activity. ("A broadcaster is a person who hosts events on the red carpet" - False). As students go on, the teacher encourages them with phrases like "Great effort!" or "You're doing amazing!" and highlights examples of strong performance to motivate others. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 10 (AFTER PREP)-LEVEL: B2.2

THEME 7: LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: Sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions

This theme is centred on the concept of "life in nature and global problems" and covers the sub-themes of "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

After Prep-Year 10 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.10.7.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.7.L2. Students can bring together the information in the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.7.L3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

2899832374 - 2899832374 - 2899832374

ENG.10.7.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.7.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.7.R1. Students can prepare for reading the content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.10.7.R2. Students can bring information together about the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.10.7.R3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.7.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.7.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

9983237 - 28998374 - 28998374 - 28998374

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.7.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.7.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.7.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.10.7.W3. Students can construct new written content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.7.W4. Students can practise producing written content based on the current theme "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 28998323 74 - 28998323 74 - 28998323

ENG.10.7.W5. Students can engage in the process of writing related to the content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.7.W6. Students can reconstruct their writing about the current theme on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.10.7.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.7.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.7.S2. Students can analyse and understand the model content related to "Life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.10.7.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

9983237 4 - 28998237 4 - 28998237 4 - 28998237

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.7.S4. Students can construct meaningful spoken content about "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.7.S5. Students can reconstruct the information about "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.10.7.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

2899832374 - 2899832374 - 2899832374

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: "Sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for sustainable development: Nouns: Agriculture, carbon, conservation, biodiversity, reduction, protection. Verbs: To maintain, to convert, to generate, to preserve, to promote. Adjectives: Solar, urban, harmful, sustainable, biological. Adverbs: Efficiently, entirely, sufficiently.
Vocabulary for food security and famine: Nouns: Awareness, consumption, nutrition, malnutrition, a shortage, a distribution, a source. Verbs: To distribute, to ensure, to modify, to secure, to starve, to supply. Adjectives: Adequate, affordable, artificial, balanced, extreme, imbalanced, reasonable, rural. Adverbs: Adequately, deeply.
Vocabulary for climate change and its global impact: Nouns: Problems and solutions: acid rain, carbon footprint, deforestation, emission, warming, a glacier, a spread, extinction, awareness, transportation, species, tragedy. Verbs: To absorb, to conserve, to release, to melt, to threaten, to pose, to undertake, to impose, to abuse, to exploit.
Adjectives: Renewable, severe, tragic. Adverbs: Additionally. Idioms: To pose a threat, to become extinct.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Defining and Non-defining Relative Pronouns Used for Relative Clauses (whose, whom, where, when, which): (The farmer whose crops were destroyed by the heavy rains is looking for financial aid. The village, where the drought is particularly severe, has been receiving international aid).
-Forming Nouns from Verbs Using -ing (swim - swimming, play – playing): (Conserving natural resources like forests can help cope with deforestation and its harmful effects).
-Verb + object + gerund (-ing form) (verbs: stop, prevent, keep, dislike, catch): (The doctor prevented the patient from taking the wrong medicine).

Functions of the Grammatical Structures in Use:

-Use of Defining and Non-defining Relative Pronouns Used for Relative Clauses (whose, whom, where, when, whose, o which): Giving information or extra information about the subject or object mentioned.
-Use of Forming Nouns from Verbs Using -ing (swim - swimming, play – playing): Turning actions or processes into concepts.
-Use of verb + object + gerund (-ing form) (verbs: stop, prevent, keep): Describing prevention, experience, and involvement, etc.

9983274 - 2899832374 - 2899832374 - 2899832

Target Social Language Expressions in Use:

The earth is speaking—are we listening?
Live simply, so nature can simply live!
Pollution is silent, but deadly!
Let nature be your teacher!

Target Phonological Sounds in Use:

Vowel: u
Consonants: q, r, s, t
Vowel: u: (/juː/, /ʌ/, silent /u/)
Consonants: q: (/kjuː/, /k/); r: (/ɑː/(Br), silent /r/ (Br), /aɹ/ (AmE), /ɹ/ (AmE), silent /r/ (Br)); s: (/s/, /ɛs/, /z/, silent /s/); t : (/tiː/, /t/, silent /t/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 10 of upper secondary school may know what "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Development, sustainable development (eco-friendly buildings, green technology), security, food security, famine, climate change, global impact of climate change, problems of climate change, solutions to climate change, problems and solutions of climate change.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will design "a community action plan" including sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions. They work in pairs. First, they find a global issue such as climate change, food security, or sustainable development. Then they suggest three practical and innovative solutions for either urban or rural environments. They will create a visual representation such as a poster or 3D model of one solution. They will conclude with a short written or oral reflection on how applying the suggested plan can promote balance between human needs and environmental preservation in the classroom. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in nature and global problems with its components such as sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 10 of upper secondary school may know what sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language)

28998323 - 28998323 - 28998323

with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 10 of upper secondary school, they are expected to know some basic vocabulary about "life in nature and global problems" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 10 of upper secondary school are ready to learn the concept of "life in nature and global problems with its components such as sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in nature and global problems with sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1,**

V13.4). This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.7.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in nature and global problems", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in nature and global problems" to prepare themselves to work on guessing the topic of the current theme, "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" **(V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS1, LS5, LS8).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.7.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.7.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the

current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s))))**(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8).** This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions are on the target vocabulary list of the current theme as clues to the components of the current theme **(D3.7, V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS5, LS8).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

-289983274-289983274-289983274-289983274-289983274

ENG.10.7.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.7.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be

applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.7.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" the teacher asks them to say the new words whose meaning they do

not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "sustainable development

(eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.7.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the

students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.7.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the

title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.7.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" **(D3.6, V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS2, LS5, LS8, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.7.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS1, LS5, LS6, LS8, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.7.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.10.7.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "sustainable development (eco-friendly buildings, green technology); food security and

famine; climate change and its global impact: problems and solutions" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.10.7.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.10.7.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.10.7.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS5, LS8, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.7.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.7.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions through their writing tasks **(V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.7.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.7.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.10.7.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V5.2, V5.3, V13.1, V13.4, V16.3, V17.1, V17.2, V18.3, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.7.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic,

2899832374 - 2899832374 - 2899832374

real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.7.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.10.7.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "sustainable development (eco-friendly buildings, green technology); food security and famine; climate change and its global impact: problems and solutions" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.7.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about sustainable development, food security and famine, and climate change and its global impact in English by using the target vocabulary.

Activity 1: Role-Play on Global Problems

Students take part in a role-play based on real-world scenarios related to sustainable development, food security, and climate change. The teacher assigns roles such as a climate scientist, farmer, etc. S/he provides prompts such as, "The initiative, which promotes renewable energy, has been implemented in several countries" to guide their responses. Students engage in a simulated discussion or meeting by addressing topics such as solutions to drought or the benefits of green technology in urban areas (e.g. sustainable, conservation, biodiversity) and relative clauses (e.g. "The farmer, whose crops were destroyed by drought, is searching for solutions"). After each role play, the teacher gives feedback on correct use of language with target vocabulary and target grammar. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To identify sustainable development, climate change, and its global impact in English by using target vocabulary.

Activity 1: Picture Description

The teacher shows students some pictures related to sustainable development or climate change (e.g. a solar panel, a drought-stricken area, a wind turbine). S/he provides sentences such as "This is _____, which _____". "The _____, where _____, is _____" or "This is a place whose _____" to guide them. Students write or say sentences by using the pictures and target vocabulary such as "biodiversity, conservation, or renewable". For example: "This is a solar panel, which produces clean energy" or "The forest, where many species live, is under threat". The teacher provides a word bank if students need it. They read the sentences aloud. In the end, the teacher gives constructive feedback on the correct use of language with relative clauses and the target vocabulary. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 10 (AFTER PREP)-LEVEL: B2.2

THEME 8: LIFE IN THE UNIVERSE & THE FUTURE

Sub-themes: The development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination

This theme is centred on the concept of "life in the universe and the future" and covers the sub-themes of "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills: SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1 Adaptability Skill, SELS3.2 Flexibility Skill, SELS3.3. Responsible Decision-Making Skil

Values: V1. Justice, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V20. Benevolence

After Prep-Year 10 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.10.8.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.10.8.L2. Students can bring together the information in the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.10.8.L3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future: science fiction and imagination".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.8.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.10.8.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.10.8.R1. Students can prepare for reading the content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983274 - 28998327

ENG.10.8.R2. Students can bring information together about the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.10.8.R3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.10.8.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.10.8.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

2899832374 - 2899832374 - 2899832374

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.10.8.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.10.8.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.10.8.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.10.8.W3. Students can construct new written content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.10.8.W4. Students can practise producing written content based on the current theme "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.10.8.W5. Students can engage in the process of writing related to the content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.10.8.W6. Students can reconstruct their writing about the current theme on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.10.8.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.10.8.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.10.8.S2. Students can analyse and understand the model content related to "Life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.10.8.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

9983274 - 289983274 - 289983274 - 289983274

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.10.8.S4. Students can construct meaningful spoken content about "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.10.8.S5. Students can reconstruct the information about "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.10.8.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

9983274 - 28996327 - 28996327 - 28996327

CONTENT FRAME

LIFE IN THE UNIVERSE & THE FUTURE

Sub-themes: "The development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for the development of space travel technologies (rockets, space crafts): Nouns: Means, a mission, a rocket, an innovation. Verbs: To abandon, to launch, to revolutionise. Adjectives: Astonishing, innovative, distant. Adverbs: Upwards.
Vocabulary for the concept of space tourism and its future: Nouns: An assumption, a prospect, a crew, advancement, an investment, safety, an excursion, a probability. Verbs: To emerge, to conduct, to book. Adjectives: Commercial, lunar, unique, potential.
Vocabulary for science fiction and imagination: Nouns: A fantasy, a genre, inspiration, a vision. Verbs: To simulate, to inspire. Adjectives: Extraordinary, impressed, fictional.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Background Grammatical Structures in Use:

-Use of the Conditional 2: Describing an imaginary or unreal situation in the present and future.

*About "Background Grammatical Structures in Use":

The "Background Grammatical Structures" in this section are not only revisional but also serve as contextual support and contribute to meaning-making. They are intended to be used within the theme to help students grasp the meaning of the language constructed through the use of "Target Grammatical Structures" without being explicitly taught. These structures are not considered "Target Grammatical Structures" themselves rather they function as a part of the facilitation process, supporting both the target forms and the contexts in which they are used. They provide opportunities for learning through revised and scaffolded language.

Target Grammatical Structures in Use:

-Conditional 2: (If people made a significant innovation in fuel technology, space travel would be more affordable).
-Conditional 3: (If people had made a significant innovation in fuel technology, space travel would have become more affordable)
-Modals in the Past (Could, Would, May, Should, Ought to, Might, Must have + past participle): "You could have been more careful about the warnings".
- "Wish" (Present, Past, Future): I wish I was on a spaceship (Present Unreal situation). I wish I had learnt more about space (Past regret). I wish you would help me with my assignment about space (Complaint-Future).

Functions of the Grammatical Structures in Use:

-Use of Conditional 3: Describing imaginary situations (which did not happen) in the past.
-Use of Modals in the Past: Expressing possibility, advice, necessity, ability, expectation and criticism in

relation to the past.
-Use of "Wish" (for the Present and Future): Expressing wishes, regrets, desires and unreal situations about the present or future.

Target Social Language Expressions in Use:

Innovation starts with a question!
The future belongs to the curious!
Tomorrow is written by today's dreamers!
Our future is written in the stars!
The universe doesn't wait for us to catch up!

Target Phonological Sounds in Use:

Consonants: v, w, x, y, z
Consonants: v: (/viː/, /v/); w: (/w/), silent /w/); x: (/ɛks/, /ks/, /gz/); y: (/waɪ/, /j/, /ɪ/, /iː/); z: /(zed/ (Br), /ziː/ (AmE), /z/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the universe and the future with its components such as the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in the year 10 (after prep) of an upper secondary school may know what "life in the universe and the future with its components such as the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" means, but may not know how to say these things in another language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Space, travel, technologies, development, space travel, space travel technologies (rockets, spacecrafts), development of space travel technologies, tourism, concept, space tourism, concept of space tourism, future, future of space tourism, science fiction, imagination.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will write a narrative or reflection about one of the following sub-themes: the development of space travel technologies, the future of space tourism, or the role of science fiction and imagination. The writing piece should cover advancements, challenges, and visionary ideas. It should include target vocabulary items and phrases from the list provided to them by the teacher. Students are expected to use Conditional 2 and Conditional 3 accurately for hypothetical scenarios. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the universe and the future with its components such as the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in the after prep year 10 of an upper secondary school may know what the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination mean in their as it is known that almost all people

9983237 4 - 28998323 74 - 28998323

who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in another language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 10 of upper secondary school, they are expected to know some basic vocabulary about "life in the universe and the future" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 10 of upper secondary school are ready to learn the concept of "life in the universe and the future with its components such as the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the universe and the future with the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help

9983237 4 - 28998237 4 - 28998237 4 - 28998237 4 - 28998

the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.10.8.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the universe and the future", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the universe and the future" to prepare themselves to work on guessing the topic of the current theme, "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" **(V3.1, V3.3, V11.1, V11.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.10.8.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V3.1, V3.3, V11.1, V11.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.10.8.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the

current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V3.1, V3.3, V11.1, V11.2, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination are on the target vocabulary list of the current theme as clues to the components of the current theme . **(D3.7, V3.1, V3.3, V11.1, V11.2, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.10.8.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.10.8.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be

applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.10.8.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" the teacher asks them to say the new words whose meaning they do not know and

which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/"the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction

and imagination" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.10.8.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to

those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.8.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make

predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.10.8.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination **(D3.6, V3.1, V3.3, V11.1, V11.2, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.10.8.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.1, V3.3, V11.1, V11.2, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.10.8.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.10.8.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" to make a link between what they know and what they

are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.10.8.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.10.8.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.10.8.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.1, V3.3, V11.1, V11.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.10.8.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.10.8.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students the development of space travel technologies (rockets, spacecrafts); the

concept of space tourism and its future; science fiction and imagination through their writing tasks **(V3.1, V3.3, V11.1, V11.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.8.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.10.8.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.10.8.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.1, V3.3, V11.1, V11.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.10.8.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.10.8.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their

products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.10.8.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "the development of space travel technologies (rockets, spacecrafts); the concept of space tourism and its future; science fiction and imagination" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.10.8.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about space travel technologies (rockets, spacecraft); the concept of space tourism and its future in English by using the target vocabulary.

Activity 1: Future of Space Tourism

The teacher introduces the activity related to space tourism debate. The teacher prepares two groups: one to discuss in favour of space tourism by emphasising its unique opportunities, potential for advancements, and commercial benefits; the other group to focus on its challenges such as high costs, risks to the crew, and environmental concerns. Each group uses the target vocabulary such as "booking, lunar, unique, safety, crew, commercial, potential, investment" in their debate. After the debate, s/he gives feedback on the use of the language including the target vocabulary and creativity. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To create an advertisement on the concept of space tourism and its future in English by using target vocabulary and target grammar.

Activity 1:

The teacher introduces the activity to the students and they work in pairs. They write a short advertisement for space tourism. They use the target vocabulary such as "booking, lunar, unique, safety, crew" in their sentences and make sentences such as: "Join our unique lunar excursion! Our experienced crew ensures your safety on this incredible adventure. Now, you will create your own advertisement". They expand the

advertisement with some visuals and present it in class. The teacher listens and gives feedback on the use of language for accuracy and creativity. Students reflect on their thoughts and feelings about the activity.

AFTER PREP-YEAR 11

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 1: SCHOOL LIFE & EDUCATION

Sub-themes: Comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations

This theme is centred on the concept of "school life and education" and covers the sub-themes of "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.1.L1.Students can prepare and get ready for listening (to)/watching about the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.1.L2. Students can bring together the information in the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.11.1.L3. Students can make sense of and derive meaning from the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374 - 2899832374

ENG.11.1.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.1.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.1.R1. Students can prepare for reading the content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983274 - 28998327

ENG.11.1.R2. Students can bring information together about the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.1.R3. Students can make sense of and derive meaning from the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.1.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.1.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

28998323 - 28998323 - 28998323

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.1.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

899832374 - 2899832374 - 2899832374 - 2899832

ENG.11.1.W1. Students can prepare for writing efficiently and accurately based on the current content about "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.1.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.11.1.W3. Students can construct new written content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.1.W4. Students can practise producing written content based on the current theme "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 28998323 74 - 28998323

ENG.11.1.W5. Students can engage in the process of writing related to the content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

EENG.11.1.W6. Students can reconstruct their writing about the current theme on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.11.1.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.1.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.1.S2. Students can analyse and understand the model content related to "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.1.S3. Students can produce meaningful and accurate spoken content related to the current theme on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

9983237 4 - 2899832374 - 2899832374 - 2899832

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.1.S4. Students can construct meaningful spoken content about "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.1.S5. Students can reconstruct the information about "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.1.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

9983237 - 2899832374 - 2899832374 - 2899832374

CONTENT FRAME

SCHOOL LIFE & EDUCATION

Sub-themes: "Comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for comparing traditional and modern education: Nouns: An association, a corporation, lifetime, a limitation, a mode, an objective, a prompt, a questionnaire, a trait. Verbs: To classify, to dare, to account, to emphasise. Adjectives: Relevant, dependent, independent, incentive. Adverbs: Lately, literally, potentially, precisely. Phrasal verbs: Take into account.
Vocabulary for educational challenges in today's world: Nouns: Globalisation, placement, thesis. Verbs: To cite, to complicate. Adjectives: Challenging, comparative, controversial.
Vocabulary for impact of technology in education: Nouns: Programming, radiation, a receiver, an account, an advance, an aid, a barrier, gaming, timing. Verbs: To trap, to advance, to border, to aid, to detail, to document, to dominate, to extend. Adjectives: Remarkable, ultimate. Adverbs: Remarkably.
Phrases for educational challenges in today's world: Quality of education, access to education, social inequality, student engagement, well-being of students, rising education cost, cultural differences, globalisation and discrimination.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Background Grammatical Structures in Use:

-Revision of the Present, Perfect, and Future Tenses: (The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, the Present Perfect Progressive Tense, the Simple Future Tense, Be Going to Future Tense): (Technology has remarkably improved the quality of education. Today's schools are going to prioritise student wellbeing to improve their performance). *About "Background Grammatical Structures in Use":

*About "Background Grammatical Structures in Use":

The "Background Grammatical Structures" in this section are not only revisional but also serve as contextual support and contribute to meaning-making. They are intended to be used within the theme to help students grasp the meaning of the language constructed through the use of "Target Grammatical Structures" without being explicitly taught. These structures are not considered "Target Grammatical Structures" themselves rather they function as a part of the facilitation process, supporting both the target forms and the contexts in which they are used. They provide opportunities for learning through revised and scaffolded language.

Target Grammatical Structures in Use:

-Passive Voice of the Present, Perfect, and Future Tenses for Narration and Daily Conversations: (Do you think new educational technologies are being developed nowadays? I believe educational barriers will be removed through technology).

Functions of the Grammatical Structures in Use:

-Use of Passive Voice of the Present, Perfect, and Future Tenses for Narration and Daily Conversations: Describing actions and events where the person performing the action is not emphasised but focusing on the outcome or the object of the action instead (at present, in the future).
-Use of Present, Perfect, and Future Tenses: (The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, the Present Perfect Progressive Tense, the Simple Future Tense, Be Going to Future Tense): Describing actions about daily routines, ongoing activities, past experiences with current relevance, and future events or plans.

Target Social Language Expressions in Use:

Technology is really changing the game!
Different times call for different methods!
You can't teach today's students with yesterday's tools!
Learning is a journey, not a destination!

Target Phonological Sounds in Use:

-Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "school life and education with its components such as comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 11 of upper secondary school may know what "school life and education with its components such as comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Traditional education, modern education, comparing traditional and modern education, education challenges, challenges in modern world, education challenges in modern world, technology, impact of technology, impact of technology on education, national days, national celebrations.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will research the progress and change in education by comparing traditional and modern methods, addressing challenges in today's school systems, and examining the impact of technology. They will research key aspects, such as the role of digital tools and issues such as rising costs. They will present the findings creatively through timelines, videos, and/or interviews by covering the differences and transformations in education. Additionally, students will write a one-page reflection discussing how technology has improved education, other remaining challenges, and their preference between traditional and today's modern technology-based systems. They will present it in the classroom. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "school life and education with its components such as comparing traditional and modern education; education challenges in today's world; impact of technology on education;

9983237 4 - 2899832374 - 2899832374 - 2899832374

national days and celebrations" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 11 of upper secondary school, they are expected to know some basic vocabulary about "school life and education" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 11 of upper secondary school are ready to learn the concept of "school life and education with its components such as comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" cognitively, affectively, and socially since it is appropriate to their age and language level. Their knowledge of the days of the week and holidays will help them learn and practise important national holidays such as "the Republic Day of Türkiye". Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "school life and education with comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

2899632574 - 2899632574 - 2899632574

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.1.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "school life and education", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "school life and education" to prepare themselves to work on guessing the topic of the current theme, "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations **(V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.1.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/

theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.11.1.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences

9983274-2899832374-2899832

they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.1.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.11.1.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct

pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.1.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1).** S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one

of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.1.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital

2899832374 - 2899832374 - 2899832374

story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.1.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension,

improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.11.1.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations **(D3.6, V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.1.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, V19.1, V19.2, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.1.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.11.1.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing

2899832374 - 2899832374 - 2899832374

activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, V19.1, V19.2, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.1.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations in their later free writing tasks **(D3.6, SELS1.2, V3.2, V19.1, V19.2, LS1).**

ENG.11.1.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.1.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.1.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests,

and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.1.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations through their writing tasks **(V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.1.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.1.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.1.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V1.2, V11.1, V11.3, V14.3, V19.1, V19.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.1.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video

stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.1.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.1.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.1.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**

DIFFERENTIATION

Expansion

Objective: To make comparisons between traditional and modern education in English by using target vocabulary and target grammar.

Activity 1: Comparing Traditional and Modern Education with technology

Students work in pairs and the teacher gives them a chart with topics related to education (e.g. teaching methods, technology use, student roles). Each pair writes two comparative sentences for each topic by using the target vocabulary such as "association", "lifetime", and "emphasis". For example, "Traditional education placed more emphasis on memorisation while modern education emphasises critical thinking". After completing the sentences, each pair shares their comparisons with the class and the teacher gives feedback on accuracy and use of target vocabulary. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To describe challenges in education in English by using target vocabulary.

Activity 1: Educational Challenges in the Today's World

Students watch a simple video provided by the teacher about problems in education such as "quality of education" and "access to education". After the video, they write simple sentences such as "Social problems makes education harder" or "Globalisation is a big challenge", by using target vocabulary such as "challenging" and "rising education cost". Later, each student reads her/his sentences aloud and peers provide corrections or suggestions if needed. The teacher gives constructive and supportive feedback on the use of language with the target vocabulary and grammar. Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

9983237 4 - 2899832374 - 2899832374 - 2899832374

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 2: CLASSROOM LIFE & LEARNING

Sub-themes: Importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration

This theme is centred on the concept of "classroom life and learning" and covers the subthemes of "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

9983237 4 - 2899832374 - 2899832374 - 2899832374

After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.2.L1.Students can prepare and get ready for listening (to)/watching about the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.2.L2. Students can bring together the information in the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.11.2.L3. Students can make sense of and derive meaning from the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.11.2.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.2.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.2.R1. Students can prepare for reading the content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983274 - 2899832374 - 2899832374 - 2899832

ENG.11.2.R2. Students can bring information together about the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.2.R3. Students can make sense of and derive meaning from the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.2.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.2.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.2.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.11.2.W1. Students can prepare for writing efficiently and accurately based on the current content about "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.2.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.11.2.W3. Students can construct new written content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.2.W4. Students can practise producing written content based on the current theme "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983274 - 28998327 - 28998327 - 28998327

ENG.11.2.W5. Students can engage in the process of writing related to the content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.11.2.W6. Students can reconstruct their writing about the current theme on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.11.2.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.2.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.2.S2. Students can analyse and understand the model content related to "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.2.S3. Students can produce meaningful and accurate spoken content related to the current theme on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

9983237 4 - 2899832374 - 2899832374 - 2899832

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.2.S4. Students can construct meaningful spoken content about "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.2.S5. Students can reconstruct the information about "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.2.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

CLASSROOM LIFE & LEARNING

Sub-themes: "Importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for importance of teamwork and collaboration: Nouns: Unity, commitment, solidarity, consideration, devotion, determination. Verbs: To enrich, to foster, to unite, to maximize, to survey, to secure, to devote. Phrases: Problem-solving, shared knowledge, team integration, diversity of ideas, better decision-making, higher performance, enhanced communication, exchange of ideas, mutual support, shared responsibility, conflict resolution, shared goal, worldwide impact, team spirit, task completion, decision-making. Adjectives: Secure, determined, precious.
Vocabulary for global collaboration: Nouns: A proposal, an initiative, a strategy, a campaign, an impact, a contribution, an outcome, a contract, an approval. Verbs: To fund, to contract, to back, to acknowledge, to approve. Adverbs: Mutually, openly, freely, cross-culturally, worldwide, universally, equally, virtually, inclusively, strategically.
Vocabulary for challenges for teamwork and collaboration: Nouns: Opposition, harmony, consistency. Verbs: To clarify, to disapprove, to discourage, to disappoint. Adverbs: Emotionally.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Passive Voice of Modals ("Can, Could, May, Might, Need, Needn't"): (Contributors shouldn't be discouraged from offering their ideas).
-"Be able to" for Ability (present-past-future): (They were able to collaborate in the project willingly).
-Verbs Followed by Bare Infinitives (I'd rather, had better, etc.): (You had better complete the task by the deadline).
-Verbs Followed by To + Gerund (help, look forward, etc.): (I look forward to maximising the impact of our collaboration in the project).
-Verbs Followed by Infinitives (think about, make me, hope, advise, manage, mind, etc.): (Teachers should advise students to study collaboratively).

Functions of the Grammatical Structures in Use:

-Use of Passive Voice of Modals: Expressing probability, deduction, speculation, necessity and obligation when the focus is on the action rather than the doer.
-Use of "Be able to" for Ability: Expressing ability at different times (past, present).
-Use of Verbs Followed by Bare Infinitives: Expressing suggestions, necessity, or preferences in a direct and concise way.
-Use of Verbs Followed by To + Gerund: Describing actions related to habits, future expectations, or adaptability.
-Use of Verbs Followed by Infinitives: Describing intentions, advice, plans, or willingness.

Target Social Language Expressions in Use:

Practice makes perfect!
We are on the same page!

9983237 - 28998237 - 28998237 - 2899832

Let's work on this together!
Let's team up on this project!
Why don't we combine our strengths!

Target Phonological Sounds in Use:

Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "classroom life and learning with its components such as importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 11 of upper secondary school may know what "classroom life and learning with its components such as importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Teamwork, collaboration, importance of teamwork, importance of collaboration, global projects, global collaboration projects, challenges, challenges for teamwork, challenges for collaboration.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will work on the significance of teamwork and collaboration, global collaboration projects, and the challenges for them. First, they will look for examples of successful teamwork and global projects, noting benefits and obstacles. Then, in groups, they present them in the classroom. Then, they will reflect on their own experience individually through a report by discussing what worked well and what challenged them during the process. The report will be ended with strategies they will propose to improve collaboration in different teams. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "classroom life and learning with its components such as importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 11 of upper secondary school, they are expected to know some basic vocabulary about "classroom life and learning" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

28998323 74 - 28998323 74 - 28998323 74

Pre-Evaluation Process

It is assumed that these students in after prep year 11 of upper secondary school are ready to learn the concept of "classroom life and learning with its components such as importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "classroom life and learning with importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by

a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.2.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "classroom life and learning", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "classroom life and learning" to prepare themselves to work on guessing the topic of the current theme, "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" **(V4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.2.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, 4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know, and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.11.2.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, 4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn

and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaborationare on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, 4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6)(7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.2.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

5998327 - 28998327 - 28998327 - 28998327

ENG.11.2.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.2.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration**(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key

2899832374 - 2899832374 - 2899832374

target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning

of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.2.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the

teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT:

Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.2.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.11.2.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration **(D3.6, V4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS2, LS5, CS2.7).).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the

components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.2.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, 4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.2.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.11.2.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, V19.1, V19.2, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.2.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

2899832374 - 2899832374 - 2899832374

ENG.11.2.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.2.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, 4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.2.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.2.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students' importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration through their writing tasks **(4.1, V4.2, V4.3, V10.3, V16.2, V16.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.2.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.2.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.2.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, 4.1, V4.2, V4.3, V10.3, V16.2, V16.3, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.2.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.2.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.2.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "importance of teamwork and collaboration; global collaboration projects; challenges for teamwork and collaboration" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the

9983274 - 2899832374 - 2899832374 - 2899832

school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.2.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To describe and talk about the importance of teamwork and collaboration and challenges for teamwork and collaboration in English by using target vocabulary.

Activity 1: Teamwork Challenge

Students work in groups of three to complete a group of tasks related to the theme. Each group member takes turns and the next student cannot start their task until the previous one is successfully completed. Tasks include matching vocabulary with definitions, describing visuals by using target vocabulary or filling in blanks with correct terms. After each task, the student shows their answer to the teacher for being approved. If it is correct, the next student continues. The group that finishes all tasks first wins. In the end, students share how they felt during the activity, and the teacher and classmates provide feedback on the use of language with the target vocabulary, grammar, creativity, and fluency. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To recognise the importance of teamwork and collaboration and challenges for teamwork and collaboration in English by using the target vocabulary.

Activity 1: Word Match Challenge

The teacher creates a digital puzzle game with the target vocabulary. Each group takes turns and one student drags the Turkish word to match its English meaning at a time. The group works together to complete the puzzle as fast as possible. The group that finishes in the shortest time wins. After the game, students write about their experience, such as "We worked as a team" or "Collaboration helped us solve the puzzle". They share their sentences with the class, and the teacher gives feedback on their teamwork and effort. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 3: PERSONAL LIFE & WELL-BEING

Sub-themes: Dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being

This theme is centred on the concept of "personal life and well-being" and covers the sub-themes of "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

9983237 4 - 289983237 4 - 289983237 4 - 289983237

After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.3.L1.Students can prepare and get ready for listening (to)/watching about the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.3.L2. Students can bring together the information in the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.11.3.L3. Students can make sense of and derive meaning from the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.11.3.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.3.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.3.R1. Students can prepare for reading the content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 - 2899832374 - 2899832374 - 2899832374

ENG.11.3.R2. Students can bring information together about the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.3.R3. Students can make sense of and derive meaning from the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.3.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.3.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

2899832374 - 2899832374 - 2899832374 - 2899832

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.3.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

8998323374 - 28998323374 - 28998323374

ENG.11.3.W1. Students can prepare for writing efficiently and accurately based on the current content about "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.3.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.11.3.W3. Students can construct new written content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.3.W4. Students can practise producing written content based on the current theme "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.11.3.W5. Students can engage in the process of writing related to the content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.11.3.W6. Students can reconstruct their writing about the current theme on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.11.3.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.3.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.3.S2. Students can analyse and understand the model content related to "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.3.S3. Students can produce meaningful and accurate spoken content related to the current theme on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

9983274 - 2899832374 - 2899832374 - 2899832374

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.3.S4. Students can construct meaningful spoken content about "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.3.S5. Students can reconstruct the information about "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.3.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "personal life and well-being with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

28998323374 - 28998323374 - 28998323374

CONTENT FRAME

PERSONAL LIFE & WELL-BEING

Sub-themes: "Dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for dietary practices and trends: Nouns: A counter, a portion, a vegan, a consumer. Verbs: To beat, to chop, to flavour, to grill, to peel, to reserve, to spread, to spill. Adjectives: Balanced, bitter, dietary, nutritious, organic, sour, gluten-free, raw.
Vocabulary for the impact of social media on self-esteem and body image: Nouns: Pressure, criticism, exposure, perception, feedback, a concern. Verbs: To impact, to conform, to expose, to perceive, to alter, to compare, to filter, to portray, to undermine. Adjectives: Excessive. Adverbs: Considerably, constantly, mainly, primarily.
Vocabulary for managing screen time and digital detox for personal well-being: Nouns: A guideline, a restriction. Verbs: To disconnect, to track, to schedule, to eliminate, to ensure, to engage. Adjectives: Mindful. Adverbs: Intentionally, consciously. Phrases: To keep a record.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Passive Voice in/for Past Tenses for Narration and Daily Conversations: (Students' screen time habits were discussed in detail at the seminar. The table had been prepared before the guests arrived).
-Revision of Past Tenses (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): (Youngsters started doing a digital detox to improve their psychological well-being. By the time dinner started, the chef had already prepared the soup. He had been using social media too much and it made him feel bad).

Functions of the Grammatical Structures in Use:

-Use of Passive Voice of the Past Tenses for Narration and Daily Conversations: Describing past events or actions where the focus is on the outcome or the object of the action rather than the person performing it.
-Use of Revision of the Past Tenses (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): Describing past actions, ongoing activities in the past, sequences of events, and the duration of actions before a specific point in time.

Target Social Language Expressions in Use:

Health is wealth!
Make time for yourself!
Don't let stress get the best of you!
Eat well, feel well!
Eat to live, not live to eat!

9983237 4 - 28998323 74 - 28998323 74 - 28998323

Target Phonological Sounds in Use:

Intonation for positive statements, negative statements, questions, and question tags..

Generalisations/Key Concepts

Generalisations

The target concept of this theme "personal life and well-being with its components such as dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 11 of upper secondary school may know what "personal life and well-being with its components such as dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" mean, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Traditional education, modern education, comparing traditional and modern education, education challenges, challenges in modern world, education challenges in modern world, technology, impact of technology, impact of technology on education, national days, national celebrations.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will research the progress and change in education by comparing traditional and modern methods, addressing challenges in today's school systems, and examining the impact of technology. They will research key aspects, such as the role of digital tools and issues such as rising costs. They will present the findings creatively through timelines, videos, and/or interviews by covering the differences and transformations in education. Additionally, students will write a one-page reflection discussing how technology has improved education, other remaining challenges, and their preference between traditional and today's modern technology-based systems. They will present it in the classroom. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "personal life and well-being with its components such as dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what comparing traditional and modern education; education challenges in today's world; impact of technology on education; national days and celebrations mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 11 of upper secondary school, they are expected to know some basic vocabulary about "school life and education" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

5989832374 - 2899832374 - 2899832374

Pre-Evaluation Process

It is assumed that these students in after prep year 11 of upper secondary school are ready to learn the concept of "personal life and well-being with its components such as dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "personal life and wellbeing with dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching

practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.3.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "personal life and well-being", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "personal life and well-being" to prepare themselves to work on guessing the topic of the current theme, "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being **(V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.3.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.11.3.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS2, LS4, LS5).**

5989832374 - 2899832374 - 2899832374

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6)(7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.3.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the

whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.11.3.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or

improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.3.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning

can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.3.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use

of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.3.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.11.3.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being **(D3.6, V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS2, LS5, CS2.7).** Students read the text very quickly to

check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.3.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-beingmean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.3.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.11.3.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.3.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5,**

CS2.4, CS2.19, CS3.2). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.11.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.3.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.3.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.3.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being through their writing tasks **(V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

5989323374 - 2899323374 - 2899323

ENG.11.3.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.3.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.3.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V6.1, V8.1, V8.2, V10.1, V10.2, V13.1, V14.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.3.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.3.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.3.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "dietary practices and trends; the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.3.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about the impact of social media on self-esteem and body image; managing screen time and digital detox for personal well-being in English by using target vocabulary and target grammar.

Activity 1: Designing a Workshop Plan

Students design a workshop to educate peers about managing social media's impact on self-esteem by using some listed vocabulary. Students write a workshop outline with sections such as:

- Understanding Social Media Portrayals: How do they change perception?
- Managing Exposure: Mindful strategies to reduce pressure.
- Building Self-esteem: Using constructive feedback to improve confidence.

Students present their plans to the class and the teacher gives feedback on the use of the language with target vocabulary, grammar, and pronunciation. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To describe challenges in education in English by using target vocabulary.

Activity 1: Educational Challenges in the Today's World

Students watch a simple video provided by the teacher about problems in education such as "quality of education" and "access to education". After the video, they write simple sentences such as "Social problems makes education harder" or "Globalisation is a big challenge", by using target vocabulary such as "challenging" and "rising education cost". Later, each student reads her/his sentences aloud and peers provide corrections or suggestions if needed. The teacher gives constructive and supportive feedback on the use of language with the target vocabulary and grammar. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 4: FAMILY LIFE & HOME

Sub-themes: Family reunions; collaborative and creative activities at home; dealing with generation gap in families

This theme is centred on the concept of "family life and home" and covers the subthemes of "family reunions; collaborative and creative activities at home; dealing with generation gap in families". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.4.L1.Students can prepare and get ready for listening (to)/watching about the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.4.L2. Students can bring together the information in the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.11.4.L3. Students can make sense of and derive meaning from the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.11.4.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

2899832374 - 2899832374 - 2899832374

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.4.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.4.R1. Students can prepare for reading the content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.11.4.R2. Students can bring information together about the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.4.R3. Students can make sense of and derive meaning from the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.4.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.4.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

-2899832374 -2899832374 -2899832374

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.4.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.11.4.W1. Students can prepare for writing efficiently and accurately based on the current content about "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.4.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

9983274 - 28998327

ENG.11.4.W3. Students can construct new written content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.4.W4. Students can practise producing written content based on the current theme "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.11.4.W5. Students can engage in the process of writing related to the content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.11.4.W6. Students can reconstruct their writing about the current theme on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

2899832374 - 2899832374 - 2899832374

ENG.11.4.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.4.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.4.S2. Students can analyse and understand the model content related to "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.4.S3. Students can produce meaningful and accurate spoken content related to the current theme on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.4.S4. Students can construct meaningful spoken content about "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

2899832374 - 2899832374 - 2899832374

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.4.S5. Students can reconstruct the information about "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.4.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

FAMILY LIFE & HOME

Sub-themes: "Family reunions; collaborative and creative activities at home; dealing with generation gap in families"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for family reunions: Nouns: A reunion, affection, a bond, a connection, gratitude, enthusiasm. Verbs: To accompany, to reconnect, to recall, to host, to desire. Adjectives: Memorable. Adverbs: Casually.
Vocabulary for collaborative and creative activities at home: Verbs: To capture (images), to assemble, to compose. Adjectives: Spontaneous, thoughtful, eager, responsive, receptive, enthusiastic. Adverbs: Eagerly, spontaneously, affectionately.
Vocabulary for dealing with generation gap in families: Nouns: A conflict, appreciation, consideration, an expectation. Verbs: To settle, to adapt, to resist, to disapprove, to acknowledge, to misunderstand, to establish. Adjectives: Mutual, respectful, progressive, irritated, out-dated. Adverbs: Genuinely, calmly. Phrases: Bridge the gap, respect boundaries, build trust.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days,

9983237 4 - 28998323 74 - 28998323

festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Reported Speech: The Present and Perfect Tenses for Reporting in Daily Speech (The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, The Present Progressive Tense): (Experts say that gratitude is essential to build trust in family relationships. He says that he has captured many memorable moments during family reunions. Supportive teachers tell their students that they will appreciate every effort).
-Reporting Verbs: say, tell, ask: (They say (to me) that composing music together at home is a thoughtful activity. My grandma tells me that eating out frequently is not a wise choice for health).

Functions of the Grammatical Structures in Use:

-Use of Reported Speech: The Present and Perfect Tenses for Reporting in Daily Speech (The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, the Present Perfect Progressive Tense: Reporting what someone else has said or shared about present situations, ongoing actions, or recent experiences.
-Use of Reporting Verbs: say, tell, ask: Communicating what others say, tell, or ask by using reporting verbs.

Target Social Language Expressions in Use:

Family comes first!
Make yourself at home!
A home is built with love and dreams!
It's time for a heart-to-heart family talk!

Target Phonological Sounds in Use:

Vowels: a, e
Consonants: b, c, d
Vowels: a: (/ae/, /aeɪ/, /ə/, /a:/, /eɪ/, /a:/, /a/, /ɔ:/, /eə/); e: (/e/; /i:/, /ə/, silent /e/)
Consonant: b: (/b/), silent /b/); c: (/si/, /k/, /tʃ/, /z/, silent /c/); d: (/d/), silent /d/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "family life and home with its components such as family reunions; collaborative and creative activities at home; dealing with generation gap in families" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 11 of upper secondary school may know what "family life and home with its components such as family reunions; collaborative and creative activities at home; dealing with generation gap in families" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Family reunions, activities at home, collaborative activities at home, creative activities at home, generation gap, generation gap in families, dealing with generation gap, dealing with generation gap in families.

9983237 4 - 28998237 4 - 28998237 4 - 28998237 4

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will think about and search for the dynamics of family life by focusing on reunions, collaborative activities, and the generation gap. They will begin with interviews held with family members from different generations to learn about traditions, values, and perspectives. As a result of interviews, students will design and implement a creative family activity that incorporates intergenerational interests. They will video record the activity and share it in the classroom. Finally, students will reflect on their experiences in a short essay or visual presentation by summarising their insights on bridging the generation gap, the significance of family reunions, and the value of collaborative activities. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "family life and home with its components such as family reunions; collaborative and creative activities at home; dealing with generation gap in families" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what family reunions; collaborative and creative activities at home; dealing with generation gap in families mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 11 of upper secondary school, they are expected to know some basic vocabulary about "family life and home" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.,

Pre-Evaluation Process

It is assumed that these students in after prep year 11 of upper secondary school are ready to learn the concept of "family life and home with its components such as family reunions; collaborative and creative activities at home; dealing with generation gap in families" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "family life and home with family reunions; collaborative and creative activities at home; dealing with generation gap in families" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a

story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.4.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "family life and home", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "family life and home" to prepare themselves to work on guessing the topic of the current theme, "family reunions; collaborative and creative activities at home; dealing with generation gap in families **(V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.4.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "family reunions; collaborative and creative activities at home; dealing with generation gap in families" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly

2899832374 - 2899832374 - 2899832374

to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know, and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.11.4.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "family reunions; collaborative and creative activities at home; dealing with generation gap in families" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/ underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: family reunions; collaborative and creative activities at home; dealing with generation gap in families are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard

or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.4.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.11.4.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "family reunions; collaborative and creative activities at home; dealing with generation gap in families". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4,**

V4.2, LS1, LS2, LS4). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.4.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: family reunions; collaborative and creative activities at home; dealing with generation gap in families **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity

(D3.2, SELS2.2). One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "family reunions; collaborative and creative activities at home; dealing with generation gap in families" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "family reunions; collaborative and creative activities at home; dealing with generation gap in families" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "family reunions; collaborative and creative activities at home; dealing with generation gap in families" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.4.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.4.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.11.4.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "family reunions; collaborative and creative activities at home; dealing with generation gap in families **(D3.6, V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.4.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of family reunions; collaborative and creative activities at home; dealing with generation gap in families mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "family reunions; collaborative and creative activities at home; dealing with generation gap in families" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.4.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to

the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.11.4.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "family reunions; collaborative and creative activities at home; dealing with generation gap in families" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.4.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students family reunions; collaborative and creative activities at home; dealing with generation gap in families in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.11.4.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.4.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of family reunions; collaborative and creative activities at home; dealing with generation gap in families for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.4.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories,

2899832374 - 2899832374 - 2899832374

dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.4.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students' family reunions; collaborative and creative activities at home; dealing with generation gap in families through their writing tasks **(V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.4.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.4.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.4.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "family reunions; collaborative and creative activities at home; dealing with generation gap in families" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V2.1, V2.2, V2.4, V14.1, V15.2, V15.5, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.4.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.4.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.4.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "family reunions; collaborative and creative activities at home; dealing with generation gap in families" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.4.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about dealing with generation gaps in families in English by using the target vocabulary.

Activity 1: Problem-Solving Discussion

Students work in small groups, and the teacher gives each group a scenario such as a "generation gap issue" or a "family reunion planning problem". Groups discuss the problem, suggest solutions using target vocabulary such as "compromise", "acknowledge", and "respect boundaries", and prepare a short summary. They present their solutions to the class by using target grammar, e.g. "Our group suggests that families should acknowledge each other's expectations". After the presentation, the teacher gives feedback on the use of target vocabulary, target grammar, and pronunciation. Students reflect on their thoughts and feelings about the activity.

2899832574 - 2899832574 - 2899832574

Supporting

Objective: To describe challenges in education in English by using target vocabulary.

Activity 1: Picture Match & Report

The teacher gives students pictures representing family reunions, creative activities, and generation gap scenarios, labelled with target vocabulary such as "a reunion", "bonding", "assembling", and "bridge the gap". Students match the words with the pictures and create sentences, e.g. "We bond during family reunions". Then, in pairs, they share a memorable family moment by using simple sentences such as "We host a family reunion every summer". Their peers listen and report it to the class by using sentences such as "He says that..." or "She tells me that..." to practice the target grammar. After all pairs have presented, the teacher gives feedback on the use of the language with target vocabulary, grammar, and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 5: LIFE IN THE NEIGHBOURHOOD, CITY & SOCIAL LIFE

Sub-themes: Life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future

This theme is centred on the concept of "life in the neighbourhood, city and social life" and covers the sub-themes of "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English effectively in their daily lives, both within and beyond the school environment.

After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.5.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.5.L2. Students can bring together the information in the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.11.5.L3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.11.5.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.5.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.5.R1. Students can prepare for reading the content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.11.5.R2. Students can bring information together about the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.5.R3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.5.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.5.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

28998323374 - 28998323374 - 28998323374

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.5.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

8998374 - 28998374 - 28998374 - 28998374

ENG.11.5.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.5.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.11.5.W3. Students can construct new written content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.5.W4. Students can practise producing written content based on the current theme "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.11.5.W5. Students can engage in the process of writing related to the content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.11.5.W6. Students can reconstruct their writing about the current theme on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.11.5.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.5.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.5.S2. Students can analyse and understand the model content related to "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.5.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

2899832374 - 2899832374 - 2899832374

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.5.S4. Students can construct meaningful spoken content about "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.5.S5. Students can reconstruct the information about "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.5.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

9983274 - 2899832274 - 2899832274

CONTENT FRAME

LIFE IN THE NEIGHBOURHOOD, CITY & SOCIAL LIFE

Sub-themes: "Life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for life in smart cities and slow cities: Nouns: Wealth, a booking, mobility, a pace, infrastructure, trading, a circumstance, a mayor. Verbs: To witness, to boost, to optimise, to bear, to isolate. Adjectives: Wealthy, modest, depressing, full-time. Conjunctions: Whereas, wherever. Prepositions: Alongside. Phrases: A car free zone, pedestrian friendly. Adverbs: Purely, steadily.

Vocabulary for leisure activities in smart, slow and other different cities: Nouns: An auction, a workshop, a recreation, an involvement, an exhibition, an opera, a tournament, a cruise, a pleasure. Verbs: To dive, to embrace, to display, to snorkel, to participate, to appeal, to capture, to desire. Adjectives: Adventurous, refreshing, thrilling, rewarding, downtown, hidden. Adverbs: Annually.

Vocabulary for challenges of planning life in the city for the future: Nouns: A necessity, a crisis, overpopulation, a shelter, a strain, congestion, contamination, an equal, a mortgage, expansion, homelessness, corruption. Verbs: To eliminate, to prioritize, to equip, to handle, to resolve, to construct, to regulate. Adjectives: Worse, worst, useless, insufficient, homeless, inevitable, affordable, complex. Adverbs: Hence, rapidly.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Future Perfect Tense: (By the end of next year, the city will have renovated its pavements. By 2030, they will have eliminated car congestion in city centres).

-The Future Perfect Progressive Tense: (You will have been waiting for more than two hours when her plane finally arrives).

-Reported Speech: The Future Tenses for Reporting in Daily Speech (The Simple Future Tense, Be Going to Future Tense, the Future Progressive Tense, the Future Perfect Tense and the Future Perfect Progressive Tense: (They say that by 2030, the city will have witnessed significant population growth. That small country will have been improving its public transport networks since they bought new speed trains).

-Reporting Verbs: (report, request, offer, explain): (They report that the population of the city is steadily increasing. She explains that hosting annual auctions and exhibitions will appeal to tourists).

-Other Time Expressions for the Future: (Be about to, be due to): (The city council meeting is due to start in five minutes).

Functions of the Grammatical Structures in Use:

-Use of the Future Perfect Tense: Expressing actions, events, or achievements that will be completed before a specific point in the future.

-Use of the Future Perfect Progressive Tense: Expressing actions that will have been ongoing for a certain amount of time by a specific future moment, emphasising the duration or continuity of the activity.

2899832374 - 2899832374 - 2899832374

-Use of Reported Speech: The Future Tenses for Reporting in Daily Speech the Future Perfect Tense and the Future Perfect Progressive Tense: Talking about future outcomes and the progress of ongoing actions as described by someone else, focusing on anticipated results or sustained efforts.
-Use of Reporting Verbs: report, request, offer, explain: Communicating effectively by sharing information, making polite requests, suggesting assistance, and providing clear explanations.
-Use of "Be about to, Be due to": Describing the time for expected or scheduled future events.

Target Social Language Expressions in Use:

A good neighbour is a treasure!
City life never sleeps!
Good fences make good neighbours!
The hustle and bustle of city life!

Target Phonological Sounds in Use:

Vowels: i: (/aɪ/, /ɪ/, /i:/)
Consonants: f: (/f/); g: (/g/, /dʒ/, silent /g/); h: (/h/), silent /h/); j: (/dʒeɪ/, /dʒ/); k: (/k/, silent /k/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the neighbourhood, city and social life with its components such as life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 11 of upper secondary school may know what "life in the neighbourhood, city and social life with its components such as life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Smart cities, slow cities, life in smart cities, life in slow cities, leisure activities, leisure activities in smart cities, leisure activities in slow cities, leisure activities in different cities, planning life in the city, future of city life, challenges of planning life in the city, challenges of planning life in the city for the future.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will conduct an interview with a person who lives in a smart or slow city about leisure activities in pairs. They may choose a real person or create an avatar. If they like, they can videotape the interview. Then, they will report the interviews in the classroom. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the neighbourhood, city and social life with its components such as life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if

9983237 4 - 2899832374 - 2899832374 - 2899832374

this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in the after prep year 11 of an upper secondary school, they are expected to know some basic vocabulary about "life in the neighbourhood, city and social life" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 11 of upper secondary school are ready to learn the concept of "life in the neighbourhood, city and social life with its components such as life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the neighbourhood, city, and social life with life in smart cities and slow cities; leisure activities in smart, slow, and other different cities; challenges of planning life in the city for the future" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/

rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.5.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the neighbourhood, city and social life", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the neighbourhood, city and social life" to prepare themselves to work on guessing the topic of the current theme, "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future **(V5.2, V13.2, V13.4, V19.3, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.5.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" to identify the topic of the content and to answer the question: "What is the whole content about?" ?" **(D3.6, V5.2, V13.2, V13.4, V19.3, LS1, LS4, LS5, LS8, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.11.5.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the

topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1,V 5.2, V13.2, V13.4, V19.3, LS2, LS4, LS5, LS8).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V5.2, V13.2, V13.4, V19.3, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.5.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each

other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.11.5.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens

to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.5.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one

list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the

English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.5.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in

these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.5.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

2899832374 - 2899832374 - 2899832374

ENG.11.5.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" **(D3.6, V5.2, V13.2, V13.4, V19.3, LS2, LS5, LS8, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.5.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V5.2, V13.2, V13.4, V19.3, LS1, LS5, LS6, LS8, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.5.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.11.5.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.5.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.11.5.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.5.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V5.2, V13.2, V13.4, V19.3, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.5.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.5.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future through their writing tasks **(V5.2, V13.2, V13.4, V19.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic

9983237 - 28998237 - 28998237 - 28998237

materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.5.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.5.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.5.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V5.2, V13.2, V13.4, V19.3, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.5.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.5.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their

products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.5.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "life in smart cities and slow cities; leisure activities in smart, slow and other different cities; challenges of planning life in the city for the future" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.5.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To describe challenges of planning life in the city for the future in English by using target vocabulary and target grammar.

Activity 1: City Planning Timeline: Predict the Future

The teacher gives a scenario where students imagine they are urban planners designing a city for 2030 to solve problems like overpopulation, congestion, and contamination while improving infrastructure, mobility, and conservation. Students design a timeline with sentences such as, "By 2025, the city will have constructed affordable housing" or "By 2030, urban planners will have been working on sustainable expansion for five years". Each event must address a specific challenge by using the target vocabulary such as "affordable, expansion, conservation, and mobility". After completing their timelines, the students will present them to the class and explain their solutions. This activity encourages critical thinking and the use of target vocabulary and target grammar practice in a creative way. In the end, the teacher gives feedback on accuracy, use of target vocabulary, target grammar, and pronunciation. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To describe life in smart cities and slow cities in English by using target vocabulary and target grammar.

Activity 1: Complete the Vision: City Life in 2030

The teacher provides a worksheet with incomplete sentences such as "By 2030, the city will have improved

5998323741 - 2899832374 - 2899832374

its _____" or "By 2030, they will have reduced _____ in city centres", by using the target words from the word bank (infrastructure, mobility, congestion, overpopulation, expansion, affordable, conservation). Examples include "By the end of the next decade, new _____ solutions will have been introduced" or "People will have prioritised _____ of natural resources". Digital Support: Students can use an online word bank on a tool, complete an interactive quiz on a tool to practice, and watch short videos or view pictures of smart cities for inspiration. They write and share sentences with peers or groups, by discussing the importance of these changes for future city planning. In the end, the teacher provides feedback on accuracy, use of target vocabulary, and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 6: LIFE IN THE WORLD & CULTURE

Sub-themes: The impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage

This theme is centred on the concept of "life in the world and culture" and covers the subthemes of "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression

After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.6.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.6.L2. Students can bring together the information in the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.11.6.L3. Students can make sense of and derive meaning from the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.11.6.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.6.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.6.R1. Students can prepare for reading the content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.11.6.R2. Students can bring information together about the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.6.R3. Students can make sense of and derive meaning from the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.6.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.6.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

28998323374 - 28998323374 - 28998323374

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.6.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

2899832374 - 2899832374 - 2899832374

ENG.11.6.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.6.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.11.6.W3. Students can construct new written content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.6.W4. Students can practise producing written content based on the current theme "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

28998323 - 28998323 - 28998323

ENG.11.6.W5. Students can engage in the process of writing related to the content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.11.6.W6. Students can reconstruct their writing about the current theme on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.11.6.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.6.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.6.S2. Students can analyse and understand the model content related to "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.6.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

9983237 4 - 28998237 4 - 28998237 4 - 28998237

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.6.S4. Students can construct meaningful spoken content about "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.6.S5. Students can reconstruct the information about "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.6.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the world and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

9983274 - 28998327

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE WORLD & CULTURE

Sub-themes: "The impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for the impact of social media, celebrities, and influencers on cultural trends: Nouns: A content, visibility, a brand, a platform, a pick, latest, violence. Verbs: To influence, to impress, to transform, to affect, to share, to spread, to promote, to model, to favour. Adjectives: widespread, efficient, influential, vibrant. Phrases: Go viral, all-time/record high, the broadcasting/print medium. Adverbs: Nevertheless.

Vocabulary for digital communication and interpersonal relationships: Nouns: Netiquette, a notification, a stream. Verbs: To post, to mention, to upload, to subscribe. Adjectives: Wireless, instant, accessible. Phrases: Digital footprint, user-generated content.

Vocabulary for interpersonal relationships: Nouns: A bond, a conflict, affection, a gesture, confidence, faith, a fellow, empathy. Verbs: To propose, to forgive, to date, to regret, to trust, to reconnect, to get along. Adjectives: Honesty, sincere, respectful, neutral, humorous, persuasive, patient, impatient, optimistic, pessimistic, aggressive, sensitive.

Vocabulary for folklore and myths as cultural heritage: Nouns: A tradition, a custom, a community, an ancestor, a legend, a tale, an insight, a notion, a victory, a ritual, a proverb. Verbs: To narrate, to preserve, to inherit, to pass down, to extend, to reflect, to unite. Phrases: A sense of identity. Adjectives: Conservative, initially, vital, moral, epic, narrative. Adverbs: Formerly.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Reported Speech: The Past Tenses for Reporting in Daily Speech (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): (He said that the content shared by influencers had increased).

-Reported Speech: Yes-No Questions: (They asked if she had posted the picture, she mentioned on her social media account).

-Reported Speech: Imperatives: (My boss told me to enable notifications so I wouldn't miss important updates).

-Causatives: Had something done: (The community had their tradition preserved by local historians).

Functions of the Grammatical Structures in Use:

-Use of Reported Speech: The Past Tenses for Reporting in Daily Speech (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): Reporting what someone

else has said or shared about past situations or past experiences and completed actions.
-Use of Reported Speech: Yes-No Questions: Reporting questions indirectly.
-Use of Reported Speech: Imperatives: Reporting someone else's direct commands, requests, or suggestions.
-Use of Reporting Verbs: Agree, refuse, reject, approve.

Target Social Language Expressions in Use:

We all speak the same language despite our backgrounds!
We're all under the same sky!
Every culture has its own beauty!
Bridges bring us together, not walls!
Different cultures, shared values!

Target Phonological Sounds in Use:

Vowel: o
Consonants: l, m, n, (ng), p
Vowel: o: (/əʊ/, /ɒ/, /əʊ/)
Consonants: l: (/ɛl/ /l/, silent /l/); m; (/ɛm/, /m/); n: (/ɛn/, /n/, silent /n/); ng: (/ng/); p: (pi://p/, silent /p/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. Most example, a student in year 11 of upper secondary school may know what "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Social media, celebrities, influencers, cultural trends, impact of social media, impact of celebrities, impact of influencers, impact of social media on cultural trends, impact of celebrities on cultural trends, impact of influencers on cultural trends, digital communication, interpersonal relationships, folklore, myths, folklore as cultural heritage, myths as cultural heritage

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will prepare a project titled "Myths and Culture" by focusing on local and national stories and their connection to today's world. First, they will research a local or national myth such as stories about ancestors, proverbs, or traditional customs. Then, they will create a storyboard or short video that shows the main message of the myth and how it connects to modern life. Finally, they will discuss how these stories influence community traditions, values, and everyday experiences. Creative elements like drawings, photos, or simple animations should be included in their presentation. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the world and culture with its components such as the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" and it is assumed that it could be present in almost

5998323374 - 2899323374 - 2899323374

all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 11 of an upper secondary school, they are expected to know some basic vocabulary about "life in the world and culture" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 11 of upper secondary school are ready to learn the concept of "life in the world and culture with its components such as the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the World and culture with the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.6.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the world and culture", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the world and culture" to prepare themselves to work on guessing the topic of the current theme, "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage **(V4.2, V4.5, V14.3, V19.3, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.6.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V4.2, V4.5, V14.3, V19.3, LS1, LS4, LS5, LS8, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know, and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2).** At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5,**

D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).

ENG.11.6.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V4.2, V4.5, V14.3, V19.3, LS2, LS4, LS5, LS8).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V4.2, V4.5, V14.3, V19.3, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread

picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.6.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.11.6.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-

feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.6.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS8, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "the impact of social

media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they

have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.6.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used.

When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.6.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current

content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.11.6.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage **(D3.6, V4.2, V4.5, V14.3, V19.3, LS2, LS5, LS8, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.6.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V4.2, V4.5, V14.3, V19.3, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.6.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.11.6.W1.

5998323374 - 2899832374 - 2899832374 - 2899832374

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.6.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.11.6.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.6.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V4.2, V4.5, V14.3, V19.3, LS5, LS8, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.6.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All

5998323374 - 28998323374 - 28998323

the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.6.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage through their writing tasks **(V4.2, V4.5, V14.3, V19.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.6.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.6.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.6.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V4.2, V4.5, V14.3, V19.3, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.6.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.6.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.6.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.6.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about the impact of social media, celebrities, and influencers on cultural trends; digital communication and interpersonal relationships; folklore and myths as cultural heritage in English by using target vocabulary.

Activity 1: Cultural Connections

In this activity, students will work in small groups and each group will discuss one of the following topics: the impact of social media, celebrities, and influencers on cultural trends; digital communication and its effects on relationships; or folklore and myths as cultural heritage. During the discussion, students are encouraged to use the target vocabulary and explore questions such as: "How do influencers create trends? How does digital communication affect real-life relationships? What role does Netiquette play in online communication? How do myths and folklore shape the cultural identity of a community?". After the discussion, each group

2899832574 - 2899832574 - 2899832574

prepares a brief summary of their ideas to present to the class. The teacher gives constructive and supportive feedback on the use of language. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about the impact of social media, celebrities, and influencers on cultural trends in English by using target vocabulary.

Activity 1: Complete the Vision: City Life in 2030

Students read a paragraph and categorise target vocabulary into three themes: Social Media and Trends, Digital Communication, or Cultural Heritage. Then students make their own sentences with these target vocabulary words; they read their sentences aloud, then the teacher gives constructive and supportive feedback on the use of language, accuracy and creativity. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 7: LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: Renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature

This theme is centred on the concept of "life in nature and global problems" and covers the sub-themes of "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.7.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.7.L2. Students can bring together the information in the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature"..

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

EENG.11.7.L3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

2899832374-2899832374-2899832374-2899832

ENG.11.7.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.7.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.7.R1. Students can prepare for reading the content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 - 28998237 - 28998237 - 28998237

ENG.11.7.R2. Students can bring information together about the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.7.R3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.7.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.7.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

9983237 4 - 2899832374 - 2899832374 - 2899832

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.7.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983237 4 - 28998323 74 - 28998323

ENG.11.7.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.7.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.11.7.W3. Students can construct new written content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.7.W4. Students can practise producing written content based on the current theme "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.11.7.W5. Students can engage in the process of writing related to the content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.11.7.W6. Students can reconstruct their writing about the current theme on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.11.7.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.7.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.7.S2. Students can analyse and understand the model content related to "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.7.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

9983274 - 2899832374 - 2899832374 - 2899832374

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.7.S4. Students can construct meaningful spoken content about "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.7.S5. Students can reconstruct the information about "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.7.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

2899832374 - 2899832374 - 2899832374

CONTENT FRAME

LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: "Renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for renewable energy in reducing the environmental damage: Nouns: Solar/ wind/hydropower/ geothermal/biomass/tidal energy, emission, a reduction, greenhouse, efficiency, a dam, a tide, transition, expense, a switch, deforestation. Verbs: To generate, to convert, to shift, to absorb, to release, to fuel. Phrases: Solar panels, biodiversity friendly. Adjectives: Sustainable, significant, abundant, affordable, conscious. Adverbs: Relatively, significantly.

Vocabulary for sustainable agriculture and farming for the future of the world: Nouns: Soil, fertility, a crop, a root, biodiversity, a nutrient, an ecosystem, a variation, wheat, compost. Verbs: To enrich, to conserve, to irrigate. Adjectives: Ecological, fertile, temporary. Adverbs: Consistently, widely. Phrases: Genetically modified, cost-effective.

Vocabulary for local knowledge for nature: Nouns: A mineral, norm, wisdom, a landscape, medication, herb, species, a stream, a therapy. Verbs: To regard, to remark, to heal, to attempt. Phrases: Herbal medicine. Adjectives: Entire, former, steep, tropical. Adverbs: Fundamentally, deliberately, somewhat.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Modals in the Past: Can, Can't have done, Must have done, Need, Needn't have, Should have done: (Renewable energy sources can have significantly reduced environmental damage).

-Reported Speech: Modals in the Past for Reporting in Daily Speech: (The experts mentioned that countries must have taken more precautions to reduce emissions).

-Revision of Defining and Non-Defining Relative Clauses (with which, that, where, when, etc): (The hotel where we stayed was very close to the ocean).

Functions of the Grammatical Structures in Use:

-Use of Modals in the Past: Can, Can't have done, Must have done, Need, Needn't have, Should have done: Expressing past possibilities, obligations, and regrets.

-Use of Reported Speech: Modals in the Past for Reporting in Daily Speech: Reporting past ability, suggestion, obligation or assumption.

-Use of Defining and Non-Defining Sentences: Providing essential information to identify nouns.

Target Social Language Expressions in Use:

There's no Planet B!
Think globally, act locally!
After the storm comes the calm!

Nature always finds a way!
Be part of the solution, not the pollution!

Target Phonological Sounds in Use:

Vowel: u
Consonants: q, r, s, t
Vowel: u: (/juː/, /ʌ/, /juː/, silent /u/)
Consonants: q: (/kjuː/, /k/); r: (/ɑː/(Br), silent /r/ (Br), /aɹ/ (AmE), /ɹ/ (AmE), silent /r/ (Br)); s: (/s/, /ɛs/, /z/, silent /s/); t : (/tiː/, /t/, silent /t/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 11 of upper secondary school may know what "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Renewable energy, environmental damage, reducing environmental damage, renewable energy in reducing environmental damage, sustainable agriculture, sustainable farming, future of the world, local knowledge, nature.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will design and present a project which focuses on energy consumption. First, they will take photos of their rooms, houses, classrooms, shops or streets, etc. and then decide the problems that cause energy consumption. Then, they will find solutions to these problems and prepare a booklet about it. The booklets might include visuals, graphs, videos, etc. After presenting the booklets of the projects in the classroom, they will share the results with their classmates and prepare a solutions booklet for sustainable energy as a class. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in nature and global problems with its components such as renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.
As they are students in after prep year 11 of upper secondary school, they are expected to know some basic vocabulary about "life in nature and global problems" and also some necessary structures in English from the

previousthemesand/oryears.Thesegrammaritemsandvocabularyarerevisedduringthe"RevisionProgramme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 11 of upper secondary school are ready to learn the concept of "life in nature and global problems with its components such as renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in nature and global problems with renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature' by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to

build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.7.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in nature and global problems", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in nature and global problems" to prepare themselves to work on guessing the topic of the current theme, "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature **(V5.2, V5.3, V13.4, V16.2, V18.3, LS1, LS5, LS8).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.7.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V5.2, V5.3, V13.4, V16.2, V18.3, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/ theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.11.7.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the

5998323574 - 28998323574 - 28998323574

theme holistically **(D3.1, V5.2, V5.3, V13.4, V16.2, V18.3, LS2, LS4, LS5, LS8).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature are on the target vocabulary list of the current theme as clues to the components of the current theme **(D3.7, V5.2, V5.3, V13.4, V16.2, V18.3, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.7.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2,**

LS4, CS2.8). The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.11.7.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection

and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.7.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary

related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, LS8, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to

the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.7.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make

a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.7.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.11.7.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature **(D3.6, V5.2, V5.3,**

V13.4, V16.2, V18.3, LS2, LS5, CS2.7). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.7.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V5.2, V5.3, V13.4, V16.2, V18.3, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.7.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.11.7.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.7.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how

the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.11.7.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.7.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V5.2, V5.3, V13.4, V16.2, V18.3, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.7.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.7.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature through their writing tasks **(V5.2, V5.3, V13.4, V16.2, V18.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

2899832374 - 2899832374 - 2899832374

ENG.11.7.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.7.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.7.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V5.2, V5.3, V13.4, V16.2, V18.3, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.7.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.7.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.7.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature" **(V4.5, LS5, LS8, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.7.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about renewable energy in reducing the environmental damage; sustainable agriculture and farming for the future of the world; local knowledge and nature in English by using the target vocabulary.

Activity 1: Environmental Statement

In this activity, students play different roles such as an environmental expert, government official, renewable energy company representative, local farmer, or corporate industry representative. They respond to a situation where the government wants to use more renewable energy, reduce deforestation, and promote sustainable farming. Each student writes a short statement that supports their role by using target vocabulary and target grammar they have learnt in the theme. For example, the environmental expert might say; renewable energy must have been used earlier. After writing, students share their statements with the class, and everyone discusses the different opinions. This activity helps students practice speaking, writing, and critical thinking. The teacher gives feedback on the use of target vocabulary and target grammar. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about renewable energy and sustainable agriculture and farming for the future of the world in English by using target vocabulary.

Activity 1: Energy and Nature

In this activity, students work in pairs and use vocabulary cards with the target words such as "solar energy", "soil", "biodiversity", "sustainable", "farming", and "energy". The teacher asks basic questions such as "Why is solar energy important?" and "How can we protect nature when farming?" Students answer these questions by using short sentences, for example, "Solar energy protects nature" or "We should protect the soil". The teacher gives feedback by helping students use the correct target vocabulary and grammar. For reinforcement, students may play a vocabulary challenge game at home. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 11 (AFTER PREP)-LEVEL: B2.3

THEME 8: LIFE IN THE UNIVERSE & THE FUTURE

Sub-themes: Predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations

This theme is centred on the concept of "life in the universe and the future" and covers the sub-themes of "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. After Prep-Year 11 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.11.8.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.11.8.L2. Students can bring together the information in the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.11.8.L3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.11.8.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.11.8.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.11.8.R1. Students can prepare for reading the content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.11.8.R2. Students can bring information together about the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.11.8.R3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.11.8.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.11.8.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

9983237 4 - 2899832374 - 2899832374 - 2899832

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.11.8.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

899832374 - 2899832374 - 2899832374 - 2899832374

ENG.11.8.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.11.8.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.11.8.W3. Students can construct new written content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.11.8.W4. Students can practise producing written content based on the current theme "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.11.8.W5. Students can engage in the process of writing related to the content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.11.8.W6. Students can reconstruct their writing about the current theme on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.11.8.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.11.8.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.11.8.S2. Students can analyse and understand the model content related to "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.11.8.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.11.8.S4. Students can construct meaningful spoken content about "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.11.8.S5. Students can reconstruct the information about "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.11.8.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

9983274 - 28998327

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE UNIVERSE & THE FUTURE

Sub-themes: "Predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for predictions about technology and advancement in the next century: Nouns: A sequence, globalisation. Verbs: To arise, to dominate, to estimate, to figure, to power, to project, to handle, to bill. Adjectives: Probable, promising, chief, forward, unexpected. Adverbs: Constantly, furthermore. Conjunctions: Yet.

Vocabulary for robots today and the future with robots: Nouns: A component, a phase, automation, a revolution, a companion, a construction, a surgery. Verbs: To command, to concern, to function, to obey, to operate, to recruit, to speed, to assist, to invade. Adjectives: Additional, numerous, industrial, automatic. Adverbs: Apparently, commonly.Prepositions: Via.

Vocabulary for space as a source of inspiration for future generations: Nouns: An existence, a finding, an instance, a perspective, a phenomenon, worth, an investor. Verbs: To encounter, to seek, to sense, to step, to transfer, to navigate, to innovate. Adjectives: Crucial, external, astonishing, vast, mysterious, pioneering. Adverbs: Beyond, deeply.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Conditional Type 3: (If they had started the project on time, they would have completed it before the deadline).

-Mixed Conditionals: (If I were you, I wouldn't have used that car).

- "Wish": (He wishes he had attended the space exploration seminar to understand future opportunities better).

- "If only" (Present Wishes-Past Regrets, Complaints): (If only I knew the situation but I don't know (Present Wish). If only I had explained it to you yesterday but I didn't (Past Regret) If only they would talk to me but they don't (Complaint).

- "Would Rather: (Base form of Verb and Past (for others): (I'd rather leave). (I'd rather you left).

- "It's Time" (To Infinitive and Past): (It's time to start the meeting). (It's time they started the meeting).

Functions of the Grammatical Structures in Use:

-Use of Conditional Type 3: Expressing hypothetical situations that did not happen in the past.

-Use of Mixed Conditionals: Describing unreal situations in which condition and the result are in different times.

5989832374 - 2899832374 - 2899832374 - 2899832374

-Use of Wish Clauses: Expressing wishes or regrets about past experiences.
-Use of "If only": Expressing wishes for the present and regrets for the past. It is more dramatic than "wish".
-Use of "Would rather + Past Tense": Describing preferences between two or more options for present and future (not for the past).
-Use of "It's time": Expressing that something should happen at present or it is already late (overdue) at present (not the past)

Target Social Language Expressions in Use:

The sky is not the limit—it's just the beginning!
The future is now!
Shoot for the stars.
Only time will tell!
The future is just around the corner!

Target Phonological Sounds in Use:

Consonants: v, w, x, y, z

Consonants: v: (/vi:/, /v/); w: (/w/), silent /w/); x: (/ɛks/, /ks/, /gz/); y: (/waɪ/, /j/, /ɪ/, /i:/); z: /(zed/ (Br), /zi:/ (AmE), /z/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the universe and the future with its components such as predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 11 of upper secondary school may know what "life in the universe and the future with its components such as predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Predictions, technology, technological advancement, predictions about technology, predictions about advancement in the next century, robots, robots today, future with robots, space, inspiration, space as a source of inspiration, space as a source of inspiration for future generations.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will explore the current theme by imagining three major technological advancements, such as artificial intelligence, global internet connection, and renewable energy. They will create a short video discussing how these technologies could change the world by underlining both the benefits and challenges. They will also offer a conceptual model of a futuristic technology that addresses a global challenge on Earth and possibly in space. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the universe and the future with its components such as predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" and it is assumed that it could be present in almost

9983237A - 2899832374 - 2899832374 - 2899832

all languages, with some exceptions. It is assumed that a student in after prep year 11 of upper secondary school may know what predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 11 of upper secondary school, they are expected to know some basic vocabulary about "universal universe and the future" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in the after prep year 11 of an upper secondary school are ready to learn the concept of "life in the universe and the future with its components such as predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the universe and the future with predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

2899832374 - 2899832374 - 2899832374

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.11.8.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the universe and the future", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the universe and the future" to prepare themselves to work on guessing the topic of the current theme, "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" " **(V3.3, V11.1, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.11.8.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V3.3, V11.1, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/

theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.11.8.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V3.3, V11.1, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V3.3, V11.1, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the

introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.11.8.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.11.8.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct

pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.11.8.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text **((D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the

teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.11.8.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can

notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.8.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading,

while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.11.8.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations **(D3.6, V3.3, V11.1, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.11.8.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20).** After this stage, they work on activities to connect their knowledge and skills they have acquired about "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.3, V3.4, V11.1, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.11.8.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

5998323 74 - 28998323 74 - 28998323

ENG.11.8.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.11.8.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.11.8.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.11.8.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.3, V11.1, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.11.8.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in

5998325374 - 2899832574 - 2899832574

fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.11.8.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations through their writing tasks **(V3.3, V11.1, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.8.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.11.8.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.11.8.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V11.1, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.11.8.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.11.8.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.11.8.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "predictions about technology and advancement in the next century; robots today and the future with robots; space as a source of inspiration for future generations" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.11.8.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To express their opinions about predictions about technology and advancement in the next century; robots today and in the future in English by using target vocabulary and target grammar.

Activity 1: Technology and Robots

In this activity, students engage in a debate about the future impact of technology and robots on society. The class is divided into two groups: one group argues that technology and robots have a positive impact, while the other students argue that they bring challenges and risks. Each group prepares predictions about the future by making logical arguments with future-related language such as "likely, probable, and life-changing". They also use the target grammar in their statements. For example, "If robots had been used in healthcare

earlier, many lives would have been saved" or "I wish we had focused on automation earlier". After the preparation, each group presents their arguments. Finally, the teacher gives feedback on the use of target pronunciation, grammar, and vocabulary. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about predictions about technology and advancement in the next century in English by using target vocabulary and target grammar.

Activity 1: Future Predictionse

The teacher reviews the target vocabulary by using flashcards. S/he shows the flashcards one by one and asks students to repeat the word aloud and explain its meaning or use it in a sentence. After the flashcard activity, students work in small groups, and s/he asks them to produce a prediction about the future by using at least three of the target vocabulary words. Then, students practice by forming sentences such as: "If they _____ (start) the project earlier, they _____ (complete) it on time". "She wishes she _____ (attend) the seminar on space exploration last year". Later, they read the sentences aloud, and the teacher listens and gives feedback on pronunciation and sentence correctness. Students reflect on their thoughts and feelings about the activity.

AFTER PREP-YEAR 12

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 1: SCHOOL LIFE & EDUCATION

Sub-themes: Challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations

This theme is centred on the concept of "school life and education" and covers the sub themes of "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use

After Prep-Year 12 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.1.L1.Students can prepare and get ready for listening (to)/watching about the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.1.L2. Students can bring together the information in the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.1.L3. Students can make sense of and derive meaning from the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.12.1.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.1.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.1.R1. Students can prepare for reading the content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983274 - 2899832374 - 2899832374 - 2899832374

ENG.12.1.R2. Students can bring information together about the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.12.1.R3. Students can make sense of and derive meaning from the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.1.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.1.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

9983274 - 289983274 - 289983274 - 289983274

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.1.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

2899832374 - 2899832374 - 2899832374

ENG.12.1.W1. Students can prepare for writing efficiently and accurately based on the current content about "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.1.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.12.1.W3. Students can construct new written content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.1.W4. Students can practise producing written content based on the current theme "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983274 - 2899832374 - 2899832374 - 2899832

ENG.12.1.W5. Students can engage in the process of writing related to the content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.1.W6. Students can reconstruct their writing about the current theme on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.12.1.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.12.1.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.1.S2. Students can analyse and understand the model content related to "School life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.1.S3. Students can produce meaningful and accurate spoken content related to the current theme on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.1.S4. Students can construct meaningful spoken content about "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.1.S5. Students can reconstruct the information about "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.1.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

SCHOOL LIFE AND EDUCATION

Sub-themes: "Challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations"

9983237 4 - 28998323 74 - 28998323

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for challenges to be successful: Nouns: An aspiration, a norm, a demand, a workaholic, a rival, an outcome, a burden, tension, promotion, a perception, a breakdown, an attendance. Verbs: To dedicate, to exceed, to prioritise, to sacrifice, to handle, to fulfil, to overload, to desire, to criticise, to absorb, to tackle, to cope. Adjectives: Ambitious, challenging, overwhelmed, demanding, diligent, compelled, harsh, consuming. Adverbs: Consistently, reasonably, accurately, constantly, strictly.

Vocabulary for graduation from school: Nouns: A bachelor's/master's/doctorate degree, a diploma, a farewell, a ceremony, a reception, a cap, a milestone, an admission, a curriculum, honour, a registration. Verbs: To conclude, to gather, to apply, to implement. Adjectives: Proud, joyful, significant, memorable, moving.

Vocabulary for future plans after school: Nouns: A prospect, an internship, a scholarship, an application, a resume, a path, an option, employment, a portfolio, entrepreneurship, an institution, a workplace, a probability, expertise, an asset, a placement. Verbs: To chase, to embrace, to explore, to establish, to pursue, to launch, to specialize, to proceed, to reckon, to recruit. Phrases: A higher education, a gap year, vocational training, to set goals. Adjectives: Optimistic, pessimistic, essential, inspiring, diverse, innovative, principal, probable. Adverbs: Subsequently, consequently, potentially.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Revision of the Mixed (the Present and Perfect) Tenses: The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, the Present Perfect Progressive Tense: (She has worked at the company for five years. She is starting her new position next week. I always eat dinner at 7:00 in the morning. I am meeting my friends at 8:00 pm).

-Passive Voice for/in Present Tenses for Daily Speech, Formal Situations and Written Correspondence: (The projects are completed on time by our team. Registration forms are applied at the reception).

-Linkers/Connectives of Contrast, Reason, Addition, Purpose, Result, Giving Examples) (However, nevertheless, because of, in spite of, and, so as to, thus, so, such as, etc.): (She was not able to go to school because of the weather conditions).

Functions of the Grammatical Structures in Use:

-Use of Revision of Mixed (the Present and the Future) Tenses: The Simple Present Tense, the Present Progressive Tense, the Present Perfect Tense, the Present Perfect Progressive Tense: Describing actions about daily routines, ongoing activities, past experiences with current relevance, and future events or plans for revision.

-Use of Passive Voice of the Present Tenses for Daily Speech, Formal Situations and Written Correspondence: Describing actions and events where the doer is not emphasised, focusing instead on the outcome or the object of the action in a more polite and objective way.

-Use of Linkers/Connectives of Contrast, Reason, Addition, Purpose, Result, Giving Examples) (However, nevertheless, because of, in spite of, and, so as to, thus, so, such as, etc.): Connecting ideas and showing relationships.

5983237 - 28983237 - 28983237

Target Social Language Expressions in Use

Knowledge is power!
Let's set some goals for the term!
Let's see what awaits us after graduation!
Don't put all your eggs in one basket!

Target Phonological Sounds in Use:

-Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "school life and education with its components such as challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "school life and education with its components such as challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Challange, challenges to be successful (success), graduation, graduation from school, future plans, future plans after school, national days, national celebrations.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will think about their future plans by creating a "Future Wall" in the classroom. Each student will make a poster that includes visuals, words, and short phrases about their goals. The poster should show things like higher education plans, internships, scholarships, and job applications. They will write a few sentences explaining why they chose their future path and what their goals mean to them. All the posters will be placed together on the designated "Future Wall" to allow the class to see different dreams and ambitions. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "school life and education with its components such as challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 12 of upper secondary school may know what challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 12 of upper secondary school, they are expected to know some basic vocabulary about "school life and education" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at

99832374 - 28998323

the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school, are ready to learn the concept of "school life and education with its components such as challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" cognitively, affectively, and socially since it is appropriate to their age and language level. Their knowledge of the days of the week and holidays will help them learn and practise important national holidays such as "the Republic Day of Türkiye". Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "school life and education with challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the

theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.1.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "school life and education", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "school life and education" to prepare themselves to work on guessing the topic of the current theme, "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" **(V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.1.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.1.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS2, LS4, LS5).**

9983237 4 - 2899832374 - 2899832374 - 2899832

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.1.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the

whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.12.1.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or

improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.1.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations **(D3.7, D3.2, D3.6, V3.4, V19.1, V19.2, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, V19.1, V19.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first

2899832374 - 2899832374 - 2899832374

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, V19.1, V19.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning

can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, V19.1, V19.2, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.1.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use

of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.1.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.1.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations **(D3.6, V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the

headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.1.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, V19.1, V19.2, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.1.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.1.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, V19.1, V19.2, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.1.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have

gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations in their later free writing tasks **(D3.6, SELS1.2, V3.2, V19.1, V19.2, LS1).**

ENG.12.1.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.1.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.12.1.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.12.1.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations through their writing tasks **(V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.1.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them

individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.1.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.1.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.1, V12.1, V12.2, V14.3, V19.1, V19.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.1.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.1.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.1.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "challenges to be successful (to succeed); graduation from school; future plans after school; national days and celebrations" **(V4.5, V19.1, V19.2, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively

used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.1.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To talk about their future plans after school through a role-play activity by using target vocabulary and target language items.

Activity 1: Whose future-being?

The teacher explains that students will work in small groups to discuss their future plans after school. Each group member is assigned a role-play scenario, such as:

- "You are an 18-year-old who graduated from high school two months ago. You have decided to take a gap year before starting university. What are your future plans?".
- "You are a 20-year-old studying computer science at a prestigious university in your country. You would like to become a software engineer and work for a renowned company. You are excited about your career path and are actively searching for internships to gain experience".

Each group member presents their future plans and shares their thoughts with the group. After that, the teacher selects a group member and asks the others, "What are his/her future plans?" prompting them to respond. The teacher then provides feedback on the correct use of the target language, creativity, and accuracy. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about their future plans after school through a completing activity by using target vocabulary and target language items.

Activity 1: Write and speak about future plans!

The teacher provides students with a worksheet featuring a scenario, such as "You are 18 years old and graduated from high school last month. You don't plan to attend university next year. What are your future plans?". The worksheet also includes a sentence template to guide their responses, such as "I have just _____ from high school, and I need a _____ year. After my gap year, I plan to _____. I am considering _____ as an alternative to attending university". Students work in pairs to complete the sentences and discuss their future plans based on the given scenario. Once they finish, they take turns reading their sentences aloud to practice pronunciation. Then students create their own responses independently and share them with their group members. The teacher provides constructive and encouraging feedback on their language use and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 2: CLASSROOM LIFE & LEARNING

Sub-themes: Digital and collaborative projects; student-led class activities; academic skills for learning

This theme is centred on the concept of "classroom life and learning" and covers the sub-themes of "digital and collaborative projects; student-led class activities; academic skills for learning". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English effectively in their daily lives, both within and beyond the school environment.

9983237 4 - 2899832374 - 2899832374 - 2899832374

After Prep-Year 12 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.2.L1.Students can prepare and get ready for listening (to)/watching about the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.2.L2. Students can bring together the information in the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.2.L3. Students can make sense of and derive meaning from the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.12.2.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.2.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.2.R1. Students can prepare for reading the content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983274 - 2899832374 - 2899832374 - 2899832374

ENG.12.2.R2. Students can bring information together about the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.12.2.R3. Students can make sense of and derive meaning from the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.2.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.2.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

2899832374 - 2899832374 - 2899832374 - 2899832

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.2.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983274 - 2899832374 - 2899832374 - 2899832374

ENG.12.2.W1. Students can prepare for writing efficiently and accurately based on the current content about "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.2.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.12.2.W3. Students can construct new written content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.2.W4. Students can practise producing written content based on the current theme "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983274 - 2899832374 - 2899832374 - 2899832

ENG.12.2.W5. Students can engage in the process of writing related to the content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.2.W6. Students can reconstruct their writing about the current theme on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.12.2.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.12.2.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.2.S2. Students can analyse and understand the model content related to "Classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.2.S3. Students can produce meaningful and accurate spoken content related to the current theme on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.2.S4. Students can construct meaningful spoken content about "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.2.S5. Students can reconstruct the information about "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.2.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

CLASSROOM LIFE & LEARNING

Sub-themes: "Digital and collaborative projects; student-led class activities; academic skills for learning"

9983237 4 - 2899323 74 - 2899323 74 - 2899323

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for academic skills for learning: Nouns: A draft, an outline, a passage, feedback, determination, imagination. Verbs: To interpret, to calculate, to cite. Adjectives: Comprehensive, literary, logical, curious, enthusiastic, flexible.
Vocabulary for digital and collaborative projects: Nouns: A file, a document, a timeline, a deadline, a consensus, a resolution, a forum, a database. Verbs: To collaborate, to store, to share, to brainstorm, to submit, to assign, to generate, to distribute, to exchange, to measure, to reinforce, to negotiate, to integrate. Adjectives: Rewarding, efficient, cooperative, accountable, instant, sophisticated, innovative. Adverbs: Considerably, remarkably.
Vocabulary for student-led class activities: Nouns: A participant, a debate, a reflection, a presentation, a concept, a topic, a workshop, a viewpoint, a framework, interaction, a pursuit. Verbs: To participate, to display, to take turns, to facilitate, to propose, to contribute, to assure, to strengthen, to undertake, to derive, to interact, to coordinate.
Adjectives: Opposing, enriching, mutual, respectful, progressive, comprehensive.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Revision of the Mixed (Past) Tenses: (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense) :(By the end of the class, they had strengthened their mutual understanding through comprehensive discussions. The participants were brainstorming solutions when the teacher assigned new tasks).
-Passive Voice of the Past Tenses for Daily Speech, Formal Situations and Written Correspondence: (The debate was facilitated by the students).
-Causatives (Past) (had + object + base verb) (have something done) (make/made, get/got, let/let, help/helped) + base form or past participle: (The headmaster had the teachers do the meeting. The teacher helped the students finish the project. The teacher got the project finished).

Functions of the Grammatical Structures in Use:

-Use of Revision of the Mixed (Past) Tenses: (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): Revising mixed past events or action in different contexts.
-Use of Passive Voice of the Past Tenses for Daily Speech, Formal Situations and Written Correspondence: Describing past events when the focus is on the action or the object of the action, rather than the person performing the action.
-Use of Causatives (Past) (had + object + base verb) (have something done) (made, got, let, helped) + base form or past participle: Expressing that someone causes another person to do something rather than doing the work themselves.

Target Social Language Expressions in Use:

Two heads are better than one!
A stitch in time saves nine!
Can we go over that problem again?
That's a brilliant idea-let's build the project on it!

Target Phonological Sounds in Use:

-Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "classroom life and learning with its components such as digital and collaborative projects; student-led class activities; academic skills for learning" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "classroom life and learning with its components such as digital and collaborative projects; student-led class activities; academic skills for learning" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Projects, digital projects, collaborative projects, activities, student-led activities, skills, learning, academic skills, academic skills for learning.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will work in groups to design a classroom digital magazine. The magazine will include different sections contributed by each group, such as interviews, photos, research articles, and personal reflections about learning experiences. Each group will use tools like shared documents, databases, timelines, and online platforms to brainstorm ideas, work together, and organise their content. They will need to plan, research, and meet deadlines as a team, confirming that each part of the magazine is well organised and relevant. Through this project, they will practice important teamwork skills, such as sharing files, cooperating with classmates, exchanging ideas, and working together to make group decisions. In the end, each group will present their section of the magazine to the class, highlighting the work they succeeded in it together. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "classroom life and learning with its components such as digital and collaborative projects; student-led class activities; academic skills for learning" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student after prep year 12 of an upper secondary school may know what digital and collaborative projects; student-led class activities; academic skills for learning mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.
As they are students in after prep year 12 of upper secondary school, they are expected to know some basic vocabulary about "classroom life and learning" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at

the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school are ready to learn the concept of "classroom life and learning with its components such as digital and collaborative projects; student-led class activities; academic skills for learning" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "classroom life and learning with digital and collaborative projects; student-led class activities; academic skills for learning" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching

practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.2.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "classroom life and learning", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "classroom life and learning" to prepare themselves to work on guessing the topic of the current theme, "digital and collaborative projects; student-led class activities; academic skills for learning" **(V4.2, V4.4, V16.1, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.2.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "digital and collaborative projects; student-led class activities; academic skills for learning" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V4.2, V4.4, V16.1, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/ theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.2.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "digital and collaborative projects; student-led class activities; academic skills for learning" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V4.2, V4.4, V16.1, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn

and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: digital and collaborative projects; student-led class activities; academic skills for learning are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V4.2, V4.4, V16.1, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.2.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.12.2.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological

aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "digital and collaborative projects; student-led class activities; academic skills for learning". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.2.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to

check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: digital and collaborative projects; student-led class activities; academic skills for learning **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "digital and collaborative projects; student-led class activities; academic skills for learning" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The

teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "digital and collaborative projects; student-led class activities; academic skills for learning" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further

practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "digital and collaborative projects; student-led class activities; academic skills for learning" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.2.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section

"1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.2.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.2.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "digital and collaborative projects; student-led class activities; academic skills for learning" **(D3.6, V4.2, V4.4, V16.1, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.2.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session,

they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of digital and collaborative projects; student-led class activities; academic skills for learning mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "digital and collaborative projects; student-led class activities; academic skills for learning" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V4.2, V4.4, V16.1, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.2.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.2.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "digital and collaborative projects; student-led class activities; academic skills for learning" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.2.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students digital and collaborative projects; student-led class activities; academic skills for learning in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.12.2.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language

expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.2.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of digital and collaborative projects; student-led class activities; academic skills for learning for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V4.2, V4.4, V16.1, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.12.2.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.12.2.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students digital and collaborative projects; student-led class activities; academic skills for learning through their writing tasks **(V4.2, V4.4, V16.1, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.2.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.2.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students

practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.2.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "digital and collaborative projects; student-led class activities; academic skills for learning" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V4.2, V4.4, V16.1, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.2.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.2.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.2.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "digital and collaborative projects; student-led class activities; academic skills for learning" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.2.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a

whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To write stories about planned and unplanned actions in English by using the target language and vocabulary items.

Activity 1: Story Writing

The teacher provides students with a prompt: "Describe a significant event in your life (e.g. a trip, a project, or a memorable moment) where things either went as planned or didn't. Explain how the event was managed at that time and what happened afterward". Students write a short story personally by using the target language items. When the stories are completed, students pair up to read and provide constructive feedback on each other's use of the target language and creativity. Volunteers are invited to share their stories with the whole class by explaining how they integrated the target language into their narratives. The teacher suggests corrections where necessary and engages the class with thought-provoking questions such as: "Can you identify parts of your story that illustrate the sequence of past events?". Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To understand and to be familiar with planned and unplanned actions in English by using the target vocabulary that is relevant to academic skills, digital projects, and student-led activities.

Activity 1: Vocabulary Matching

The teacher writes the target vocabulary items on one side of the board and their corresponding definitions or example sentences on the other as arranged in a mixed order. Students work in pairs to match each word with its correct definition or example sentence. After completing the matching activity, students take turns reading aloud each word along with its definition and using it in a sentence that incorporates the target language structures. At the end of the activity, the teacher reviews the answers with the whole class, clarifies any misunderstandings, and provides constructive feedback to enrich students' comprehension and use of the vocabulary. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 3: PERSONAL LIFE & WELL-BEING

Sub-themes: Technology (AI) and its impact on daily life; dealing with burnout and staying motivated

This theme is centred on the concept of "personal life and well-being" and covers the sub-themes of "technology (AI) and its impact on daily life; dealing with burnout and staying motivated". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.3.L1.Students can prepare and get ready for listening (to)/watching about the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.3.L2. Students can bring together the information in the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.3.L3. Students can make sense of and derive meaning from the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.12.3.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

2899832374 - 2899832374 - 2899832374

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.3.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.3.R1. Students can prepare for reading the content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.12.3.R2. Students can bring information together about the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

9983237A-2899832374-2899832374-2899832

ENG.12.3.R3. Students can make sense of and derive meaning from the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.3.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.3.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.3.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.12.3.W1. Students can prepare for writing efficiently and accurately based on the current content about "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.3.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

2899832374 - 2899832374 - 2899832374

ENG.12.3.W3. Students can construct new written content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.3.W4. Students can practise producing written content based on the current theme "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.12.3.W5. Students can engage in the process of writing related to the content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.3.W6. Students can reconstruct their writing about the current theme on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

2899832374 - 2899832374 - 2899832374 - 2899832374

ENG.12.3.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.12.3.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.3.S2. Students can analyse and understand the model content related to "Personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.3.S3. Students can produce meaningful and accurate spoken content related to the current theme on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.3.S4. Students can construct meaningful spoken content about "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

9983274 - 289983274 - 289983274 - 289983

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.3.S5. Students can reconstruct the information about "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.3.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

PERSONAL LIFE & WELL-BEING

Sub-themes: "Technology (AI) and its impact on daily life; dealing with burnout and staying motivated"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for technology (AI) and its impact on daily life: Nouns: An intervention, automation, detection, a pattern, an assistant, assistance, transparency, a function, categorization. Verbs: To anticipate, to operate, to function, to forecast, to tailor, to categorize, to manipulate, to navigate, to mimic. Adjectives: Responsive, capable, transparent, autonomous. Adverbs: Consistently.
Vocabulary for dealing with burnout and staying motivated: Nouns: Perspective, mindfulness, burnout, encouragement, stability, challange. Verbs: To concentrate, to handle, to distribute, to encourage, to approach, to overcome. Adjectives: Consistent, encouraging, mindful. Adverbs: Deliberately.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Revision of the Mixed (Future) Tenses (Be Going to Future Tense, the Future Progressive Tense, the Future Perfect Tense, the Future Perfect Progressive Tense): (Artificial intelligence is going to forecast patterns in consumer behaviour soon. By 2030, most industries will have started using AI-powered systems).
-Passive Voice of the Future Tenses for Daily Speech, Formal Situations and Written Correspondence: (Mindfulness exercises will be introduced to employees to enrich their well-being).
-Time Expressions to Express the Future: (Tomorrow, next month, in two weeks, on Friday, this Saturday, at 5 o'clock, soon, later, by Monday, for, until, till, some day, one day, eventually, by next month, as soon as, when, after, once).

Functions of the Grammatical Structures in Use:

-Use of Revision of the Mixed (Future) Tenses (Be Going to Future Tense, the Future Progressive Tense, the Future Perfect Tense, the Future Perfect Progressive Tense): Describing intentions, ongoing actions, completed events, sequential activities, or continuous processes relative to a specific time in future.
-Use of Passive Voice of the Future Tenses for Daily Speech, Formal Situations and Written Correspondence: Describing actions or processes in terms of their outcomes or effects to emphasise what will be done, achieved, or impacted in future contexts.

Target Social Language Expressions in Use:

Every cloud has a silver lining!
A healthy mind is in a healthy body!
I'm finally back on my feet!
Let's talk about what's been bothering you?

Target Phonological Sounds in Use:

-Intonation for positive statements, negative statements, questions, and question tags.

Generalisations/Key Concepts

Generalisations

The target concept of this theme "personal life and well-being with its components such as technology (AI) and its impact on daily life; dealing with burnout and staying motivated" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "personal life and well-being with its components such as technology (AI) and its impact on daily life; dealing with burnout and staying motivated" mean but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Technology (AI), daily life, impact of technology (AI), impact of technology (AI) on daily life, burnout, dealing with burnout, staying motivated.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will design a project titled "Technology and Its Impact on Daily Life", focusing on how technology influences their personal experiences. They will organise a debate panel where each student takes the role of an expert, critic, or neutral observer. Each panel member will prepare

2899832374 - 2899832374 - 2899832374

arguments about different aspects of technology such as supporters: discuss how technology improves productivity, communication, and efficiency; critics: talk about privacy issues, hidden digital patterns, and unreliable information; neutral experts: explain how technology organises data, anticipates needs, and influences decision-making. Through research and discussion, students will analyse, argue, and debate by helping them develop critical thinking and communication skills while reflecting on the advantages and challenges of technology in their lives. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "personal life and well-being with its components such as technology (AI) and its impact on daily life; dealing with burnout and staying motivated" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 12 of upper secondary school may know what technology (AI) and its impact on daily life; dealing with burnout and staying motivated mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.
As they are students in after prep year 12 of upper secondary school of an upper secondary school, they are expected to know some basic vocabulary about "personal life and well-being" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school are ready to learn the concept of "personal life and well-being with its components such as technology (AI) and its impact on daily life; dealing with burnout and staying motivated" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "personal life and well-being with technology (AI) and its impact on daily life; dealing with burnout and staying motivated" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions

and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.3.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "personal life and well-being", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "personal life and well-being" to prepare themselves to work on guessing the topic of the current theme, "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " **(V8.1, V10.1, V11.2, V12.3, V16.1, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.3.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V8.1, V10.1, V11.2, V12.3, V16.1, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking

about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.3.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V8.1, V10.1, V11.2, V12.3, V16.1, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: technology (AI) and its impact on daily life; dealing with burnout and staying motivated are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V8.1, V10.1, V11.2, V12.3, V16.1, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components

contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.3.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.12.3.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "technology (AI) and its impact on daily life; dealing with burnout and staying motivated ". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

2899832374 - 2899832374 - 2899832374

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.3.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: technology (AI) and its impact on daily life; dealing with burnout and staying motivated **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1,**

LS7). They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1,**

V4.2, CS2.19). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.3.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical

structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.3.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various

reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.3.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "technology (AI) and its impact on daily life; dealing with burnout and staying motivated" **(D3.6, V8.1, V10.1, V11.2, V12.3, V16.1, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.3.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of technology (AI) and its impact on daily life; dealing with burnout and staying motivated mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V8.1, V10.1, V11.2, V12.3, V16.1, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.3.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.3.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing

activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.3.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students technology (AI) and its impact on daily life; dealing with burnout and staying motivated in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**ENG.12.3.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.3.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of technology (AI) and its impact on daily life; dealing with burnout and staying motivated for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V8.1, V10.1, V11.2, V12.3, V16.1, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.12.3.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

9983274 - 2899832

ENG.12.3.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students technology (AI) and its impact on daily life; dealing with burnout and staying motivated through their writing tasks **(V8.1, V10.1, V11.2, V12.3, V16.1, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.3.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.3.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.3.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V8.1, V10.1, V11.2, V12.3, V16.1, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.3.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking

activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.3.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.3.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "technology (AI) and its impact on daily life; dealing with burnout and staying motivated " **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.3.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To reflect more deeply on the emotional and practical challenges faced by AI assistants and how they manage responsibilities in English.

Activity 1: Journal Writing from the Perspective of an AI Assistant

Students compose a detailed journal entry from the perspective of an AI assistant, addressing both functional and emotional challenges. They use the target vocabulary such as "intervention, accountability, and anticipation" and use verbs such as "to handle, to encourage, and to operate" to enrich their writing. After completing their entries, students form small groups to share their work and discuss the emotional and practical aspects they have addressed. The teacher gives constructive feedback on the use of the target language including grammar, pronunciation, and vocabulary by focussing on both linguistic accuracy and creative expression. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To understand the role of AI assistants in daily interactions with students, teachers, and families while using target vocabulary to describe emotional and functional experiences in English.

Activity 1: Diary Writing from the Perspective of an AI Assistant

Students individually write a journal entry from the perspective of an AI assistant. They begin with a template

that includes sentence starters such as:
Date: _____
Dear Journal,
Today, I helped someone by...
Sometimes, I feel...
My favourite part about being an assistant is...
However, I don't enjoy...
I often handle tasks such as...
My role also involves...
After completing their entries, students work in pairs to share and discuss their writing, focusing on how they used the target vocabulary and reflecting on the role of AI assistant. The teacher provides feedback on the use of the target language including grammar, pronunciation, and vocabulary, by giving suggestions for improvement where needed. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 4: FAMILY LIFE & HOME

Sub-themes: Maintaining relationship with family members; challenges of modern societies for families

This theme is centred on the concept of "family life and home" and covers the sub-themes of "maintaining relationship with family members; challenges of modern societies for families". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

After Prep-Year 12 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.4.L1.Students can prepare and get ready for listening (to)/watching about the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.4.L2. Students can bring together the information in the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.4.L3. Students can make sense of and derive meaning from the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.12.4.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

-2899832374-2899832374-2899832374-2899832

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.4.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "family life and home with maintaining relationship with family members; challenges of modern societies for families" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.4.R1. Students can prepare for reading the content on "family life and home with maintaining relationship with family members; challenges of modern societies for families" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.12.4.R2. Students can bring information together about the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.12.4.R3. Students can make sense of and derive meaning from the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*
b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
d) *Students make meaningful inferences from information in the current content by examining it critically.*
e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.4.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.4.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "family life and home with maintaining relationship with family members; challenges of modern societies for families" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*
b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*
e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

9983237 4 - 289983237 4 - 289983237 4 - 289983237

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.4.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "family life and home with maintaining relationship with family members; challenges of modern societies for families", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.12.4.W1. Students can prepare for writing efficiently and accurately based on the current content about "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.4.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

9983274 - 28998237

ENG.12.4.W3. Students can construct new written content on "family life and home with maintaining relationship with family members; challenges of modern societies for families" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.4.W4. Students can practise producing written content based on the current theme "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.12.4.W5. Students can engage in the process of writing related to the content on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.4.W6. Students can reconstruct their writing about the current theme on "family life and home with maintaining relationship with family members; challenges of modern societies for families" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

9983237A - 2899832374 - 2899832374 - 2899832

ENG.12.4.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.12.4.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.4.S2. Students can analyse and understand the model content related to "Family life and home with maintaining relationship with family members; challenges of modern societies for families" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.4.S3. Students can produce meaningful and accurate spoken content related to the current theme on "family life and home with maintaining relationship with family members; challenges of modern societies for families".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.4.S4. Students can construct meaningful spoken content about "family life and home with maintaining relationship with family members; challenges of modern societies for families" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

9983274 - 289983274 - 289983274 - 289983274

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.4.S5. Students can reconstruct the information about "family life and home with maintaining relationship with family members; challenges of modern societies for families" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.4.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "family life and home with maintaining relationship with family members; challenges of modern societies for families" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

FAMILY LIFE & HOME

Sub-themes: "Maintaining relationship with family members; challenges of modern societies for families"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for maintaining relationship with family members:
Nouns: Harmony, trust, loyalty, commitment, forgiveness, sympathy, transparency, consideration, sincerity, appreciation. Verbs: To bond, to reunite, to appreciate, to forgive, to commit, to forgive. Adjectives: Supportive, respectful, trustworthy, loyal, considerate, sincere. Adverbs: Supportively, sincerely.
Vocabulary for challenges of modern societies for families:
Nouns: Complexity, hardship, isolation, conflict, exhaustion, insecurity, overload. Verbs: To shift (the roles), to diversify, to constraint, to handle, to prompt, to provoke, to reconcile, to encounter.
Adjectives: Exhausted, reluctant. Adverbs: Competitively, rapidly, reluctantly. Phrases:
Technological dependence, internal or external conflicts, financial collapse, lack of resources, global crises.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Background Grammatical Structures in Use:

-Revision of the Mixed (All Present and Perfect) Tenses: (Forgiveness plays a significant role in relationships. I am considering how to be more supportive of my family during tough times. We have encountered many challenges. The family has struggled with financial instability).

***About "Background Grammatical Structures in Use":**

The "Background Grammatical Structures" in this section are not only revisional but also serve as contextual support and contribute to meaning-making. They are intended to be used within the theme to help students grasp the meaning of the language constructed through the use of "Target Grammatical Structures" without being explicitly taught. These structures are not considered "Target Grammatical Structures" themselves rather they function as a part of the facilitation process, supporting both the target forms and the contexts in which they are used. They provide opportunities for learning through revised and scaffolded language.

Target Grammatical Structures in Use:

-Reported Speech of the Present and Perfect Tenses for Daily Speech, Formal Situations and Written Correspondence: (The expert says that trust is the foundation of every relationship. The therapist states that loyalty among people is crucial for cooperation. I am writing to inform you that financial collapse is the main topic of our meeting).

Functions of the Grammatical Structures in Use:

-Use of Reported Speech of the Present and Perfect Tenses for Daily Speech, Formal Situations and Written Correspondence with different Reporting verbs: say, tell, ask, state, report, announce, declare, explain, wonder, suggest, propose, agree, disagree, conclude, etc.: Reporting what someone else has said or shared about present situations, ongoing actions, or recent experiences in a more polite and objective way.
-Use of Revision of the Mixed (All Present and Perfect) Tenses: Describing actions about daily routines, ongoing activities, past experiences with current relevance.

Target Social Language Expressions in Use:

Charity begins at home!
Let's have a family meeting to sort this out!
Films about families hit close to home!
Everybody's here. It's all in the family!

Target Phonological Sounds in Use:

Vowels: a, e
Consonants: b, c, d
Vowels: a: (/ae/, /aeɪ/, /ə/, /a:/, /eɪ/, /a:/, /a/, /ɔ:/, /eə/); e: (/e/; /i:/, /ə/, silent /e/)
Consonant: b: (/b/), silent /b/); c: (/si/, /k/, /tʃ/, /z/, silent /c/); d: (/d/), silent /d/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "family life and home with its components such as maintaining relationship with family members; challenges of modern societies for families" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "family life and home with its components such as maintaining relationship with family members;

9983274-28998323274-2899832374-2899832374

challenges of modern societies for families" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Relationships, family members, maintaining relationships, maintaining relationships with family members, modern societies, challenges, challenges of modern societies, challenges of modern societies for families.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will work on the theme of family life and home by focusing on the sub-themes of maintaining relationships with family members and the challenges that modern societies present for families. They will design a presentation (either as a video, slideshow, or written report) that focuses on the importance of staying connected with family members despite busy lives and geographical distances. In their project, they are asked to discuss some of the challenges families face today and the effects of modern technology on family bonding. They can enrich their projects with personal examples or interviews with family members to illustrate these challenges. Finally, they will propose creative solutions or strategies for overcoming these challenges. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "family life and home with its components such as maintaining relationship with family members; challenges of modern societies for families" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 12 of upper secondary school may know what maintaining relationship with family members; challenges of modern societies for families mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 12 of upper secondary school, they are expected to know some basic vocabulary about "family life and home" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school are ready to learn the concept of "family life and home with its components such as maintaining relationship with family members; challenges of modern societies for families" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

9983274 - 28998327

Establishing Links

Students are asked to recall the concept "family life and home with maintaining relationship with family members; challenges of modern societies for families" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.4.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "family life and home", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "family life and home" to prepare themselves to work on guessing the topic of the current theme, "maintaining relationship with family members; challenges of modern societies for families" **(V2.1, V2.2, V8.3, V15.1, V15.4, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.4.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "maintaining relationship with family members; challenges of modern societies for families" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V2.1, V2.2, V8.3, V15.1, V15.4, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.4.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "maintaining relationship with family members; challenges of modern societies for families" as a whole **(CS2.13),** without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V2.1, V2.2, V8.3, V15.1, V15.4, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: maintaining relationship with family members; challenges of modern societies for families are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V2.1, V2.2, V8.3, V15.1, V15.4, LS5).**

S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.4.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.12.4.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "maintaining relationship with family members; challenges of modern societies for families". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared

beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.4.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: maintaining relationship with family members; challenges of modern societies for families **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions

held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "maintaining relationship with family members; challenges of modern societies for families" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and

parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "maintaining relationship with family members; challenges of modern societies for families" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "maintaining relationship with family members; challenges of modern societies for families" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's

spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.4.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and

ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.4.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.4.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "maintaining relationship with family members; challenges of modern societies for families" **(D3.6, V2.1, V2.2, V8.3, V15.1, V15.4, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.4.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of maintaining relationship with family members; challenges of modern societies for families mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20).** After this stage, they work on activities to connect their knowledge and skills they have acquired about "maintaining relationship with family members; challenges of modern societies for families" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V2.1, V2.2, V8.3, V15.1, V15.4, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their

knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.4.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.4.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "maintaining relationship with family members; challenges of modern societies for families" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.4.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students maintaining relationship with family members; challenges of modern societies for families in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.12.4.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.4.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of maintaining relationship with family members; challenges of modern societies for families for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V2.1, V2.2, V8.3, V15.1, V15.4, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5,**

LS9).

ENG.12.4.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.12.4.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students maintaining relationship with family members: challenges of modern societies for families through their writing tasks **(V2.1, V2.2, V8.3, V15.1, V15.4, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.4.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.4.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.4.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "maintaining relationship with family members; challenges of modern societies for families" in context. At this stage, they try to understand how the language is used in

the target content by examining the speaking model/example carefully **(V2.1, V2.2, V8.3, V15.1, V15.4, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.4.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.4.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.4.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "maintaining relationship with family members; challenges of modern societies for families" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.4.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To analyse family challenges in modern societies and find solutions in English by using critical thinking and the target vocabulary

Activity Name: Fishbone Diagram: Family Challenges and Solutions

Students create a fishbone diagram with the topic "Challenges and Solutions of Modern Societies for Families" at its heading. On the left side, labelled "Challenges", they list issues such as financial instability, isolation,

5998323374 - 2899832374 - 2899832374

and family conflicts. On the right side: "Solutions", they propose practical ideas like holding family meetings, seeking community support, and implementing effective budgeting strategies. When the diagrams are completed, students present their work to the class by explaining their identified challenges and proposed solutions. Following the presentations, the class engages in a reflective discussion, comparing the challenges and solutions shared. They consider questions such as: "Do you experience similar challenges in your family?", and "Which solutions do you think would be most effective in your situation?". Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about maintaining relationships with family members and challenges of modern societies for families in English by using the target vocabulary and language items.

Activity: Family Tree Report

The teacher asks students to design a simple fictional family tree featuring 2–4 members. For each family member, students write two or three sentences by using the target language to describe their relationships and roles within the family. Students then work in pairs to exchange information about their fictional family trees. After the pair work, each student reports to the class about their peer's family using the target language. The teacher provides constructive and encouraging feedback, focusing on the use of language, accuracy and creativity. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 5: LIFE IN THE NEIGHBOURHOOD, CITY & SOCIAL LIFE

Sub-themes: Architecture and design in cities; volunteerism in social communities

This theme is centred on the concept of "life in the neighbourhood, city and social life" and covers the sub-themes of "architecture and design in cities; volunteerism in social communities". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

After Prep-Year 12 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.5.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.5.L2. Students can bring together the information in the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.5.L3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.12.5.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.5.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.5.R1. Students can prepare for reading the content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.12.5.R2. Students can bring information together about the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

9983237 4 - 2899832374 - 2899832374 - 2899832

ENG.12.5.R3. Students can make sense of and derive meaning from the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.5.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.5.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

-2899832374-2899832374-2899832374

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.5.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.12.5.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.5.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

9983274 - 2899832374 - 2899832374 - 2899832

ENG.12.5.W3. Students can construct new written content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.5.W4. Students can practise producing written content based on the current theme "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.12.5.W5. Students can engage in the process of writing related to the content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.5.W6. Students can reconstruct their writing about the current theme on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.12.5.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.12.5.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.5.S2. Students can analyse and understand the model content related to "Life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.5.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.5.S4. Students can construct meaningful spoken content about "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

9983237 4 - 2899832374 - 2899832374 - 2899832

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.5.S5. Students can reconstruct the information about "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.5.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the neighbourhood, city, and social life with architecture and design in cities; volunteerism in social communities" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE NEIGHBOURHOOD, CITY, AND SOCIAL LIFE

Sub-themes: "Architecture and design in cities; volunteerism in social communities"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for architecture and design in cities: Nouns: Concrete, construction, creation, urbanisation. Verbs: To stand out, to construct, to elevate, to refurbish. Adjectives: Interior, exterior, daring, iconic, lively, elegant, unique, outstanding, classic. Adverbs: Constantly, elegantly, boldly.
Vocabulary for volunteerism in social communities: Nouns: A volunteer, a charity, fundraising, an initiative, engagement, empathy. Verbs: To lead, to advocate, to inspire, to mentor, to coordinate, to extend, to engage, to dedicate, to captivate. Adjectives: Non-profit, dedicated, inspirational, passionate, captivating. Adverbs: Diligently.

***National and religious days, festivals and celebrations:**

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

2899832374-2899832374-2899832374

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Reported Speech of the Past Tenses for Daily Speech, Formal Situations and Written Correspondence: (She said that she had joined a charity organisation voluntarily. The charity director stated in the email that their non-profit organisation had raised enough funds for the community centre renovation).

Background Grammatical Structures in Use:

-Revision of the Mixed (Past) Tenses (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): (By the time the charity event started, the volunteers had already set up the venue. The committee had already completed the renovation when the mayor announced the new deadline for the project).

*About "Background Grammatical Structures in Use":

The "Background Grammatical Structures" in this section are not only revisional but also serve as contextual support and contribute to meaning-making. They are intended to be used within the theme to help students grasp the meaning of the language constructed through the use of "Target Grammatical Structures" without being explicitly taught. These structures are not considered "Target Grammatical Structures" themselves rather they function as a part of the facilitation process, supporting both the target forms and the contexts in which they are used. They provide opportunities for learning through revised and scaffolded language.

Functions of the Grammatical Structures in Use:

-Use of Reported Speech of the Past Tenses for Daily Speech, Formal Situations and Written Correspondence: Reporting what someone else has said or shared about past situations, completed actions, or past experiences in a more polite and objective way.
-Use of Revision of the Mixed (Past) Tenses (The Simple Past Tense, the Past Progressive Tense, the Past Perfect Tense, the Past Perfect Progressive Tense): Describing past actions or experiences that occurred at various times in the past.

Target Social Language Expressions in Use:

A friend in need is a friend indeed.
Let's band together for our Community!
I love the vibe of this neighbourhood!
Even a small contribution can make a difference!

Target Phonological Sounds in Use:

Vowels: i: (/aɪ/, /ɪ/, /iː/)
Consonants: f: (/f/); g: (/g/, /dʒ/, silent /g/); h: (/h/), silent /h/); j: (/dʒeɪ/, /dʒ/); k: (/k/, silent /k/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the neighbourhood, city and social life with its components such as architecture and design in cities; volunteerism in social communities" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "life in the neighbourhood, city and social life with its components such as architecture and design in cities; volunteerism in social communities" means, but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge

in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Architecture, design, cities, architecture in cities, design in cities, volunteerism, communities, social communities, volunteerism in social communities.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will organise a charity event to support a local community cause by taking on roles such as planners, coordinators, and participants. Students will begin by identifying a social issue in their neighbourhood such as supporting a food bank or organising a park clean-up. Then, they will create a plan, divide responsibilities, and work together to prepare for the event. Each student will explain the purpose of their initiative in terms of how it helps the community, and how it encourages teamwork, responsibility, and kindness. The event may include activities like donation sales, or community clean-ups. Finally, they will share their experience through a report, photos, or a simple presentation, discussing their roles, challenges, and the impact on their community. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the neighbourhood, city and social life with its components such as architecture and design in cities; volunteerism in social communities" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 12 of upper secondary school may know what architecture and design in cities; volunteerism in social communities mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in after prep year 12 of upper secondary school, they are expected to know some basic vocabulary about "life in the neighbourhood, city and social life" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school are ready to learn the concept of "life in the neighbourhood, city and social life with its components such as architecture and design in cities; volunteerism in social communities" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the neighbourhood, city, and social life with architecture and

design in cities; volunteerism in social communities" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.5.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the neighbourhood, city and social life", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the neighbourhood, city and social life" to prepare themselves to work on guessing the topic of the current theme, "architecture and design in cities; volunteerism in social communities" **(V7.1, V7.3, V16.2, V20.2, V20.4, LS1, LS5, LS9).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.5.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues"

to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "architecture and design in cities; volunteerism in social communities" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V7.1, V7.3, V16.2, V20.2, V20.4, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.5.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "architecture and design in cities; volunteerism in social communities" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V7.1, V7.3, V16.2, V20.2, V20.4, LS2, LS4, LS5, LS9).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/ underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8).** This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: architecture and design in cities; volunteerism in social communities are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V7.1, V7.3, V16.2, V20.2, V20.4, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work

on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.5.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.12.5.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "architecture and design in cities; volunteerism in social communities". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to

-2899832374-2899832374-2899832374-2899832

the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.5.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: architecture and design in cities; volunteerism in social communities **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS9, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole

class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "architecture and design in cities; volunteerism in social communities" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4, LS9).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through

each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "architecture and design in cities; volunteerism in social communities" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, LS9, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "architecture and design in cities; volunteerism in social communities" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas,

thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.5.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and

the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.5.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.5.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "architecture and design in cities; volunteerism in social communities" **(D3.6, V7.1, V7.3, V16.2, V20.2, V20.4, LS2, LS5, LS9, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.5.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of architecture and design in cities; volunteerism in social communities mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "architecture and design in cities; volunteerism in social communities" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V7.1, V7.3, V16.2, V20.2, V20.4, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.5.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.5.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "architecture and design in cities; volunteerism in social communities" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).**This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.5.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students architecture and design in cities; volunteerism in social communities in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.12.5.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.5.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of architecture and design in cities; volunteerism in social communities for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V7.1, V7.3, V16.2, V20.2, V20.4, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.12.5.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with

9983274 - 2899832374 - 2899832

the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.12.5.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students architecture and design in cities; volunteerism in social communities through their writing tasks **(V7.1, V7.3, V16.2, V20.2, V20.4, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.5.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.5.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.5.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "architecture and design in cities; volunteerism in social communities" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V7.1, V7.3, V16.2, V20.2, V20.4, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking

tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.5.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.5.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.5.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "architecture and design in cities; volunteerism in social communities" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.5.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To write an essay on architecture and design in the city in English by using target vocabulary and target grammar.

Activity 1: Writing an Essay

Students work in groups to write an essay comparing two well-known buildings from different time periods in the same city, one historical and one modern. They describe differences in design, materials (such as concrete), and emerging construction methods. The essay includes target vocabulary, such as "to stand out", "to construct", and "to refurbish", along with descriptive terms like "daring", "recognisable", and "captivating", to characterise the buildings. In addition to comparing the structures, students explore the impact of these

buildings on the city and its inhabitants, both internally and externally. This activity not only allows students to practice the target vocabulary but also deepens their understanding of how cities are shaped through architectural advancements. After completing the essays, groups present their work to the class. The teacher provides constructive feedback on accuracy, creativity, and the effective use of target vocabulary, grammar, and pronunciation during the presentations. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To create a poster about their favourite architectural piece in English by using target vocabulary.

Activity 1: Creating a Poster

In this activity, students use architecture and design vocabulary to create a poster about their favourite architectural piece in their city.. They choose a famous building or one from their city and include its name, location, and key features. Students should use target vocabulary, such as "concrete, construction, urbanisation, interior, exterior, iconic, elegant, unique, recognizable, daring, and lively", to describe the building. The poster should include a visual or drawing of the building, accompanied by a brief description that focuses on its design and architectural features and explains why it is their favourite. Then, students present their posters to the class. The teacher provides feedback on the use of the target language including target vocabulary, grammar, and pronunciation and also accuracy and creativity. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 6: LIFE IN THE WORLD & CULTURE

Sub-themes: The influence of technology on cultural habits; the role of education in preserving culture

This theme is centred on the concept of "life in the world and culture" and covers the sub-themes of "the influence of technology on cultural habits; the role of education in preserving culture". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1 Adaptability Skill, SELS3.2 Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

9983237 4 - 2899832374 - 2899832374 - 2899832374

After Prep-Year 12 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.6.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.6.L2. Students can bring together the information in the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.6.L3. Students can make sense of and derive meaning from the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.12.6.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

9983237 4 - 2899832374 - 2899832374 - 2899832

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.6.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.6.R1. Students can prepare for reading the content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.12.6.R2. Students can bring information together about the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.12.6.R3. Students can make sense of and derive meaning from the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.6.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.6.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

-2899832374-2899832374-2899832374-2899832

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.6.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.12.6.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.6.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.12.6.W3. Students can construct new written content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.6.W4. Students can practise producing written content based on the current theme "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.12.6.W5. Students can engage in the process of writing related to the content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.6.W6. Students can reconstruct their writing about the current theme on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

9983237A - 2899832374 - 2899832374 - 2899832

ENG.12.6.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.12.6.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.6.S2. Students can analyse and understand the model content related to "Life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.6.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.6.S4. Students can construct meaningful spoken content about "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

9983274 - 2899832374 - 2899832374 - 2899832374

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.6.S5. Students can reconstruct the information about "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.6.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE WORLD & CULTURE

Sub-themes: "The influence of technology on cultural habits; the role of education in preserving culture"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for the influence of technology on cultural habits: Nouns: An artefact. Verbs: To replace, to reshape, to integrate, to archive, to blend. Adjectives: Accessible, dynamic. Adverbs: Firmly.
Vocabulary for the role of education in preserving culture: Nouns: A commitment, a core, a generation, a heritage. Verbs: To time, to incorporate, to foster, to convey, to facilitate. Adjectives: Crucial, comprehensive, consistent. Adverbs: Thus.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be

age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Background Grammatical Structures in Use:

-Can for Probability: (Artificial intelligence can increase the efficiency of cultural archiving systems).
-Could for Probability: (A sudden increase in the number of views could indicate that a video will go viral).
-May, Might for Probability: (Education reforms may/might have lasting effect).
-Could for Deduction or Speculation: (The fingerprints on the artefact could belong to primitive people native to the area).
-Need for Necessity: (Schools need to encourage young people to value cultural heritage).
-Needn't for Lack of Obligation: (We needn't bring our laptop to the meeting; they will provide all the necessary devices).
-Must vs Have to: (We must archive these cultural artefacts to preserve our cultural heritage. We have to archive these cultural artefacts because the legislation requires it).
-Should for Advice: (We should integrate cultural heritage into the curriculum to provide a deeper understanding among students).
-Must/Can't for Deduction: (Education must be a crucial factor in passing down cultural heritage, as it facilitates consistent learning across generations. This artefact can't be purely handmade because the blending of materials cannot be done without technology).

***About "Background Grammatical Structures in Use":**

The "Background Grammatical Structures" in this section are not only revisional but also serve as contextual support and contribute to meaning-making. They are intended to be used within the theme to help students grasp the meaning of the language constructed through the use of "Target Grammatical Structures" without being explicitly taught. These structures are not considered "Target Grammatical Structures" themselves rather they function as a part of the facilitation process, supporting both the target forms and the contexts in which they are used. They provide opportunities for learning through revised and scaffolded language.

Target Grammatical Structures in Use:

Modals:
-Reported Speech of Modals for Daily Speech, Formal Situations and Written Correspondence: (Experts say that technology can reshape how people interact with each other. They say that we must convey a consistent understanding of cultural values to the next generation).

Functions of the Grammatical Structures in Use:

-Use of Reported Speech of Modals for Daily Speech, Formal Situations and Written Correspondence: Reporting modal verbs in speech and writing.
-Use of Can for Probability: Expressing that something is possible/probable under normal circumstances.
-Use of Could for Probability: Expressing that something is possible but not certain.
-Use of May, Might for Probability: Expressing that something is possible but not certain.
-Use of Could for Deduction or Speculation: Expressing that something is possible or might be true, based on available evidence or logical reasoning.
-Use of Need for Necessity: Expressing necessity.
-Use of Needn't for Lack of Obligation: Expressing lack of obligation.
-Use of Must vs Have to: Discriminating between expressing a strong internal or personal obligation, often with urgency, and expressing an external obligation imposed by rules, laws, or circumstances.
-Use of Should for Giving Advice: Offering suggestions or recommendations.
-Use of Must/Can't for Deduction: Expressing a strong positive or negative deduction based on evidence or reasoning.

Target Social Language Expressions in Use:

İstanbul is truly a melting pot of cultures.
That is a tradition passed down from generation to generation!

2899832374 - 2899832374 - 2899832374

We must keep our culture alive!
Variety is the spice of life.

Target Phonological Sounds in Use:

Vowel: o
Consonants: l, m, n, (ng), p
Vowel: o: (/əʊ/, /ɒ/, /əʊ/)
Consonants: l: (/ɛl/ /l/, silent /l/); m; (/ɛm/,/m/); n: (/ɛn/, /n/, silent /n/); ng: (/ng/); p: (pi://p/, silent /p/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "the influence of technology on cultural habits; the role of education in preserving culture" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "the influence of technology on cultural habits; the role of education in preserving culture" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Technology, cultural habits, influence of technology, influence of technology on cultural habits, education, culture, preserving culture, role of education, role of education in preserving culture.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will complete a project about "Life in the World and Culture" focusing on how technology and education influence cultural habits. They will begin by examining how technology reshapes cultural traditions such as digital entertainment, social interactions, and online trends. Students will create a short video or a series of photos showing examples of technology influencing cultural habits in their own lives or community. Next, they will explore how education helps preserve culture by learning about school events, subjects, and activities that highlight local traditions and history. Each student will contribute a written reflection or a poster explaining how their school experiences convey cultural values and pass down heritage. They can create their posters with Web 2.0 tools and share them in the classroom. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the world and culture with its components such as the influence of technology on cultural habits; the role of education in preserving culture" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 12 of upper secondary school may know what the influence of technology on cultural habits; the role of education in preserving culture mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.
As they are students in after prep year 12 of upper secondary school, they are expected to know some basic vocabulary about "life in the world and culture" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and

grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school are ready to learn the concept of "life in the world and culture with its components such as the influence of technology on cultural habits; the role of education in preserving culture" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the world and culture with the influence of technology on cultural habits; the role of education in preserving culture" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching

practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.6.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the world and culture", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the world and culture" to prepare themselves to work on guessing the topic of the current theme, "the influence of technology on cultural habits; the role of education in preserving culture" **(V15.3, V19.3, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.6.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "the influence of technology on cultural habits; the role of education in preserving culture" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V15.3, V19.3, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/ theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.6.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "the influence of technology on cultural habits; the role of education in preserving culture" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V15.3, V19.3, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn

2899832374 - 2899832374 - 2899832374

and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: the influence of technology on cultural habits; the role of education in preserving culture are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V15.3, V19.3, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.6.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.12.6.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological

aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "the influence of technology on cultural habits; the role of education in preserving culture". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.6.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to

check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: the influence of technology on cultural habits; the role of education in preserving culture **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "the influence of technology on cultural habits; the role of education in preserving culture" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The

teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "the influence of technology on cultural habits; the role of education in preserving culture" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise

the target vocabulary, the teacher can prepare an activity with images/pictures of target "the influence of technology on cultural habits; the role of education in preserving culture" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.6.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section

"1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.6.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.6.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "the influence of technology on cultural habits; the role of education in preserving culture" **(D3.6, V15.3, V19.3, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.6.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session,

they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of the influence of technology on cultural habits; the role of education in preserving culture mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "the influence of technology on cultural habits; the role of education in preserving culture" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V15.3, V19.3, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.6.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.6.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "the influence of technology on cultural habits; the role of education in preserving culture" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.6.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students the influence of technology on cultural habits; the role of education in preserving culture in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.12.6.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language

expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.6.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of the influence of technology on cultural habits; the role of education in preserving culture for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V15.3, V19.3, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.12.6.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.12.6.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students the influence of technology on cultural habits; the role of education in preserving culture through their writing tasks **(V15.3, V19.3, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.6.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.6.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students

practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.6.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "the influence of technology on cultural habits; the role of education in preserving culture" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V15.3, V19.3, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.6.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.6.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.6.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "the influence of technology on cultural habits; the role of education in preserving culture" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.6.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a

whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To discuss the influence of technology on cultural habits through a debate and critical thinking by using target vocabulary and language items.

Activity 1: Digital vs Traditional

The teacher explains that students will debate the influence of technology on cultural habits. S/he divides the students into two groups: one group argues that technology helps preserve culture, while the other group argues that technology harms cultural traditions. After presenting their arguments, each group summarises their key points. The teacher provides constructive and encouraging feedback, focusing on the accuracy, creativity, and cohesion in the use of the target language. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To discuss the influence of technology on cultural habits through a group discussion by using target vocabulary and grammar.

Activity 1: Exploring Technology and Culture: A group discussion

The teacher introduces the activity by explaining that students will discuss how technology influences their cultural habits in small groups. To guide the discussion, the teacher provides sentence starters such as "I think AI ____. In my country, we use technology for ____". "Technology has made cultural heritage more/less ____". Students engage in group discussions, sharing their thoughts and examples. Later, each group presents their ideas to the class. The teacher provides constructive feedback by focusing on language accuracy and creativity in the use of the target language while encouraging further participation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 7: LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: Natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel

This theme is centred on the concept of "life in nature and global problems" and covers the sub-themes of "natural disaster prevention, preparedness and balancing; eco-systems; eco tourism and responsible travel". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression

After Prep-Year 12 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.7.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.7.L2. Students can bring together the information in the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.7.L3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

ENG.12.7.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.7.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.7.R1. Students can prepare for reading the content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

9983274 - 2899832374 - 2899832374 - 2899832

ENG.12.7.R2. Students can bring information together about the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.12.7.R3. Students can make sense of and derive meaning from the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.7.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.7.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

2899832374 - 2899832374 - 2899832374 - 2899832374

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.7.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target 'grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

9983274 - 2899832374 - 2899832374 - 2899832

ENG.12.7.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.7.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.12.7.W3. Students can construct new written content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.7.W4. Students can practise producing written content based on the current theme "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

9983274 - 2899832374 - 2899832374 - 2899832374

ENG.12.7.W5. Students can engage in the process of writing related to the content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.7.W6. Students can reconstruct their writing about the current theme on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.12.7.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.12.7.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.7.S2. Students can analyse and understand the model content related to "Life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.7.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.7.S4. Students can construct meaningful spoken content about "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.7.S5. Students can reconstruct the information about "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.7.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: "Natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel"

9983237A - 28998323

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for natural disaster prevention, preparedness and balancing; eco-systems:
Nouns: A threat, a construction, a defence, a measure, a kit, an aid, a shelter, coordination, biodiversity, a survivor. Verbs: To construct, to alarm, to back, to defend, to strike, to detect, to undergo, to survive. Phrases: Be subject to smt., food chain. Adjectives:
Collaborative, flexible, preventive, destructive, devastating, surrounding. Adverbs: Truly, thoroughly, emotionally.
Vocabulary for eco-tourism and responsible travel: Nouns: A commission, well-being, sensitivity, an impact, a destination, theft. Verbs: To trouble, to urge, to conserve, to host, to minimise, to enhance, to undertake, to oppose. Adjectives: Acceptable, offensive, voluntary, appropriate. Adverbs: Thus, otherwise. Phrases: Leave no trace, waste management.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Modals in the Past: (The evacuation should have been carried out earlier to save more lives).
-Passive Voice of Modals in the Past for Daily Speech, Formal Situations and Written
Correspondence: (More precautions should have been taken to protect the city from natural disasters).
-Reported Speech of Modals in the Past for Daily Speech, Formal Situations and Written
Correspondence: (The experts explained that the aid could have been distributed faster if the roads hadn't been blocked).

Functions of the Grammatical Structures in Use:

-Use of Modals in the Past: Expressing past possibilities, obligations, and regrets.
-Use of Passive Voice of Modals in the Past for Daily Speech, Formal Situations and Written Correspondence: Expressing probability, deduction, speculation, necessity and obligation when the focus is on the action rather than the doer in a more formal or polite way.
-Use of Reported Speech of Modals in the Past for Daily Speech, Formal Situations and Written Correspondence: Reporting past ability, suggestion, obligation or assumption.

Target Social Language Expressions in Use:

Every little bit helps!
Make hay while the sun shines!
You reap what you sow!
Let's organise a clean-up event!

Target Phonological Sounds in Use:

Vowel: u
Consonants: q, r, s, t
Vowel: u: (/juː/, /ʌ/, /juː/, silent /u/)
Consonants: q: (/kjuː/, /k/); r: (/ɑː/(Br), silent /r/ (Br), /aɹ/ (AmE), /ɹ/ (AmE), silent /r/ (Br)); s: (/s/, /ɛs/, /z/,

silent /s/); t : (/ti:/, /t/, silent /t/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Disaster, prevention, preparedness, balancing, disaster prevention, disaster preparedness, disaster balancing, ecosystems, eco-tourism, responsible travel.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will explore the theme of life in nature and global problems with its sub-themes: natural disaster preparedness, balancing ecosystems, eco-tourism, and responsible travel. For this project, students will prepare a video guide that highlights practical tips for preparing for natural disasters, such as creating emergency kits and evacuation plans. They will also explain the importance of preserving ecosystems to reduce the frequency and impact of such disasters. Additionally, they will show the principles of eco-tourism such as promoting responsible travel habits like minimising waste, supporting local communities, and respecting wildlife. Students are also asked to offer actionable solutions for a more sustainable future with nature. Students will present their projects in the classroom. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in nature and global problems with its components such as natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 12 of upper secondary school may know what natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.
As they are students in after prep year 12 of upper secondary school, they are expected to know some basic vocabulary about "life in nature and global problems" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school are ready to learn the concept of "life in nature and global problems with its components such as natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the "life in nature and global problems with natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.
They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to

promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.7.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in nature and global problems", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in nature and global problems" to prepare themselves to work on guessing the topic of the current theme, "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" **(V15.2, V15.3, V13.2, V18.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.7.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V15.2, V15.3, V13.2, V18.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.7.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V15.2, V15.3, V13.2, V18.2, LS2, LS4, LS5, LS8).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn

and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel are on the target vocabulary list of the current theme as clues to the components of the current theme. **(D3.7, V15.2, V15.3, V13.2, V18.2, LS5, LS8).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.7.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

2899832374 - 2899832374 - 2899832374

ENG.12.7.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content on "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5).** They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.7.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of

the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, LS8, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6).** The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what

helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, LS8, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with

technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.7.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule

as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.7.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.7.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel **(D3.6, V15.2, V15.3, V13.2, V18.2, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.7.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V15.2, V15.3, V13.2, V18.2, LS1, LS5, LS6, LS8, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.7.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.7.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.7.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.12.7.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities

2899832574 - 2899832574 - 2899832574

individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.7.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V15.2, V15.3, V13.2, V18.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.12.7.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.12.7.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel through their writing tasks **(V15.2, V15.3, V13.2, V18.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.7.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning

and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.7.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.7.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V15.2, V15.3, V13.2, V18.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.7.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.7.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.7.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "natural disaster prevention, preparedness and balancing; eco-systems; eco-tourism and responsible travel" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for

speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.7.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To discuss and answer questions related to ecotourism recovery, challenges, and the involvement of local communities in English by using the target vocabulary.

Activity 1: Eco-Tourism Recovery

In this activity, students watch a short video about a natural disaster (like an earthquake, tsunami, or hurricane) and how ecotourism helped with recovery. The video explains the actions taken to rebuild ecotourism, the challenges faced, and the role of local communities in the prevention and recovery process. After watching the video, students work in small groups to answer the comprehension questions, such as, "What measures were taken to recover eco-tourism after the disaster? What challenges do eco-tourism destinations face after a natural disaster? What was the role of local communities in recovery?". The groups discuss and answer the questions; the teacher asks each group to share their answers. After each group's answers, the teacher provides feedback on the correct use of the language. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To identify natural disaster prevention, preparedness and balancing; ecosystems; ecotourism in English by using target vocabulary.

Activity 1:

In this activity, students review target vocabulary related to natural disaster prevention, preparedness, balancing ecosystems, ecotourism, and responsible travel using flashcards. The teacher introduces target vocabulary such as "threat", "defence", "construct", "minimise", "aid", "sensitivity", "destination", "impact", and "conserve". Then, the students complete sentences using the correct words from the Word Bank in a fill-in-the-blanks activity. For instance, "People should have taken some precautions to protect themselves from natural disasters". This activity helps students understand the relationship between natural disaster preparedness, ecotourism, and responsible travel. Later, students read the sentences aloud, and the teacher provides feedback on correct use of target vocabulary and pronunciation. Students reflect on their thoughts and feelings about the activity.

UPPER SECONDARY-YEAR 12 (AFTER PREP)-LEVEL: B2.4

THEME 8: LIFE IN THE UNIVERSE & THE FUTURE

Sub-themes: Future myths and legends; future of humanity

This theme is centred on the concept of "life in the universe and the future" and covers the sub-themes of "future myths and legends; future of humanity". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The teaching and learning activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to use English effectively in their daily lives, both within and beyond the school environment.

After Prep-Year 12 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.12.8.L1.Students can prepare and get ready for listening (to)/watching about the current content on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*

b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*

c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*

d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.12.8.L2. Students can bring together the information in the current content on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*

b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.12.8.L3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*

b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*

c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*

d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*

e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*

f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*

g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*

h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.12.8.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on "life in the universe and the future with future myths and legends; future of humanity" in relation to themselves or others, both individually and/or with others.

a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*

2899832374 - 2899832374 - 2899832374 - 2899832

c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.12.8.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about "life in the universe and the future with future myths and legends; future of humanity" to develop holistic and conscious pronunciation skills after recognising them in context.

a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*

b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*

c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*

d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*

e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*

f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.12.8.R1. Students can prepare for reading the content on "life in the universe and the future with future myths and legends; future of humanity" efficiently and effectively.

a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*

b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*

c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.12.8.R2. Students can bring information together about the current content on "life in the universe and the future with future myths and legends; future of humanity" through skimming, scanning and detailed reading.

a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

b) *Students scan the current content by reading it silently and quickly to find key and major components.*

c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*

d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

2899323 74 - 2899323 74 - 2899323 74

ENG.12.8.R3. Students can make sense of and derive meaning from the current content on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students classify significant and necessary elements of the current content in a meaningful way.*

b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*

c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*

d) *Students make meaningful inferences from information in the current content by examining it critically.*

e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.12.8.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on "life in the universe and the future with future myths and legends; future of humanity" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.12.8.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with future myths and legends; future of humanity" after recognising them in context and developing their conscious and inductive vocabulary learning skills.

a) *Students make predictions about the main topic of the current content by identifying "general contextual clues" from the visual, audio, and written preparation materials provided during the "listening/watching for gist" and/or reading for "skimming" sessions.*

b) *Students check the accuracy of the predictions related to the "general contextual clue" by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

d) *Students listen/watch the content carefully and/or read it silently to identify and underline/circle target unknown words.*

e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*

i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*

j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*

9983374 - 2899832374 - 2899832374 - 2899832

k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*

l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.12.8.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about "life in the universe and the future with future myths and legends; future of humanity", after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*

b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*

c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*

d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*

e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*

f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*

g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*

h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.12.8.W1. Students can prepare for writing efficiently and accurately based on the current content about "life in the universe and the future with future myths and legends; future of humanity".

a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.12.8.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.12.8.W3. Students can construct new written content on "life in the universe and the future with future myths and legends; future of humanity" based on their understanding of the model(s) provided.

a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*

b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*

c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*

d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*

e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*

f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.12.8.W4. Students can practise producing written content based on the current theme "life in the universe and the future with future myths and legends; future of humanity".

a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriateness to the age and language level.*

b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.12.8.W5. Students can engage in the process of writing related to the content on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.12.8.W6. Students can reconstruct their writing about the current theme on "life in the universe and the future with future myths and legends; future of humanity" to communicate effectively about it.

a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*

b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.12.8.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on "life in the universe and the future with future myths and legends; future of humanity" in relation to themselves or others, both individually and/or with others.

a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*

b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*

c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

2899832374 - 2899832374 - 2899832374 - 2899832

ENG.12.8.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.12.8.S2. Students can analyse and understand the model content related to "Life in the universe and the future with future myths and legends; future of humanity" to support the production of spoken language.

a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.12.8.S3. Students can produce meaningful and accurate spoken content related to the current theme on "life in the universe and the future with future myths and legends; future of humanity".

a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.12.8.S4. Students can construct meaningful spoken content about "life in the universe and the future with future myths and legends; future of humanity" through efficient and meaningful practice.

a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*

b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*

c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*

d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*

e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.12.8.S5. Students can reconstruct the information about "life in the universe and the future with future myths and legends; future of humanity" when communicating with others.

a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*

9983237 4 - 2899832374 - 2899832374 - 2899832374

b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.12.8.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on "life in the universe and the future with future myths and legends; future of humanity" in relation to themselves or others, both individually and/or with others.

a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*

c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE UNIVERSE & FUTURE

Sub-themes: "Future myths and legends; future of humanity"

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for future myths and legends: Nouns: A folklore, a plot, a figure, a tale. Verbs: To represent, to symbolize, to reflect. Adjectives: Supernatural, heroic, courageous, spiritual.
Vocabulary for future of humanity: Nouns: An assumption, a retirement, a principle, an advancement, a citizen. Verbs: To surround, to target, to elect, to found, to surpass, to collaborate, to investigate. Adjectives: Genuine, progressive, innovative, eco-friendly, digital, adaptive. Adverbs: Hopefully.

*National and religious days, festivals and celebrations:

"29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".
*(Relevant language content and (communicative) activities related to these national and religious days, festivals and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-topics. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table of contents for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Mixed Conditionals: (If you go to the Moon, everything floats in space. If a planet is in orbit, it travels around a star. If we find extraterrestrial life, it will be in a distant galaxy. If you want to explore space, you can be an astronaut. If citizens had collaborated to find solutions on environmental problems, we would be living in a more eco-friendly world today).
-Inversions: (In Conditional 3 and Mixed Conditionals): Had he taken the job in NASA, he would now be working on space missions.

Functions of the Grammatical Structures in Use:

-Use of Mixed Conditionals: Describing past unreal conditionals with present or future results.
-Use of Inversions: (In Conditional 3 and Mixed Conditionals): Expressing formality, emphasis, or stylistic variation by reversing the usual word order in conditional sentences.

Target Social Language Expressions in Use:

Cross that bridge when you come to it!

Tomorrow is another day!
Let's imagine a better world!
We need to look to the future!

Target Phonological Sounds in Use:

Consonants: v, w, x, y, z
Consonants: v: (/viː/, /v/); w: (/w/), silent /w/); x: (/ɛks/, /ks/, /gz/); y: (/waɪ/, /j/, /ɪ/, /iː/); z: /(zed/ (Br), /ziː/ (AmE), /z/)
*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Key Concepts

Generalisations

The target concept of this theme "life in the universe and the future with its components such as future myths and legends; future of humanity" is present in almost all languages. Students who start to learn a new language inevitably bring with them their pre-existing knowledge and transfer it to their new language learning context. For example, a student in year 12 of upper secondary school may know what "life in the universe and the future with its components such as future myths and legends; future of humanity" means but may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case English.

Key Concepts

Myths, legends, future myths, future legends, humanity, future of humanity.

INDICATORS FOR LEARNING (Assessment and Evaluation)

PERFORMANCE ASSIGNMENT: Students will explore the theme "Life in the Universe & the Future" by creating an Intergalactic Travel Brochure. They will imagine destinations like planets, space stations, or galactic landmarks, highlighting unique features, cultural myths, and heroic tales tied to each location. The project will also include designing a conceptual model of a futuristic technology such as sustainable habitats or advanced spacecraft, that addresses challenges like resource scarcity or space travel. They can share it with the class. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/Readiness

This theme includes the concept of "life in the universe and the future with its components such as future myths and legends; future of humanity" and it is assumed that it could be present in almost all languages, with some exceptions. It is assumed that a student in after prep year 12 of upper secondary school may know what future myths and legends; future of humanity mean in their as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.
As they are students in after prep year 12 of upper secondary school, they are expected to know some basic vocabulary about "life in the universe and the future" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

2899832374 - 2899832374 - 2899832374

Pre-Evaluation Process

It is assumed that these students in after prep year 12 of upper secondary school are ready to learn the concept of "life in the universe and the future with its components such as future myths and legends; future of humanity" cognitively, affectively, and socially since it is appropriate to their age and language level. Therefore, a contextual poster or a large picture could be provided for the students to remember and practise the items that they are related and previously learnt so that they can discuss about the poster and/or the picture in pairs and write down what they remember. This session can help them revise all the related vocabulary and grammatical elements that they have already learnt from previous themes or from previous years as a preparatory practice. In this way, their performance can be evaluated in terms of how much they remember and how accurately they use these items to build their competence in the current theme. It can help the teacher decide what to emphasise, revise, and practise in order to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics, a rating scale, and /or a marking scheme during these practices.).

Establishing Links

Students are asked to recall the concept "life in the universe and the future with future myths and legends; future of humanity" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main learning/teaching flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. S/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/box that s/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4).** This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4).** That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic and subtopics, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by

a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG.12.8.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the "establishing links" session for recalling background knowledge about the concept of "life in the universe and the future", where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4).** They remember what they already know about "life in the universe and the future" to prepare themselves to work on guessing the topic of the current theme, "future myths and legends; future of humanity" **(V3.3, V11.1, V11.2, LS1, LS5).** They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the "establishing links" session (**D3.8, V3.3, LS1, LS4).**

ENG.12.8.L2.

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect "general context clues" to understand the whole content by looking at visual clues before listening (to)/watching: The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on "future myths and legends; future of humanity" to identify the topic of the content and to answer the question: "What is the whole content about?" **(D3.6, V3.3, V11.1, V11.2, LS1, LS4, LS5, CS2.2).** They are expected to realise that there might be different elements related to this concept **(D2.1, V4.5).** The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the "listening (to)/watching for gist" strategy before listening/ watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11).** The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2).** S/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. S/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/ theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12).**

ENG.12.8.L3.

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4).** The teacher asks the students to recall the work done with visuals (the scene from a short film) in the "establishing links session" about the current context shown earlier during the listening (to)/watching session **(D3.2, LS2).** Students watch the digital introductory story and consolidate the identification of the target theme "future myths and legends; future of humanity" as a whole (CS2.13), without stopping the video at any point, so that the students can hear/see the context as a whole and understand the theme holistically **(D3.1, V3.3, V11.1, V11.2, LS2, LS4, LS5).**

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. S/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7).** The teacher hands out a sheet to the students on which there is a list of words/phrases,

etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4).** In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4).** Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". After having watched the introductory digital story, the teacher places the headings on the smart board/whiteboard/blackboard: future myths and legends; future of humanity are on the target vocabulary list of the current theme as clues to the components of the current theme**(D3.7, V3.3, V11.1, V11.2, LS5).** S/He places a corresponding picture next to each component and writes the name of each heading. S/he guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2).** Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4).** The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the components of the theme further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/ blackboard or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4).** Then, they say the headings (components) together as a whole class. In this way, the main components of the theme are introduced to the students in English **(LS5).** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4).** This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the double-spread picture the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7).**

ENG.12.8.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the "establishing links" session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4).** As they have already seen a scene from a short film created about the concept of the current theme, during the "establishing links" session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer that the current theme is about and that their guesses were probably correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8).** The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3).**

ENG.12.8.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4).** S/he asks them to pay attention

2899832374 - 2899832374 - 2899832374

to the target pronunciation and/or other phonological aspects in the current content on "future myths and legends; future of humanity". The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4).**

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2).** To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3).** Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4).** Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section "1.2. Principles for the Implementation of the English Language Curriculum" **(D3.2, D3.6, D3.7).**

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection: The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5).** If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2).** During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1).** The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section "1.2. Principles for the Implementation of the English Language Curriculum". The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15).** After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2).**

ENG.12.8.V1.

PREPARATION FOR WORKING ON THE TARGET VOCABULARY: To scan for finding the main components of the theme the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7).** Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of

visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/whiteboard/blackboard in relation to the main components of the theme: future myths and legends; future of humanity **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8).** Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4).** The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever s/he likes **(LS1, LS7, CS2.4, CS2.8).** In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)** Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1).** Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8).**

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2).** One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7).** They are then asked to share these words with their peers without discussing their meanings in the text (**(D2.4, D3.2, SELS2.2, V4.2, V6.2).** The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about "future myths and legends; future of humanity" the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4).** When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. S/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that s/he has already decided on earlier when planning the lesson). S/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4).**

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4).** He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then s/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8).** Then s/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. S/he asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7).** Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/ clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1).** As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the

whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1).** These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION OF TARGET VOCABULARY: To find "sentence clues"/ "the indirect context clues" for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.1, D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3).** These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions, etc. such as "but, and, fearless, quickly, too much, tomorrow, etc." anything that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the "indirect clues" for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17).** When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7).** This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through "sentence clues/indirect context clues", the teacher checks their understanding again by showing them some realia that s/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5).** The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19).** Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (D3.6, LS5, CS2.7, CS3.1). As they have studied the words through the "part/paragraph and sentences clues" in reading the text earlier, the students are expected to choose the correct option when they hear the words for the theme "future myths and legends; future of humanity" and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1).** In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8).** So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section "1.2. Principles for the Implementation of the English Language Curriculum". Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials **(D2.5, SELS2.1, V3.4, V4.2, V4.4).** They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target "future myths and legends; future of humanity" using the web 2.0 programme. S/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 or a real box in the classroom. S/

He asks the students to take turns to go to the white/blackboard and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2).** Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20).** The teacher asks the students in their seats to take notes while the student at the white/blackboard talks about the picture s/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3).** When the student at the white/blackboard finishes, the teacher asks her/him to put the picture under the right category that s/he has previously placed on the white/blackboard earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5).** The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, SELS2.2, V3.4, V6.2, CS2.20).** Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum". When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15).** They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3).**

ENG.12.8.G1.

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising - discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then s/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme **(D3.2, LS7).** The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2).** While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2).** Then s/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7).** The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7).** The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3).** Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7).** The teacher asks the pairs to say what they have found **(D2.3, CS2.10).** As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.1, D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3).** Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1).** The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. S/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2).** Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15).** This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar

tasks s/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13).** These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.1, D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3).** S/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2).** S/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in **context (D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13).** They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4).** When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15).** They also give feedback to each other **(D1.2, D1.6, D2.4, V4.2, V10.3, SELS2.2).** This is evaluated as described in items (5), (8) and (9) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.8.R1.

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3).** Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2).**

ENG.12.8.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8).** Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6).** They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard: "future myths and legends; future of humanity" **(D3.6, V3.3, V11.1, V11.2, LS2, LS5, CS2.7).** Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8).** The teacher could use different versions of the scanning activities as described in the "listening/watching-comprehension" section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1).** They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8).**

ENG.12.8.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1).** During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6).** They work on the new words in the same way as in the vocabulary sessions. Then they deal with

the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6).** They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme in terms of what students of future myths and legends; future of humanity mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13).** The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20). After** this stage, they work on activities to connect their knowledge and skills they have acquired about "future myths and legends; future of humanity" with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.3, V11.1, V11.2, LS1, LS5, LS6, CS2.13, CS2.14).** In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20).**

ENG.12.8.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3).** They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

ENG.12.8.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about "future myths and legends; future of humanity" to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12).** This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2).**

ENG.12.8.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2).** These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to students future myths and legends; future of humanity in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1).**

ENG.12.8.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1).** They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1).** Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13).**

ENG.12.8.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts,

and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20).** They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2).** Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on different students of future myths and legends; future of humanity for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.3, V11.1, V11.2, LS5, CS2.14, CS3.3).** Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9).**

ENG.12.8.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/ video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14).** All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(SELS1.2, V12.3, LS1, CS3.1).**

ENG.12.8.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about students future myths and legends; future of humanity through their writing tasks **(V3.3, V11.1, V11.2, CS3.3).** They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20).** All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.8.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15).** After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1).**

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5).**

ENG.12.8.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12).** Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2).** Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13).**

ENG.12.8.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2).** These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme "future myths and legends; future of humanity" in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V11.1, V11.2, LS1, CS2.4, CS2.19, CS3.2).** They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5).**

ENG.12.8.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9).** These newly created contents are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20).**

ENG.12.8.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content, and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20).** These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(D3.6, SELS2.1, CS2.13).**

ENG.12.8.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme on "future myths and legends; future of humanity" **(V4.5, LS5, CS2.13, CS2.14).** Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9).** Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2).** All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section "1.2. Principles for the Implementation of the English Language Curriculum".

ENG.12.8.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15).** The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also, they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1).**

DIFFERENTIATION

Expansion

Objective: To produce a creative story about possible future scenarios based on real or unreal situations by using the target vocabulary and target language items.

Activity 1: Create a Future Legend

The teacher explains the task clearly. Students will write detailed sentences about a legend that involves a prediction for the future. The teacher gives examples of sentences with target language items and target vocabulary (e.g. If the legend of the flying ships had been real, we would have advanced far beyond our current technology and have eco-friendly transportation systems today"). Next, students write sentences for detailed legends using target language items and target vocabulary. Then, they read their sentences aloud. The teacher listens and gives feedback on the use of the target language. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To write about possible future scenarios based on real or unreal situations by using target vocabulary and target language items.

Activity 1: Building a Future Legend

The teacher explains that students will create a legend about the future by discussing characteristics such as a hero or heroine, a supernatural element, and a moral lesson. S/he encourages the use of target language items. The teacher introduces several sentence starters, such as "If humanity had learned from past experiences, we might have prevented _____. If we had made better environmental choices earlier, the Earth would be _____ in 2200". Each group presents their future legend to the class. After each presentation, the teacher listens and gives feedback on the use of the target language. Students reflect on their thoughts and feelings about the activity.
